I am a farmdale Resident,  
 I oppose the increase  
 the sewer rates. I believe  
 that they shouldn't be able  
 to increase the rates  
 that exists in the same  
 year, a lot of people  
 wouldn't be able to  
 afford it like me. With  
 the increase of everything  
 else. I think there just  
 trying to take advantage  
 for something they know  
 everybody has to have.

Thank You,  
 Jpe

Case #

2007-00436

Also a increase like  
 that should be over year  
 not all at once including  
 the one over summer.  
 I own a place in  
 Shelbyville and the rates  
 wasn't that high. You  
 would think the capital  
 could be close to the use  
 or cheaper. I also know  
 I'm probably wasting my time  
 writing this with thanks it  
 has took place in the  
 past.
