Re: **McCreary County Water District (New Liberty Project) PSC Application**

Dear Ms. Stumbo:

Enclosed please find the original and ten (10) copies of the Application of the McCreary County Water District for a Certificate of Public Convenience and Necessity to construct, finance and increase rates pursuant to KRS 278.023.

Also enclosed are eleven (11) copies of the exhibits required pursuant to 807 KAR 5.069, with the exception of the Preliminary and Final Engineering Reports, of which two copies are enclosed.

If you need any additional information or documentation, please let us know.

Sincerely,

Rubin & Hays

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

RECEIVED

APR 15 2008

PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF MCCREARY COUNTY)
WATER DISTRICT OF MCCREARY COUNTY,)
KENTUCKY, FOR A CERTIFICATE OF PUBLIC)
CONVENIENCE AND NECESSITY TO CONSTRUCT,)
FINANCE AND INCREASE RATES PURSUANT)
TO KRS 278.023.)

Case No. 2008-00137

APPLICATION

This Application of the McCreary County Water District ("Applicant") of McCreary County, Kentucky, respectfully shows:

1. That Applicant is a water district of McCreary County, Kentucky, created and existing under and by virtue of Chapter 74 of the Kentucky Revised Statutes.

2. That the post office address of Applicant is:

McCreary County Water District
c/o Mr. Raymond Taylor, Chairman
P.O. Box 488
Whitley City, Kentucky 42653

3. That Applicant, pursuant to the provisions of KRS 278.020 and 278.023, seeks (i) a Certificate of Public Convenience and Necessity, permitting Applicant to construct a waterworks construction project, consisting of extensions, additions, and improvements (the "New Liberty Project") to the existing waterworks system of Applicant; (ii) an Order approving the proposed financing; and (iii) an Order approving increased rates.

4. That the New Liberty Project consists of the construction and installation of (i) approximately 46,000 linear feet of 3, 4 and 6 inch water main and appurtenances; and (ii) a 50,000 gallon water storage tank.

5. That Applicant proposes to finance the construction of the Project through (i) the issuance of \$325,000 of its Waterworks Revenue Bonds; (ii) a Rural Development ("RD") grant in the amount of \$446,000; and (iii) a Kentucky Infrastructure Authority ("KIA") grant in the amount of \$500,000. Applicant has a commitment from RD to purchase said \$325,000 of bonds maturing

over a 40-year period, at an interest rate of not exceeding 4.125% per annum, as set out in the RD Letter of Conditions filed herewith as an Exhibit.

6. That Applicant does not contemplate having the Project constructed with any deviation from minimum construction standards of this Public Service Commission.

7. That Applicant files herewith the following Exhibits pursuant to 807 KAR 5:069 in support of this Application:

- A. Copy of RD Letter of Conditions, as amended.
- B. Copy of RD Letter of Concurrence in Contract Award.
- C. Copy of Preliminary and Final Engineering Reports.
- D. Certified statement from the Chairman of Applicant, based upon statements of the Engineers for Applicant, concerning the following:
 - (1) The proposed plans and specifications for the Project have been designed to meet the minimum construction and operating requirements set out in 807 KAR 5:066, Section 4(3) and (4); Section 5(1); Sections 6 and 7; Section 8(1) through (3); Section 9(1) and Section 10;
 - (2) All other state approvals or permits have already been obtained;
 - (3) The proposed rates of Applicant shall produce the total revenue requirements set out in the engineering reports; and
 - (4) Setting out the dates when it is anticipated that construction will begin and end.

8. That Applicant has arranged for the publication, prior to or at the same time this Application is filed, of a Notice of Proposed Rates pursuant to Section 2 of 807 KAR 5:069, in the McCreary County Voice, which is the newspaper of general circulation in Applicant's service area and in McCreary County, Kentucky. Said Notice sets out the current rates and the proposed rates of Applicant and a short description of the Project. A copy of said Notice is filed herewith as an Exhibit.

9. That the foregoing constitutes the documents necessary to obtain the approval of the Kentucky Public Service Commission in accordance with Section 278.023 of the Kentucky Revised Statutes and in accordance with the "Filing Requirements" specified in 807 KAR 5:069, Section 1.

WHEREFORE, Applicant, the McCreary County Water District, asks that the Public Service Commission of the Commonwealth of Kentucky grant to Applicant the following:

- a. A Certificate of Public Convenience and Necessity permitting Applicant to construct a waterworks project consisting of extensions, additions, and improvements to the waterworks system of Applicant.
- b. An Order approving the financing arrangements made by Applicant, viz., the issuance of (i) \$325,000 of McCreary County Water District Waterworks Revenue Bonds at an interest rate of not exceeding 4.125% per annum; (ii) a Rural Development grant in the amount of \$446,000; and (iii) a KIA grant in the amount of \$500,000.
- c. An Order approving the increased rates as set out in Section 28 of the RD Letter of Conditions, as amended, filed herewith as an Exhibit.

MCCREARY COUNTY WATER DISTRICT

Rural Development
Kentucky State Office**

February 9, 2007

Mr. Raymond Taylor, Chairman
McCreary County Water District
P.O. Box 488
Whitley City, Kentucky 42653

Dear Mr. Taylor:

This letter establishes conditions which must be understood and agreed to by you before further consideration may be given to the application. The loan and grant will be administered on behalf of the Rural Utilities Service (RUS) by the State and Area office staff of USDA Rural Development. Any changes in project cost, source of funds, scope of services or any other significant changes in the project or applicant must be reported to and approved by USDA Rural Development, by written amendment to this letter. Any changes not approved by Rural Development shall be cause for discontinuing processing of the application. It should also be understood that Rural Development is under no obligation to provide additional funds to meet an overrun in construction costs.

This letter is not to be considered as loan and grant approval or as a representation as to the availability of funds. The docket may be completed on the basis of a RUS loan not to exceed \$325,000; a RUS grant not to exceed \$446,000; and a Kentucky Infrastructure Authority (KIA) grant in the amount of \$500,000.

If Rural Development makes the loan, the interest rate will be the lower of the rate in effect at the time of loan approval or the rate in effect at the time of loan closing, unless the applicant otherwise chooses. The loan will be considered approved on the date a signed copy of Form RD 1940-1, "Request for Obligation of Funds," is mailed to you.

Please complete and return the attached Form RD 1942-46, "Letter of Intent to Meet Conditions," if you desire that further consideration be given to your application.

The "Letter of Intent to Meet Conditions" must be executed within three weeks from the date of this letter or it becomes invalid unless a time extension is granted by Rural Development.

If the conditions set forth in this letter are not met within 240 days from the date hereof, Rural Development reserves the right to discontinue the processing of the application.

In signing Form RD 1942-46, "Letter of Intent to Meet Conditions," you are agreeing to complete the following as expeditiously as possible:

771 Corporate Drive • Suite 200 • Lexington, KY 40503
Phone: (859) 224-7336 • Fax: (859) 224-7444 • TDD: (859) 224-7422 • Web: <http://www.rurdev.usda.gov/ky>

Committed to the future of rural communities

"USDA is an equal opportunity provider, employer and lender."
To file a complaint of discrimination write USDA, Director, Office of Civil Rights,
1400 Independence Avenue, SW, Washington, DC 20250-9410
or call (800) 795-3272 (voice) or (202) 720-6382 (TDD).

