HAND DELIVERED

Ms. Stephanie L. Stumbo Executive Director Public Service Commission Post Office Box 615 211 Sower Boulevard Frankfort, KY 40602

Re: Case No. 2008-00115

Dear Ms. Stumbo:

Please find enclosed for filing with the Commission in the above-referenced case an original and ten copies of the Joint Motion of East Kentucky Power Cooperative, Inc. ("EKPC") and Kentucky Industrial Utility Customers, Inc. ("KIUC") for Approval of a Settlement Agreement in this case. Attached to that Motion, as Exhibit 1, is the EKPC and KIUC Settlement Agreement, and attached as Exhibit 2 is Supplemental Testimony of David G. Eames on behalf of EKPC.

Very truly yours,

Charles A. Lile Corporate Counsel

AUG 08 2008

PUBLIC SERVICE

COMMISSION

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

THE APPLICATION OF EAST KENTUCKY POWER COOPERATIVE, INC., FOR APPROVAL OF AN AMENDMENT TO ITS ENVIRIONMENTAL COMPLIANCE PLAN AND ENVIRONMENTAL SURCHARGE

Case No. 2008-00115

JOINT MOTION FOR APPROVAL OF SETTLEMENT AGREEMENT

This Joint Motion for Approval of a Settlement Agreement is submitted to the Public Service Commission (the "Commission"), by and between East Kentucky Power Cooperative, Inc., (hereinafter referred to as "EKPC"); and Kentucky Industrial Utility Customers, Inc. (hereinafter referred to as "KIUC"), hereinafter collectively referred to as the "Parties." In support of this Motion, the Parties hereto state to the Commission as follows:

1. The Parties to this Motion have participated in extensive discovery, reviewed EKPC's Application and pre-filed direct testimony and KIUC's prepared testimony, participated in settlement conferences with the Commission staff on July 23 and July 30, 2008, and engaged in additional discussions by teleconference. The Parties have discussed and resolved all issues in the case, including

the amount of increase in the surcharge, the timing and the rate of return, and submit the Settlement

Agreement, attached hereto as Exhibit 1, as a full and unanimous settlement of the case.

2. Supplemental Direct Testimony of David G. Eames, attached hereto as Exhibit 2, explains the

basis of the Settlement Agreement and the issues resolved between the Parties. The Parties contend that

the terms of the Settlement Agreement comply with the requirements of KRS §278.183, in that they

represent a reasonable and cost-effective plan and surcharge for compliance with applicable

environmental requirements, and a reasonable return on such compliance-related capital expenditures.

3. In addition, the adoption of this Settlement Agreement will eliminate the need for the

Commission and the parties to expend significant resources in litigation of this proceeding, and

eliminate the possibility of, and any need for, rehearing or appeals of the Commission's final order

herein. It is the position of the parties hereto that the Settlement Agreement is supported by sufficient

and adequate data and information, and is entitled to approval by the Commission.

WHEREFORE, The Parties hereto hereby move the Commission to accept and approve the

Settlement Agreement of the Parties, and to enter an order to that effect in this case.

Respectfully submitted

Charles A. Lile, Esq.

PUBLIC SERVICE COMMISSION

COMMONWEALTH OF KENTUCKY BEFORE THE PUBLIC SERVICE COMMISSION

THE APPLICATION OF EAST KENTUCKY POWER COOPERATIVE, INC., FOR APPROVAL OF AN AMENDMENT TO ITS ENVIRONMENTAL COMPLIANCE PLAN AND ENVIRONMENTAL SURCHARGE

Case No. 2008-00115

SETTLEMENT AGREEMENT

This Settlement Agreement, is entered this 6th day of August, 2008, by and between East Kentucky Power Cooperative, Inc., (hereinafter referred to as "EKPC") and Kentucky Industrial Utility Customers, Inc. (hereinafter referred to as "KIUC").

WITNESSETH:

WHEREAS, EKPC filed an Application with the Kentucky Public Service Commission (the "Commission") on March 28, 2008, which was subsequently accepted for filing on April 28, 2008, for approval of an amendment of its Environmental Compliance Plan and Environmental Surcharge to add new environmental compliance projects, effective on May 1, 2008.

WHEREAS, The Commission, by order dated April 24, 2008, set the effective date of the proposed amendment for October 27, 2008, based on the statutory six month review period running from the April 28, 2008 acceptance date of the Application.

