May 2 - 2008

Stumbo Hoyer + Joann Wallen

Dear Sirs.

606-387-6192

We are customers of Gasco Gas and have been since 1997 and we concerned about the notice we saw in our local news paper of another rate increase. it's not been that long since we had a increase we saw a big difference in our monthly bills since the last increase. we put in a new heating & cooling unit in 1997 to natural gas from propane because of the cost. now we can't afford another increase. older people on fixed incomes have a hard time with rates rising so much. we are 73 + 70 yrs old we would appreciate any thing you can do to keep the rate down.