1. Number of Users and Their Contribution:

There shall be 6,173 water users, of which 6,123 are existing users and 50 are new users. The Area Director will review and authenticate the number of users prior to advertising for construction bids.

2. Grant Agreement:

Attached is a copy of RUS Bulletin 1780-12, "Water and Waste System Grant Agreement," for your review. You will be required to execute a completed form at the time of grant closing.

3. Drug-Free Work Place:

Prior to grant closing, the District will be required to execute Form AD-1049, "Certification Regarding Drug-Free Workplace Requirements (Grants) Alternative I - For Grantees Other Than Individuals."

4. Repayment Period:

The loan will be scheduled for repayment over a period not to exceed 40 years from the date of the Bond. Principal payment will not be deferred for a period in excess of two years from the date of the Bond. Payments will be in accordance with applicable KRS, which requires interest to be paid semi-annually (April 1st and October 1st) and principal will be due on or before the first of April. Rural Development may require the District to adopt a supplemental payment agreement providing for monthly payments of principal and interest so long as the bond is held or insured by RUS. Monthly payments will be approximate amortized installments.

5. Recommended Repayment Method:

Payments on this loan can be made using the Preauthorized Debit (PAD) payment method. This procedure eliminates the need for paper checks and ensures timely receipt of RD loan payments. To initiate PAD payments, Form SF 5510, "Authorization Agreement for Preauthorized Payments," should be signed by the District to authorize the electronic withdrawal of funds from your designated bank account on the exact installment payment due date. The Area Director will furnish the necessary forms and further guidance on the PAD procedure.

6. Reserve Accounts:

Reserves must be properly budgeted to maintain the financial viability of any operation. Reserves are important to fund unanticipated emergency maintenance, pay for repairs, and assist with debt service should the need arise.

The District will be required to deposit \$145 per month into a "Funded Depreciation Reserve Account" until the account reaches \$17,400. The deposits are to be resumed any time the account falls below the \$17,400.

The required monthly deposits to the Reserve Account and required Reserve Account levels are in addition to the requirements of the District's prior bond ordinances.

The monthly deposits to the Reserve Account are required to commence with the first month of the first full fiscal year after the facility becomes operational.

The District also needs to fund an account for short-lived assets by depositing a sum of \$2,577 monthly into the account. The funds in the short-lived asset account may be used by the District as needed to replace or add short-lived assets in the District's water system.

7. Security Requirements:

A pledge of gross water revenue will be provided in the Bond Resolution. Bonds shall rank on a parity with existing bonds, if possible.

If this is not possible, the bond will be subordinate and junior to the existing bonds, in which case the District will be required to abrogate its right to issue additional bonds ranking on a parity with the existing bonds, so long as any unpaid indebtedness remains on this bond issue.

8. Land Rights and Real Property:

The District will be required to furnish satisfactory title, easements, etc., necessary to install, maintain and operate the facility to serve the intended users. The pipelines will be on private rights-of-way where feasible. Easements and options are to be secured prior to advertising for construction bids.

9. Organization:

The District will be legally organized under applicable KRS which will permit them to perform this service, borrow and repay money.

10. Business Operations:

The District will be required to operate the system under a well-established set of resolutions, rules and regulations. A budget must be established annually and adopted by the District after review by Rural Development. At no later than loan pre-closing, the District will be required to furnish a prior approved management plan to include, as a minimum, provisions for management, maintenance, meter reading, miscellaneous services, billing, collecting, bookkeeping, making and delivering required reports and audits.

11. Accounts, Records and Audits:

The District will be required to maintain adequate records and accounts and submit annual budgets and year-end reports (annual audits) in accordance with subsection 1780.47 of RUS Instruction 1780 and RUS Staff Instruction 1780-4, a copy of which is enclosed.

The enclosed audit booklet will be used as a guide for preparation of audits. The District shall be required to submit a copy of its audit agreement for review and concurrence by Rural Development prior to pre-closing the loan.

The District will be required to establish and maintain separate accounts for each system. Annual audits, budgets, and reports will be submitted to Rural Development showing separate accounts.

12. Accomplish Audits for Years in Which Federal Financial Assistance is Received:

The District will accomplish audits in accordance with OMB Circular A-133, during the years in which federal funds are received. The District will provide copies of the audits to the Area Office and the appropriate Federal cognizant agency as designated by OMB Circular A-133.

13. Insurance and Bonding:

The following insurance and bonding will be required:

- A. Adequate Liability and Property Damage Insurance including vehicular coverage, if applicable, must be obtained and maintained by the District. The District should obtain amounts of coverage as recommended by its attorney, consulting engineer and/or insurance provider.
- B. Worker's Compensation - The District will carry worker's compensation insurance for employees in accordance with applicable state laws.
- C. Fidelity Bond - The District will provide Fidelity Bond Coverage for all persons who have access to funds. Coverage may be provided either for all individual positions or persons, or through "blanket" coverage providing protection for all appropriate employees and/or officials. The amount of coverage required for all RUS loans is \$257,000.
- D. Real Property Insurance - The District will obtain and maintain adequate fire and extended coverage on all structures including major items of equipment or machinery located in the structures. The amounts of coverage should be based on recommendations obtained by the District from its attorney, consulting engineer and/or insurance provider. Subsurface lift stations do not have to be covered except for the value of electrical and pumping equipment therein.
- E. Flood Insurance - The District will obtain and maintain adequate coverage on any facilities located in a special flood and mudslide prone areas.

14. Planning and Performing Development:

- A. The engineer should not be authorized to commence work on final plans and specifications until a determination has been made that the project can be planned and constructed within the estimated cost shown in paragraph "24" of this letter. The engineer may then proceed to develop final plans and specifications to be completed no later than 210 days from this date, and prepare bid documents. The Area Director is prepared to furnish the necessary guide to follow so as to keep the project plans and documents within our guidelines and requirements. The project should not be advertised for construction bids until all easements and enforceable options have been obtained, and total funds are committed or available for the project.

B. The following documents will be submitted to Rural Development for review and must be concurred in by Rural Development prior to advertisement for construction bids:

1. Final plans, specifications and bid documents.
2. Applicant's letter on efforts to encourage small business and minority-owned business participation.
3. Legal Service Agreements.
4. Engineering Agreements.

Revision in these documents will be subject to Rural Development concurrence. Any agreements, contracts, etc. not reviewed and approved by Rural Development will not be eligible for payment from project funds or revenues from facilities financed by this Agency.

Prior to receipt of an authorization to advertise for construction bids, the District will obtain advance clearance from Bond Counsel regarding compliance with KRS 424 pertaining to publishing of the advertisement for construction bids in local newspapers and the period of time the notice is required to be published.

15. Civil Rights & Equal Opportunity:

You should be aware of and will be required to comply with other federal statute requirements including but not limited to:

A. Section 504 of the Rehabilitation Act of 1973:

Under Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), no handicapped individual in the United States shall, solely by reason of their handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Rural Development financial assistance.