WHEREAS, KIUC was made a party to PSC Case No. 2008-00115 by an order of the Commission dated May 12, 2008.

WHEREAS, the Parties to the above-referenced case participated in extensive discovery, reviewed EKPC's pre-filed direct testimony and KIUC's prepared testimony from Lane Kollen, participated in settlement conferences with the Commission staff on July 23 and July 30, 2008, and engaged in additional discussions by teleconference.

WHEREAS, the Parties have discussed and resolved the issues of the amount of the increase in EKPC's Environmental Surcharge, the rate of return, the timing of such changes and all other issues in the case.

WHEREAS, The Parties desire to settle the issues in the above-referenced case based on the terms contained in this Settlement Agreement.

NOW, THEREFORE, for and in consideration of the premises and conditions set forth herein, the Parties hereby agree, as follows:

- 1. The Parties agree that EKPC's Base Environmental Surcharge Factor ("BESF") shall be increased by \$1,012,000, to reflect the Times Interest Earned Ratio ("TIER") return currently recovered in base rates on Construction Work In Progress ("CWIP") amounts relating to projects existing as of September 30, 2006, and added to EKPC's Environmental Compliance Plan in this case.
- 2. The Parties agree that EKPC's TIER for the Environmental Surcharge shall be raised to 1.35, subject to EKPC's agreement to credit the surcharge in January 2009 by any amount of EKPC net margins for the twelve months ending December 31, 2008 that exceeds a 1.35 TIER return, up to a maximum amount of \$3,500,000.
- 3. The Parties agree that EKPC will certify to the Commission, and EKPC member system Owen Electric Cooperative will also certify to the Commission, that they will make no proposals in this case, or in PSC Case No. 2007-00378, to change the existing methodology for the allocation of the Environmental Surcharge to customers.
- 4. The Parties agree that the changes to EKPC's Environmental Compliance Plan and Environmental Surcharge will be effective for service rendered on and after November 1, 2008, to facilitate EKPC's billing cycle.
- 5. All other changes to EKPC's Environmental Compliance Plan and Environmental Surcharge shall be made as proposed in EKPC's Application.
- 6. The Parties request that the Commission suspend the remainder of the Procedural Schedule established for this case, and schedule appropriate proceedings for review and approval of this Settlement Agreement.
- 7. The Parties agree that if the Commission materially alters this Settlement Agreement, then either Party to this Agreement may elect to withdraw its consent to this Settlement Agreement and the Settlement

Agreement will be null and void. Before withdrawing from the Settlement Agreement the Parties agree to renegotiate in good faith to try to reach a supplemental settlement.

- 8. This Settlement Agreement is subject to the approval of the Commission and shall not be deemed to affect the jurisdiction of the Commission or to in any way supersede Chapter 278 of the Kentucky Revised Statutes.
- 9. The Parties agree that this Settlement Agreement is reasonable given EKPC's status as an electric power cooperative, owned by its members, rather than an investor-owned utility, and the particular circumstances in this proceeding. Nothing in this settlement shall be considered as precedent in future cases before the Commission.
- 10. Upon formal adoption and acceptance by the Commission of this Settlement Agreement as a full resolution of EKPC's proposed amendment of its Environmental Compliance Plan and Environmental Surcharge, the Parties agree that no petition for rehearing, pursuant to KRS §278.400, nor any appeal, pursuant to KRS §278.410, will be filed by either Party regarding this case.

IN WITNESS WHEREOF, the duly authorized counsel for the Parties have affixed their signatures to this Settlement Agreement on the date first above written.

Chara. Lik

	Exhibit 2
	RECEIVE
	COMMONWEALTH OF KENTUCKY AUG 0 8 2008
	BEFORE THE PUBLIC SERVICE COMMISSION PUBLIC SERVICE
In th	commission commission
	THE APPLICATION OF EAST KENTUCKY POWER COOPERATIVE, INC., FOR APPROVAL OF AN AMENDMENT TO ITS ENVIRONMENTAL COMPLIANCE PLAN AND ENVIRONMENTAL SURCHARGE)
	SUPPLEMENTAL TESTIMONY OF DAVID G. EAMES ON BEHALF OF EAST KENTUCKY POWER COOPERATIVE, INC.
Q.	Please state your name, business address and occupation.
A.	My name is David G. Eames, East Kentucky Power Cooperative ("EKPC"), 4775
	Lexington Road, Winchester, Kentucky 40391. I am Chief Financial Officer for
	EKPC.
Q.	Have you previously filed prepared testimony in this case?
A.	Yes, I submitted direct testimony which was designated as Exhibit 1 to the
	Application filed in this case.
Q.	What is the purpose of your supplemental testimony?
A.	The purpose is to explain the circumstances and discussions which led EKPC and
	Kentucky Industrial Utility Customers, Inc. ("KIUC") to enter the Settlement
	Agreement which is being entered in this case.
Q.	Are you sponsoring any supplemental exhibits in this proceeding?
A.	Yes. I am sponsoring Exhibits DGE-Supplemental 1 through 4.