B. Civil Rights Act of 1964:

All borrowers are subject to, and facilities must be operated in accordance with, Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d *et seq.*) and Subpart E of Part 1901 of this Title, particularly as it relates to conducting and reporting of compliance reviews. Instruments of conveyance for loans and/or grants subject to the Act must contain the covenant required by paragraph 1901.202(e) of this Title.

C. The Americans with Disabilities Act (ADA) of 1990:

This Act (42 U.S.C. 12101 *et seq.*) prohibits discrimination on the basis of disability in employment, state and local government services, public transportation, public accommodations, facilities, and telecommunications. Title II of the Act applies to facilities operated by state and local public entities that provide services, programs, and activities. Title III of the Act applies to facilities owned, leased, or operated by private entities that accommodate the public.

D. Age Discrimination Act of 1975:

This Act (42 U.S.C. 6101 et seq.) provides that no person in the United States shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

Rural Development financial programs must be extended without regard to race, color, religion, sex, national origin, marital status, age, or physical or mental handicap.

16. Closing Instructions:

The Office of General Counsel, our Regional Attorney, will be required to write closing instructions in connection with this loan. Conditions listed therein must be met by the District.

17. Compliance with Special Laws and Regulations:

The District will be required to conform to any and all state and local laws and regulations affecting this type project.

18. Treatment Plant/System Operator:

The District is reminded that the treatment plant and/or system operator must have an Operator's Certificate issued by the State.

19. Prior to Pre-Closing the Loan, the District Will Be Required to Adopt:

- A. Form RUS Bulletin 1780-27, "Loan Resolution (Public Bodies)."
- B. Form RD 400-1, "Equal Opportunity Agreement."
- C. Form RD 400-4, "Assurance Agreement."
- D. Form AD-1047, "Certification Regarding Debarment, Suspension, and Other Responsibility Matters - Primary Covered Transaction."
- E. Form RD 1910-11, "Applicant Certification Federal Collection Policies for Consumer or Commercial Debts."
- F. RD Instruction 1940-Q, Exhibit A-1, "Certification for Contracts, Grants and Loans."
- G. RUS Bulletin 1780-22, "Eligibility Certification."

20. Refinancing and Graduation Requirements:

The District is reminded that if at any time it shall appear to the Government that the District is able to refinance the amount of the RUS indebtedness then outstanding, in whole or in part, by obtaining a loan from commercial sources at reasonable rates and terms, upon the request of the Government, the District will apply for and accept such loan in sufficient amount to repay the Government.

21. Commercial Interim Financing:

The District will be required to use commercial interim financing for the project during construction for the RUS loan portion of the financing, if available at reasonable rates and terms.

Before the loan is closed, the District will be required to provide Rural Development with statements from the contractor, engineer and attorneys that they have been paid to date in accordance with their contract or other agreements and, in the case of the contractor, that he has paid his suppliers and sub-contractors.

22. Disbursement of Project Funds:

A construction account for the purpose of disbursement of project funds (RUS) will be established by the District prior to start of construction. The position of officials entrusted with the receipt and disbursement of RUS project funds will be covered by a "Fidelity Bond," with USDA Rural Development as Co-Obligee, in the amount of construction funds on hand at any one time during the construction phase.

During construction, the District shall disburse project funds in a manner consistent with subsection 1780.76 (e) of RUS Instruction 1780. Form RD 1924-18, "Partial Payment Estimate," or similar form approved by Rural Development, shall be used for the purpose of documenting periodic construction estimates, and shall be submitted to Rural Development for review and acceptance. Prior to disbursement of funds by the District, the Board of Directors shall review and approve each payment estimate. All bills and vouchers must be approved by Rural Development prior to payment by the District.

Form RD 440-11, "Estimate of Funds Needed for 30-Day Period Commencing _____," will be prepared by the District and submitted to Rural Development in order that a periodic advance of federal cash may be requested.

Monthly audits of the District's construction account records shall be made by Rural Development.

23. Disbursement of Grant Funds:

The RUS funds will be advanced as they are needed in the amount(s) necessary to cover the RUS proportionate share of obligations due and payable by the District. Grant funds, upon receipt, must be deposited in an interest bearing account in accordance with 7 CFR part 3016 (as applicable). Interest earned on grant funds in excess of \$100 (as applicable) per year will be submitted to RUS at least quarterly.

24. Cost of Facility:

Breakdown of Costs:

Development	\$ 951,500
Land and Rights	17,500
Legal and Administrative	20,000
Engineering	164,900
Interest	22,000
Contingencies	<u>95,100</u>
TOTAL	\$ 1,271,000

Financing:

RUS Loan	\$ 325,000
RUS Grant	446,000
KIA Grant	<u>500,000</u>
TOTAL	\$ 1,271,000

25. Commitment of Other Project Funds:

This Letter of Conditions is issued contingent upon a firm commitment being in effect prior to advertising for construction bids for the KIA grant in the amount of \$500,000.

26. Use of Remaining Project Funds:

After providing for all authorized costs, any remaining project funds will be considered to be RUS/KIA grant funds and refunded in proportion to participation in the project. If the amount of unused project funds exceeds the grants, that part would be RUS loan funds.

27. Proposed Operating Budget:

You will be required to submit to Rural Development a copy of your proposed annual operating budget that supports the proposed loan repayment prior to this agency giving you written authorization to proceed with the bidding phase. The operating budget should be based on a typical year cash flow, subject to completion of this project in the first full year of operation. Form RD 442-7, "Operating Budget," or similar form may be utilized for this purpose.

28. Rates and Charges:

Rates and charges for facilities and services rendered by the District must be at least adequate to meet cost of maintaining, repairing and operating the water system and meeting required principal and interest payments and the required deposits to debt service and/or depreciation reserve.

Water rates will be at least:

A. Residential and Non-Residential:

First	2,000	gallons @ \$	14.95 - Minimum Bill.
All Over	2,000	gallons @ \$	4.95 - per 1,000 gallons.

B. Federal Correctional Facility:

First	1,980,000	gallons @ \$	9,657.55 - Minimum Bill.
All Over	1,980,000	gallons @ \$	4.95 - per 1,000 gallons.

29. Compliance with the Bioterrorism Act:

Prior to pre-closing the loan, the District will provide a certification they have completed a Vulnerability Assessment (VA) and prepared an emergency response plan (ERP) as required by the Safe Drinking Water Act (SDWA).

30. Floodplain Construction:

The District will be required to pass and adopt a Resolution or amend its By-Laws whereby the District will deny any water service to any future customer wishing to build on or develop property located within a designated floodplain. If a customer or developer requests service for construction in a designated floodplain, the customer or developer must provide evidence and a justification for approval by the District and Rural Development officials that there are no other alternatives to construction or development within the designated floodplain. The community must be a participant in the National Flood Insurance Program (NFIP) and the customer or developer must obtain the required permits prior to the tap on restrictions being waived.

31. Water Withdrawal Permit:

The District will be required to obtain satisfactory evidence that a revised water withdrawal permit has been secured from the Division of Water. The permit must be obtained prior to the commencement of construction on the water project.

32. Mitigation Measures:

- A. The project shall be in compliance with all requirements noted in the Governor's Office for Local Development letter dated September 14, 2006, from Ms. Lee Nalley.
- B. The design and construction shall be in compliance with the requirements of the U.S. Fish and Wildlife Service as requested by letter dated January 12, 2007, and signed by Virgil Lee Andrews, Jr., Field Supervisor.
- C. The line design and construction shall be accomplished in a way that will leave flood plains and farmland without effect after construction is complete. The Army Corps of Engineers Nationwide Permit No. 12 applies to all floodplain and wetland utility line construction.

- D. The design and construction shall be in compliance with all local, state and federal environmental statutes, regulations and executive orders applicable to the project.

33. Final Approval Conditions:

Final approval of this assistance will depend on your willingness, with the assistance of all your co-workers, to meet the conditions of this letter in an orderly and systematic manner. Then too, final approval will depend on funds being available.

If you desire to proceed with your application, the Area Director will allot a reasonable portion of time to provide guidance in application processing.

Sincerely,

KENNETH SLONE
State Director

Re: Letter of Conditions Dated February 9, 2007

Dear Mr. Taylor:

This letter shall serve as Amendment No. 1 to the Letter of Conditions dated February 9, 2007. The purpose of this amendment is to revise the number of users, the security requirements, and the rates and charges.

Paragraph numbered "1" is revised to read as follows:

" 1. Number of Users and Their Contribution:

There shall be 6,173 water users, of which 6,123 are existing users and 50 are new users. There shall also be 879 sewer users, all of which are existing users. The Area Director will review and authenticate the number of users prior to advertising for construction bids. "

Paragraph numbered "7" is revised to read as follows:

" 7. Security Requirements:

A combined pledge of gross water and sewer revenues will be provided in the Bond Resolution. Bonds shall rank on a parity with existing bonds, if possible. If this is not possible, the bond will be subordinate and junior to the existing bonds, in which case the District will be required to abrogate its right to issue additional bonds ranking on a parity with the existing bonds, so long as any unpaid indebtedness remains on this bond issue. "

Paragraph numbered "28" is revised to read as follows:

" 28. Rates and Charges:

Rates and charges for facilities and services rendered by the District must be at least adequate to meet cost of maintaining, repairing and operating the water and sewer systems and meeting required principal and interest payments and the required deposits to debt service and/or depreciation reserve.

or call (800) 795-3272 (voice) or (202) 720-6382 (TDD).

A. Water rates will be at least:

Residential and Non-Residential:

First	2,000	gallons @ \$	15.55 - Minimum Bill.
All Over	2,000	gallons @ \$	5.75 - per 1,000 gallons.

Federal Correctional Facility:

First	1,950,000	gallons @ \$	11,212.50 - Minimum Bill.
All Over	1,950,000	gallons @ \$	5.75 - per 1,000 gallons.

Riverwoods:

First	450,000	gallons @ \$	1,860.00 - Minimum Bill.
All Over	450,000	gallons @ \$	3.48 - per 1,000 gallons.

Cumberland Falls State Park:

First	600,000	gallons @ \$	2,600.00 - Minimum Bill.
All Over	600,000	gallons @ \$	3.48 - per 1,000 gallons.

Whitley County Water District water rate will be \$ 3.48 per 1,000 gallons.

Oneida water rate will be \$ 3.48 per 1,000 gallons.

B. Sewer rates will be at least:

Residential and Non-Residential:

First	2,000	gallons @ \$	12.25 - Minimum Bill.
Next	8,000	gallons @ \$	5.65 - per 1,000 gallons.
Next	10,000	gallons @ \$	4.85 - per 1,000 gallons.
All Over	20,000	gallons @ \$	4.25 - per 1,000 gallons.

Federal Correctional Facility:

First	1,300,000	gallons @ \$	5,525.00 - Minimum Bill.
All Over	1,300,000	gallons @ \$	4.25 - per 1,000 gallons. "

All other provisions of the referenced Letter of Conditions remain in full force and unchanged.

Sincerely,

KENNETH SLONE

SUBJECT: McCreary County Water District
New Liberty Water Extensions
Contract Award Concurrence

TO: Area Director
London, Kentucky

Based on the bids received and the recommendation of the consulting engineer, Rural Development concurs in the award of subject contract to the low bidder on Contract 2, Southern Kentucky Construction, LLC, in the amount of \$382,020.00, and the low bidder on Contract 2A, Caldwell Tanks, Inc., in the amount of \$726,100.00. This concurrence is contingent upon a change orders totaling \$184,769.50 being executed simultaneously with the construction contracts to lower the contracts within project funds available.

If you have any questions, please contact Julie Anderson, State Engineer, at (859) 224-7348.

KENNETH SLONE
State Director
Rural Development

**CERTIFICATE OF CHAIRMAN OF THE MCCREARY COUNTY WATER DISTRICT,
AS TO STATEMENT REQUIRED BY SECTION 1(5) OF 807 KAR 5:069**

I, Raymond Taylor, hereby certify that I am the duly qualified and acting Chairman of the McCreary County Water District of McCreary County, Kentucky, and that said District is in the process of arranging to finance the construction of extensions, additions and improvements to the water system of the District (the "Project"), in cooperation with Strand Associates, Inc., Louisville, Kentucky, the Engineers for the District (the "Engineers").

Based on information furnished to me by said Engineers for the District, I hereby certify as follows:

1. That the proposed plans and specifications for the Project have been designed to meet the minimum construction and operating requirements set out in 807 KAR 5:066 Section 4(3) and (4); Section 5(1); Sections 6 and 7; Section 8(1) through (3); Section 9(1) and Section 10.
2. That all other state approvals and/or permits have already been obtained.
3. That the existing rates of the District are contemplated to produce total revenue requirements set out in the Engineering Reports prepared by such Engineers and filed with the Public Service Commission.
4. That it is now contemplated that construction of the Project will begin on or about June 1, 2008, and will end on or about December 1, 2008.

IN TESTIMONY WHEREOF, witness my signature this April 4, 2008.

Chairman
McCreary County Water District

STATE OF KENTUCKY)
) SS
COUNTY OF MCCREARY)

Subscribed and sworn to before me by Raymond Taylor, Chairman of the Board of Commissioners of the McCreary County Water District, on this April 4, 2008.