1		DGE – Supplemental 1 is an update through June 2008, of EKPC's rolling 12-
2		month margins, Times Interest Earned Ratio ("TIER") and Debt Service
3		Coverage ("DSC") ratio. DGE - Supplemental 2 is the same as DGE -
4		Supplemental 1 except that the one-time book income pickup of \$15,857,516
5		from EKPC's settlement of a lawsuit with the Environmental Protection Agency
6		("EPA"), made in December 2007, has been removed from the rolling 12-month
7		margin, TIER and DSC. DGE – Supplemental 3 is a financial analysis of EKPC's
8		first 6 months of 2008, plus the budget for the remaining 6 months of 2008, to
9		give a projection of what EKPC's 2008 actual results might be. It also calculates
10		the minimum margins required to meet the DSC covenant in the RUS Mortgage
11		and the Credit Facility. DGE – Supplemental 4 calculates the best 2 out of 3
12		years TIER and DSC for the years 2006 & 2007. It also projects 2008 TIER and
13		DSC levels, based upon the projection of EKPC year-end margins in DGE -
14		Supplement 3.
15	Q.	Have EKPC and KIUC reached an agreement on an appropriate TIER level
16		for the EKPC environmental surcharge?
17	A.	Yes, EKPC and KIUC have agreed upon the 1.35 TIER level, with commitments
18		by EKPC to credit to the surcharge any 2008 net margins which exceed that level,
19		up to \$3.5 million. EKPC requested a 1.35 TIER level for the surcharge, not
20		simply because it was the level granted in EKPC's most recent base rate case, but
21		because EKPC's financial difficulties, explained in detail in that case, have not
22		improved to the point that such a TIER level is no longer needed. EKPC provided

to KIUC current financial reports and budget information for the remainder of

2008 which demonstrate EKPC is not "over-earning", and that it needs to receive the requested return on the surcharge in order to meet its loan covenants for 2008.

- Q. Has EKPC's financial condition significantly improved over the past twelve months?
- 5 A. While EKPC's actual 12-month TIER levels through April 2008 seemed to indicate an improved financial situation, they do not represent a clear 6 improvement in EKPC's financial condition for the following reasons: The first 7 reason is that the numbers include a one time book income pickup of \$15,857,516 8 due to the final settlement of the EPA lawsuits. The second reason is that EKPC typically earns most of its margins in the January-March period so the numbers 10 through April reflected above average results that EKPC had in January & 11 February 2008. The April TIER and DSC fell from 1.44 and 1.17 to 1.19 and 12 1.00, respectively, in June, as indicated in Exhibit DGE- Supplemental 1. If you 13 14 remove the effects of the EPA settlement, which is reflected in Exhibit DGE-Supplemental 2, the June results fall to 1.04 and 0.91—clearly levels that do not 15 reflect overearning. Another significant item that affected EKPC's results through 16 June was the Gilbert Unit outage. EKPC absorbed \$2,000,000 in forced outage 17 power purchase costs in June and will have to absorb around \$5,000,000 more in 18 19 July. The total EKPC unrecovered forced outage costs, for the year to date through July, amounts to about \$12,500,000. 20
- Q. Does EKPC expect to earn sufficient margins in 2008 to meet its loan covenants?
- A. That is not clear at this time. Right now EKPC runs the risk of not meeting the

 DSC covenants of both its mortgage with RUS and the Credit Facility. Exhibit

1	DGE- Supplemental 3 shows EKPC's projection of its 2008 margins, based on
2	actual results through June and budget information through the remainder of the
3	year. As shown in Exhibit DGE- Supplemental 4, those projected margins would
4	not allow EKPC to meet the RUS mortgage and Credit Facility covenants, based
5	on the best two of the last three years. EKPC is now deferring some maintenance
6	on its generation plants, deferring a computer software upgrade, and is reviewing
7	other areas in hopes of reducing 2008 expenses by at least \$5,000,000.