Notary Public
In and For Said State and County

NOTICE OF PROPOSED RATE CHANGE

In accordance with the requirements of the Kentucky Public Service Commission as set out in 807 KAR 5:069, Section 2, notice is hereby given to the customers of the McCreary County Water District of a change in rates as set forth herein. The proposed rate change is required by USDA, Rural Development in connection with a loan by RD to the District in the amount of \$325,000 to be evidenced by the issuance by the District of its Waterworks Revenue Bonds in such amount, which RD has agreed to purchase provided the District meets certain conditions of RD, including revising the rates as set forth below:

Current Monthly Water Rates

Residential and Non-Residential Rates:

First 2,000 gallons	\$14.95 minimum bill
All Over 2,000 gallons	4.95 per 1,000 gallons

Prison Rates:

First 1,950,000 gallons	\$9,657.55 minimum bill
All Over 1,950,000 gallons	4.95 per 1,000 gallons

Whitley County Water District Rate:	\$3.48 per 1,000 gallons
-------------------------------------	--------------------------

Oneida, Tennessee Rate:	\$3.48 per 1,000 gallons
-------------------------	--------------------------

Current Monthly Sewer Rates

Residential Rates:

First 2,000 gallons	\$8.10 minimum bill
Next 8,000 gallons	4.30 per 1,000 gallons
Next 10,000 gallons	3.40 per 1,000 gallons
All Over 20,000 gallons	2.70 per 1,000 gallons

Non-Residential Rates:

First 2,000 gallons	\$10.80 minimum bill
Next 8,000 gallons	5.80 per 1,000 gallons
Next 10,000 gallons	4.50 per 1,000 gallons
All Over 20,000 gallons	3.60 per 1,000 gallons

Federal Correctional Facility Rates:

First 1,300,000 gallons	\$4,710.20 minimum bill
-------------------------	-------------------------

All Over 1,300,000 gallons 3.60 per 1,000 gallons

Proposed Monthly Water Rates

Residential and Non-Residential Rates:

First 2,000 gallons \$15.55 minimum bill
All Over 2,000 gallons 5.75 per 1,000 gallons

Federal Correctional Facility Rates:

First 1,950,000 gallons \$11,212.50 minimum bill
All Over 1,950,000 gallons 5.75 per 1,000 gallons

Riverwoods Rates:

First 450,000 gallons \$1,860.00 minimum bill
All Over 450,000 gallons 3.48 per 1,000 gallons

Cumberland Falls State Park Rates:

First 600,000 gallons \$2,600.00 minimum bill
All Over 600,000 gallons 3.48 per 1,000 gallons

Whitley County Water District Rate: \$3.48 per 1,000 gallons

Oneida, Tennessee Rate: \$3.48 per 1,000 gallons

Proposed Monthly Sewer Rates

Residential and Non-Residential Rates:

First 2,000 gallons \$12.25 minimum bill
Next 8,000 gallons 5.65 per 1,000 gallons
Next 10,000 gallons 4.85 per 1,000 gallons
All Over 20,000 gallons 4.25 per 1,000 gallons

Federal Correctional Facility Rates:

First 1,300,000 gallons \$5,525.00 minimum bill
All Over 1,300,000 gallons 4.25 per 1,000 gallons

The project consists of the construction and installation of approximately 46,000 linear feet of 3, 4 and 6 inch water main and appurtenances and a 50,000 gallon storage tank. Signed: Raymond Taylor, Chairman McCreary County Water District.

Exhibit 1 – Project Location Maps

Exhibit 2 – Summary Addendum to Preliminary Engineering Report

1. Purpose of Report

This report describes the scope of the proposed project and presents the general background data used in its planning and development. Design criteria and financial data are presented and discussed.

2. General Background Data

In October 2005, Strand Associates, Inc. was authorized by the McCreary County Water District (MCWD) to investigate the feasibility of constructing approximately 33,600 linear feet of 3" and 4" water main, 1 pump station, 1 storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road throughout McCreary County, KY. This project will provide a reliable source of potable water service to approximately 50 unserved customers and 100 underserved users. Citizens in the proposed water service areas have expressed considerable interest to the McCreary County Water District concerning the need for a reliable source of potable water service in the area.

The Kentucky State Clearinghouse comments were received on July 20, 2005 and no conflicts with the State's goals, plans, or objections were noted. The MCWD is applying for a USDA Rural Utilities Service (RUS) Water and Waste Loan and Grant to cover \$771,000.00 of the \$1,271,000.00 of the project cost. The remaining \$500,000.00 is to be covered by a KIA Grant if received by MCWD. If the KIA Grant is not received, MCWD will revise the application so that the USDA Rural Utilities Service (RUS) Water and Waste Loan and Grant will cover the full amount of the project. Exhibit 1 in the appendix shows the location of the proposed improvements.

3. Existing Systems

a. Water System

The McCreary County Water District (MCWD) has been providing potable water to portions of McCreary County since 1964. MCWD owns and operates two water treatment plants, plant number 1 is located near the community of Whitley City and has a capacity of 1.5 million gallons per day with its source of raw water being from Laurel Creek and plant number 2 is located near the community of Wiborg and has a rated capacity of 3.0 million gallons per day with its source of raw water being from the Big South Fork of the Cumberland River.

The MCWD currently serves 5,904 water users of which 5,633 are residential and 271 are commercial users. The system currently consist of 166,110 linear feet of 2" water main, 207,190 linear feet of 3" water main, 569,130 linear feet of 4" water main, 297,850 linear feet of 6" water main, 241,300 linear feet of 8" water main, 37,440 linear feet of 10" water main, 10,900 linear feet of 12" water

main, 10,560 linear feet of 16" water main, and 19,300 linear feet of 18" water main. Along with the water mains the District currently have eleven storage tanks for a total of 2,700,000 gallons of storage and four booster pumping stations.

b. Sanitary Sewer System

The McCreary County Water District (MCWD) has been providing sanitary sewer service to portions of McCreary County since 1997. MCWD owns and operates one wastewater treatment plant, McCreary County Wastewater Treatment Plant No. 2, which is located near the community of Stearns and has a rated capacity of 700,000 gallons per day.

The MCWD currently serves 443 sewer users of which 330 are residential and 113 are commercial users, including the U.S. Bureau of Prisons in Gilreath. The system consist of four main service areas; Marshes Siding, Whitley City, Stearns, and the U.S. Bureau of Prisons in Gilreath. The system currently consists of 53,795 linear feet of 1. 5" sewer main, 36,041 linear feet of 2" sewer main, 9,238 linear feet of 2.5" sewer main, 10,608 linear feet of 3" sewer main, 13,390 linear feet of 4" sewer main, 5,400 linear feet of 6" sewer main, 2,260 linear feet of 8" sewer main, and 50,053 linear feet of 10" sewer main. Along with the sewer mains the District currently have 18 pump stations and appurtenances.

4. Scope of Project

The proposed Contract 3 McCreary County Water District – County Water Extensions and Upgrade Project consists of approximately 33,500 linear feet of 3" and 4" water main, 1 pump station, 1 storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road throughout McCreary County, KY This project will provide a reliable source of potable water service to approximately 50 unserved customers and 100 underserved users. Citizens in the proposed water service areas have expressed considerable interest to the McCreary County Water District concerning the need for a reliable source of potable water service in the area.

5. Estimated Water Usage

Presently, MCWD currently serves 5,904 customers of which 5,633 are residential and 271 are commercial users. The average monthly water usage by 5,633 existing residential customers as determined by billings for the 12 month period between January 2004 and December 2004 was 264,215,100 gallons

(137 gpcpd). Average monthly demand per residential customer (5/8" X 3/4" meters) calculates to 4,092 gallons.

The average monthly water usage by 271 existing commercial customers as determined by billings for the 12 month period between January 2004 and December 2004 was 74,589,300 gallons (446 gpupd). Average monthly demand per commercial customer calculates to 13,367 gallons.

MCWD currently treats and provides its own potable water from two treatment plants. Treatment plant number 1 is located near the community of Whitley City and has a capacity of 1.5 million gallons per day with its source of raw water being from Laurel Creek. Treatment plant number 2 is located near the community of Wiborg and has a rated capacity of 3.0 million gallons per day with its source of raw water being from the Big South Fork of the Cumberland River. Their current water treatment plants have a combined a capacity of 4.5 million gallons per day. The current average demand is 975,000 gallons of water per day for all users. With the addition of 50 new users the new average demand will increase to 995,000 gallons of water per day, based on 400 gallons of water per day (this amount is well above the current average of 137 gpcpd). Based on this assumption MCWD will still have amply capacity to serve its existing users and future users.

6. Design Criteria

a. Hydraulic Considerations

Hydraulic calculations are based on the Hazen and Williams formula with a "C" value of 140 for PVC main and 130 for ductile iron main. The economy of polyvinyl chloride (PVC) pipe has caused it to be the predominant material for rural water system pipelines. The relatively high flow coefficient of C = 140 is a common value for PVC water systems and is, therefore, used in the design of this system. The same is true for C = 130 for ductile iron.

Line sizes are designed to maintain a minimum of 30 pounds per square inch (psi) at the service meter during peak flows.

Fire protection capacity is not designed into the system. Hydrants are normally for blow-off purposes. Service meters, valves and other appurtenances are designed for basically rural-domestic water supply service only.

b. Construction Considerations

The pipelines will be constructed on private easement and some state and county rights-of-way. The pump station and storage tank will be constructed on fee simple purchases or easements from private property owners. McCreary County is underlain by limestone rock formations. Based upon previous construction projects and the District's construction experience, the determination was made that, at the proposed construction sites, rock removal would not present unusual problems. Rock layers near the surface are weathered and fragmented.

7. Financial

a. Construction and Project Costs

Construction and project cost estimates are presented in Table 1. Estimated construction costs are \$1,271,000.00. Construction cost estimates are based on an estimate prepared by Strand Associates, Inc.

Table 1
McCreary County Water District - Contract 3
County Water Extensions and Upgrades Project
Total Project Estimate

Construction Cost Estimate

3" PVC Pipe	\$70,120.00
4" PVC Class 200 Pipe	256,520.00
8" Steel Cover Pipe	30,000.00
3" Bores	3,500.00
4" Bores	3,500.00
3" Gate Valves	3,500.00
4" Gate Valves	8,500.00
Customer Services	38,830.00
¾" Service Pipe	35,000.00
Automatic Air Release Valve	2,750.00
3" Blowoff Hydrants	5,000.00
4" Blowoff Hydrants	19,250.00
50,000 Gallon Elevated Water Storage Tank	300,000.00
Pump Station	165,000.00
Tie-In to Existing Water Mains	<u>10,000.00</u>

Total Construction	\$951,470.00
Contingencies	95,147.00
Administrative and Legal	20,000.00
Land and Easements	17,500.00
Surveys	15,000.00
Environmental Assessment	15,000.00
Engineering Fees ¹	87,359.30
Project Inspection Fees	47,508.62
Interest	<u>22,000.00</u>
TOTAL PROJECT COST ESTIMATE	\$1,270,984.92

1	Engineering:	Preliminary Services	\$15,000.00
		Basic Services	<u>72,359.30</u>
		TOTAL	\$87,359.30

b. Project Budget

A summary of the proposed project funding is as follows:

KIA Grant	\$500,000.00
RD Grant and Loan*	<u>771,000.00</u>

TOTAL ESTIMATED PROJECT FUNDING **\$1,271,000.00**

* If MCWD does not received the \$500,000.00 KIA Grant the entire project will be funded by a RD Grant and Loan.

c. Rate Analysis

A rate analysis along with the existing and projected operation and maintenance costs and debt service requirements is attached in the **Summary/Addendum**. This analysis will include a statement regarding the income necessary to meet estimated obligation for both the existing and proposed system.

8. Summary and Conclusions

The proposed Contract 3 McCreary County Water District – County Water Extensions and Upgrade Project consists of approximately 33,500 linear feet of 3” and 4” water main, 1 pump station, 1 storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road throughout McCreary County, KY. This project will provide a reliable source of potable water service to approximately 50 unserved customers and 100 underserved users. Citizens in the proposed water service areas have expressed considerable interest to the McCreary County Water District concerning the need for a reliable source of potable water service in the area.

Contract 3 McCreary County Water Extensions and Upgrades Project will be completely covered by the KIA Grant, RD Grant and Loan or RD Grant and Loan.

SUMMARY ADDENDUM
TO
PRELIMINARY ENGINEERING REPORT

DATED February 13, 2006 – REVISED February 14, 2007

FOR

McCreary County Water District – County Water Extensions and Upgrades (New Liberty Project), Contract 3

(Name of Project)

APPLICANT CONTACT PERSON Stephen Owens

APPLICANT PHONE NUMBER (502) 376 - 2540

APPLICANT TAX IDENTIFICATION NUMBER (TIN) 61 - 0654526

ITEMS IN BOLD ITALIC PRINT ARE APPLICABLE TO SEWER SYSTEMS.

In order to avoid unnecessary delays in application processing, the applicant and its consulting engineer should prepare a summary of the preliminary report in accordance with this Guide.

Please complete the applicable sections of the Summary Addendum. ***Please note, if water and sewer revenue will both be taken as security for the loan, all user information and characteristics of both utility systems will be needed even though the project will benefit only one utility.***

Feasibility reviews and grant determinations may be processed more accurately and more rapidly if the Summary/Addendum is submitted simultaneously with the preliminary engineering report, or as soon thereafter as possible.

I. GENERAL

A. Proposed Project: Provide a brief description of the proposed project. In addition to this summary, the applicant/engineer should submit a project map of the service area.

The Contract 3 McCreary County Water Extensions and Upgrades Project will consist of constructing approximately 33,600 linear feet of 3" and 4" water main, 1 pump station, 1 storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road throughout McCreary County, KY. This project will provide a reliable source of potable water service to approximately 50 unserved customers and 100 underserved users.

II. FACILITY CHARACTERISTICS OF EXISTING SEWER SYSTEM

A. *Sewage Treatment:*

1. *Type:* Conventional

2. *Method of Sludge Disposal:* Sludge Press to landfill

3. *Cost per 1,000 gallons if sewage is contracted:* N/A

4. *Date Constructed:* 2001

B. *Treatment Capacity of Sewage Treatment Plant* 700,000 gpd

C. *Type of Sewage Collector System (Describe)* Pressurized Sewer System & Minimal gravity sewers

D. *Number and Capacity of Sewage Lift Stations* 18 Lift Stations Varying capacities

E. *Sewage Collection System:*

<i>Lineal Feet of Collector Lines, by Size</i>		1.5"	53,795	2"	36,041
2.5"	9,238	3"	10,608	4"	13,390
8"	2,260	10"	50,053	6"	5,400
<i>Date(s) Constructed</i>		1997 to present			

F. **Conditions of Existing System:** Briefly describe the conditions and suitability for continued use of facility now owned by the applicant. Include any major renovation that will be needed within five to ten years.