- Q. What are the consequences to EKPC of failure to satisfy those loan covenants?
- 10 A. If EKPC does not meet the loan covenants, the lenders in the Credit Facility can
 11 place EKPC in default and refuse to advance additional funds or call the loan
 12 funds outstanding. If called, the loan would be due and payable immediately.
 13 EKPC does not have the funds to repay the lenders. EKPC would also be in
 14 potential default on the RUS Mortgage and RUS could refuse to advance any
 15 more loan funds.
- 16 Q. Has EKPC significantly improved its equity level since the base rate increase 17 granted in PSC Case No. 2006-00472?
- 18 A. No. EKPC's equity as of June 30, 2008, was 6.5%, well below the 10-12.5% goal
 19 EKPC needs to be considered a strong credit by the investment community.
- Q. EKPC testimony in PSC Case No. 2006-00472 stated that EKPC anticipated an increasing need to rely on private financing for generation projects in the future. Has this situation changed in any significant respect?

- 1 A. No. As of today, RUS is still not lending money for coal-fired or nuclear base
- load generation. In addition to financing base load generation outside of RUS,
- 3 EKPC will need to renew the Credit Facility to fund cash flow needs.
- 4 Q. Does EKPC believe that setting a TIER level below 1.35 for the
- 5 environmental surcharge would be an impediment to resolving its financial
- 6 difficulties?
- 7 A. Yes. The granting of a TIER of 1.35 signals to the investment community that
- 8 EKPC is continuing to try to improve its financial position. It also sends the signal
- 9 that the Commission recognizes the need for EKPC to have strong financials—a
- very strong plus for the investment community.
- 11 Q. Have EKPC and KIUC reached any agreement regarding an appropriate
- adjustment to the CWIP-related interest and TIER margins, to account for
- costs being recovered in base rates?
- 14 A. Yes. EKPC and KIUC agree that the total amount of CWIP-related interest and
- TIER margins for facilities included in this case, which was recovered through
- base rates, was \$3.904 million. However, this amount was reduced by \$2.892
- million (\$3.904/1.35 TIER) through an AFUDC offset. The difference is the
- agreed adjustment in this case of \$1.012 million.
- 19 Q. Does that adjustment resolve concerns that EKPC has attempted to recover
- both a return on Construction Work-In-Progress ("CWIP") and on
- capitalizing Allowance for Funds Used During Construction ("AFUDC")?
- 22 A. Yes, EKPC and KIUC agree that this will address that concern.

1	Q.	Have EKPC and KIUC agreed that the requested revenue requirement
2		should be reduced to reflect savings in SO2 and NOx emission allowance
3		expenses which should result from the projects involved in the case?
4	A.	No. The revenue requirement in the application did not include a request for the
5		recovery of emission allowance expense. It is recovered through a separate
6		monthly adjustment that automatically passes the cost through the surcharge.
7		This second adjustment will be lower because of the reduced need for allowances
8		when the scrubbers are placed into operation. KIUC now agrees with EKPC that
9		no reduction in EKPC's proposed revenue requirement is needed to account for
10		those future savings.
11	Q.	Have EKPC and KIUC reached a formal settlement of the various issues
12		raised by KIUC in this case?
13	A.	Yes. The proposed Settlement Agreement in this case is attached to the Joint
14		Motion for Approval of a Settlement Agreement, as Exhibit "1." EKPC and
15		KIUC contend that it represents an appropriate settlement of the case, and
16		establishes reasonable rates and a cost-effective plan for EKPC's environmental
17		surcharge.
18	Q.	Have EKPC and KIUC agreed on the appropriate effective date?
19	A.	Yes. The effective date will be for service rendered on and after November 1,
20		2008, which will simplify EKPC's billing to its member systems.
21	Q.	Are there any other specific commitments of the parties to the Settlement
22		Agreement?
23	A.	EKPC will agree to certify to the Commission, and will request its member

distribution system Owen Electric Cooperative to also certify, that no proposals

- will be made in this case, or in PSC Case No. 2007-00378, to change the
- 2 methodology for allocating of the surcharge to customers.
- 3 Q. Does this conclude your testimony?
- 4 A. Yes, it does.