The existing wastewater conveyance system built in 1997 and expanded since this date. The sewer system is a relatively new system and is in good condition.

III. FACILITY CHARACTERISTICS OF EXISTING WATER SYSTEM

1. Water Source: Describe adequacy of source (quality and quantity). Include an explanation of raw water source, raw water intake structure, treatment plant capacity, and current level of production (WTP). Also describe the adequacy of Water Purchase Contract if applicable.

The McCreary County Water District (MCWD) has been providing potable water to portions of McCreary County since 1964. MCWD owns and operates two water treatment plants, plant number 1 is located near the community of Whitley City and has a capacity of 1.5 million gallons per day with its source of raw water being from Laurel Creek and plant number 2 is located near the community of Wiborg and has a rated capacity of 3.0 million gallons per day with its source of raw water being from the Big South Fork of the Cumberland River.

If the applicant purchases water:

Seller(s):

1. N/A

20 04	Issue Revenue Bond	2,050,000	See Note	100 %	%
20 04	Issue Revenue Bond	1,471,227	See Note	100 %	%
19 97	Issue Revenue Bond	903,000	See Note	% 100	%
20 02	Issue Revenue Bond	832,000	See Note	% 100	%

Note: The principal payments are due at various times during the year. The principal balances shown above are as of 12/31/04 per financial report by Faulkner, King, Romenesko, & Wenz, PSC.

* If a combined issue, show attributable portion to each system.

II. Principal and Interest Payments: (Begin with Next Fiscal Year Payment)

Date of Issue	Bond/Note Holder	Payment Year 20 07		Payment Year 2008		Payment Year 2009	
		Principal Payment	Interest Payment	Principal Payment	Interest Payment	Principal Payment	Interest Payment
19 ALL	Issue Revenue Bond – Water System	\$188,582	\$237,612	\$217,281	\$232,821	\$220,487	\$227,535
19 ALL	Issue Revenue Bond – Sewer System	\$25,000	\$77,040	\$26,000	\$75,960	\$28,000	\$74,835
All	Issue	\$213,582	\$314,652	\$243,281	\$308,781	\$248,487	\$302,370

V. EXISTING SHORT-TERM INDEBTEDNESS

A. List of All Short Term Debts: (Do Not Show Any Debt Listed in Paragraph IV Above): N/A

<u>Lender or Lessor</u>	<u>Date of Issue (Month & Year)</u>	<u>Principal Balance</u>	<u>Purpose (Water and/ or Sewer)</u>	<u>Payment Date</u>	<u>Principal & Interest Payment (P & I)</u>	<u>Date to Be Paid In Full</u>

VI. LAND AND RIGHTS - EXISTING SYSTEM(S)

Number of Treatment Plant Sites:	Water	<u>2</u>	Sewer	<u>1</u>
Number of Storage Tank Sites:	Water	<u>11</u>	Sewer	<u>0</u>
Number of Pump Stations:	Water	<u>4</u>	Sewer	<u>17</u>
Total Acreage:	Water	<u>Unknown</u>	Sewer	<u>Unknown</u>
Purchase Price:	Water	<u>Unknown</u>	Sewer	<u>Unknown</u>

VII. NUMBER OF EXISTING USERS

	Water (as of 12/31/2006)	Sewer (as of 12/31/06)
Residential (In Town)		
Residential (Out of Town)	<u>5638</u>	<u>578</u>
Non-Residential (In Town)		
Non-Residential (Out of Town)	<u>485</u>	<u>252</u>
Total	<u>6,123</u>	<u>830</u>
Number to Total Potential Users Living in the Service Area		<u>unknown</u>

*Note: Residential Users: Classify by type of user regardless of quantity of water used. This Classification should include those meters serving individual residence.

VIII. CURRENT WATER AND SEWER CONNECTION FEES FOR EACH SIZE WATER METER CONNECTION

<u>Meter Size</u>	<u>Water Connection Fee</u>	<u>Sewer Connection Fee</u>
<u>3/4" - Inch</u>	\$350.00	<u>\$2,500.00</u>
<u>7/8" - Inch</u>	Time plus materials	<u>\$2,500.00</u>
<u>1" - Inch</u>	Time plus materials	<u>\$2,500.00</u>
<u>1" - 1/2 Inch</u>	Time plus materials	<u>\$2,500.00</u>
<u>2" - Inch</u>	Time plus materials	<u>\$2,500.00</u>
<u>3" - Inch</u>	Time plus materials	<u>\$2,500.00</u>
<u>4" - Inch</u>	Time plus materials	<u>\$2,500.00</u>
<u>6" - Inch</u>	Time plus materials	<u>\$2,500.00</u>

IX. SEWER RATES - EXISTING SYSTEM (See attached Rate Schedule 7a)

<u>Percentage of Water Bill</u>	<u>See attached</u>	<u>%</u>	<u>Minimum Charge</u>	<u>See attached</u>
<u>Other: (If Charge Not Based on Water Bill)</u>				<u>N/A</u>

X. WATER RATES - EXISTING SYSTEM (See Attached Rate Schedule, Sheet 7b)

XI. ANALYSIS OF ACTUAL SEWER USAGE – EXISTING SYSTEM – 12 MONTH PERIOD (N/A Water Bonds Only)

XII. ANALYSIS OF ACTUAL WATER USAGE – EXISTING SYSTEM – 12 MONTH PERIOD (See Attached Spreadsheet for Water, Sheets 7c)

XIII. FACILITY CHARACTERISTICS OF PROPOSED SEWER SYSTEM N/A

XIV. LAND AND RIGHTS - PROPOSED SEWER SYSTEM N/A

XV. FACILITY CHARACTERISTICS OF PROPOSED WATER SYSTEM

- A. Water Source: Describe adequacy of source (quality and quantity). Include an explanation of raw water source, raw water intake structure, treatment plant capacity, and current level of production (WTP). Also describe the adequacy of Water Purchase Contract if applicable.

TOTAL INCOME FUTURE SYSTEM \$2,418,542.10

XXV. CURRENT OPERATING BUDGET - (WATER - EXISTING)
 (As of last full operating year.)

01/01/06 through 12/31/06

A Operating Income:

Water Sales	\$2,418,542
Suchage Fee	\$0
Other (Lease Income and Miscellaneous Revenue)	\$0
Less Allowances and Deductions	\$0
Total Operating Income	\$2,418,542

B Operation and Maintenance Expenses:
 (Based on Uniform System of Accounts prescribed by
 National Association of Regulatory Utility Commissioners)

Potable Water System Expenses, includes water treatment & distribution	(\$646,037)
Contractual and Other Services	(\$216,150)
Administrative and General Expense - potable water system	(\$900,334)
Total Operating Expenses	(\$1,762,521)
Net Operating Income	\$656,021

C Non-Operating Income:

Interest on Deposits	\$0
Connection Fees	\$0
Total Non-Operating Income	\$0

D Net Income **\$656,021**

E Debt Repayment:

Revenue Bond Interest	(\$113,000)
Revenue Bond Principal	(\$132,200)
RD Interest	(\$168,000)
RD Principal	(\$72,000)
Total Debt Repayment	(\$485,200)

F. Balance Available for Coverage and Depreciation **\$170,821**

G Required Coverage @ 10% **(\$48,520)**

H Surplus (Deficit) **\$122,301**

McCreary County Water District

XXVI. FORECAST OF WATER USAGE - INCOME - NEW USERS - EXTENSION ONLY

For Period January 2008 to Decemeber 2008

All Meter

<u>Sizes</u>	<u>Monthly Water Usage</u>	<u>Average</u>					TOTAL	
RESIDENTIAL AVERAGE USAGE UNDER 2,000 GALLONS PER MONTH								
			No. of Users	Usage	Income			
0 - 2,000 Gallons		1,000	15	1,000	2,691.00			
RESIDENTIAL AVERAGE USAGE OVER 2,000 GALLONS PER MONTH								
			No. of Users	Usage	Income			
5,000 - 6,000 Gallons		5,500	35	5,000	12,516.00	\$	15,207.00	
TOTAL INCOME FUTURE SYSTEM							\$	15,207.00

XXV. CURRENT OPERATING BUDGET - (WATER - EXISTING)
(Future full operating year based on 2006 Data)

01/01/08 through 12/31/08

A Operating Income:

Water Sales	\$2,418,542
Suchage Fee	\$0
Other (Lease Income and Miscellaneous Revenue)	\$0
Less Allowances and Deductions	\$0
Total Operating Income	\$2,418,542

B Operation and Maintenance Expenses:
(Based on Uniform System of Accounts prescribed by
National Association of Regulatory Utility Commissioners)

Potable Water System Expenses, includes water treatment & distribution	(\$678,743)
Contractual and Other Services	(\$227,094)
Administrative and General Expense - potable water system	(\$945,914)
Total Operating Expenses	(\$1,851,751)
Net Operating Income	\$566,791

C Non-Operating Income:

Interest on Deposits	\$0
Connection Fees	\$0
Total Non-Operating Income	\$0

D Net Income **\$566,791**

E Debt Repayment:

Revenue Bond Interest	(\$113,000)
Revenue Bond Principal	(\$132,200)
RD Interest	(\$168,000)
RD Principal	(\$72,000)
Total Debt Repayment	(\$485,200)

F Balance Available for Coverage and Depreciation **\$81,591**

G Required Coverage @ 10% **(\$48,520)**

H Surplus (Deficit) **\$33,071**

XXVI.	<u>PROPOSED OPERATING BUDGET - (WATER - IMPROVEMENTS)</u>	Year Ending	<u>12/31/2008</u>
	(1st Full Year Of Operation)		
A Operating Income:	No Rate Increase		
	KIA Grant \$500,000		
	RD Grant \$578,250		
	RD Loan \$192,750		
	Water Sales		<u>\$15,207</u>
	Surcharge Fees		<u>\$0</u>
	Other (Lease Income and Miscellaneous Revenue)		<u>\$0</u>
	Less Allowances and Deductions		<u>\$0</u>
	Total Operating Income		<u><u>\$15,207</u></u>
B Operation and Maintenance Expenses:			
	(Based on Uniform System of Accounts prescribed by		
	National Association of Regulatory Utility Commissioners)		
	Sanitary Sewer System Expenses, including maintenance & treatment		<u>(\$1,000)</u>
	Contractual and Other Services		<u>(\$1,000)</u>
	Administrative and General Expense - sewer system		<u>(\$1,000)</u>
	Total Operating Expenses		<u><u>(\$3,000)</u></u>
	Net Operating Income		<u><u>\$12,207</u></u>
C Non-Operating Income:			
	Interest on Deposits		<u>\$0</u>
	Other (Describe)		<u>\$0</u>
	Total Non-Operating Income		<u><u>\$0</u></u>
D Net Income			<u><u>\$12,207</u></u>
E Debt Repayment:			
	Revenue Bond Interest		<u>(\$9,602)</u>
	Revenue Bond Principal		<u>(\$1,551)</u>
	RD Interest		<u>\$0</u>
	RD Principal		<u>\$0</u>
	Total Debt Repayment		<u><u>(\$11,153)</u></u>
F Balance Available for Coverage and Depreciation			<u><u>\$1,054</u></u>
G Required Coverage @ 10%			<u><u>(\$1,115)</u></u>
H Surplus (Deficit)			<u><u>(\$61)</u></u>

XXXIX. ESTIMATED PROJECT COST - WATER

Development	\$	951,470.00
Land and Easements		17,500.00
Legal and Administrative		20,000.00
Surveys		15,000.00
Interest		22,000.00
Contingencies		95,147.00
Project Inspection Fees		47,508.62
Engineering Fees		87,359.30
Environmental Assessment		15,000.00
TOTAL	\$	1,270,984.92

XXXX. PROPOSED PROJECT FUNDING - WATER

Applicant - User Contribution Fees	\$	
Other - Local Contribution		
RD Loan		192,750.00
RD Grant		578,250.00
Tobacco Settlement (If applicable)		
CDBG (If applicable)		
HB 502		
KIA Grant		500,000.00
Other

- Exhibit 11 – Actual Potable Water Usage from 2007
- Exhibit 12 – Actual Sanitary Sewer Usage from 2007

1. **Purpose of Report**

This report updates the preliminary engineering report dated February 2006 for the proposed New Liberty Water Main Extensions & Storage Tank Project (Contract 2 & 2A-2007) based on bids received January 29, 2008 from final plans and specifications.

2. **General Background Data**

In October 2005, Strand Associates, Inc. was authorized by the McCreary County Water District (MCWD) to investigate the feasibility of constructing approximately 33,600 linear feet of 3" and 4" water main, one pump station, one storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road in McCreary County to provide a reliable source of potable water to approximately 50 unserved customers and 100 underserved users. Citizens in the proposed water service areas have expressed considerable interest to MCWD concerning the need for a reliable source of potable water service.

The Kentucky State Clearinghouse comments were received on July 20, 2005 and no conflicts with the State's goals, plans, or objectives were noted. The MCWD was awarded a USDA Rural Utilities Service (RUS) Water and Waste Grant and Loan covering \$771,000.00 of the \$1,271,000.00 project cost. The remaining \$500,000.00 is being covered by a KIA Grant.

3. **Existing Systems**

a. **Water System**

The McCreary County Water District (MCWD) has been providing potable water to portions of McCreary County since 1964. MCWD owns and operates two water treatment plants: (1) Water Plant #1 is located near the community of Whitley City and has a capacity of 1.5 million gallons per day with its source of raw water being from Laurel Creek and (2) Water Plant #2 is located near the community of Wiborg and has a rated capacity of 3.0 million gallons per day with its source of raw water being from the Big South Fork of the Cumberland River.

The MCWD currently serves 6,123 water users of which 5,830 are residential and 293 are commercial users. The system currently consists of 166,110 linear feet of 2" water main, 207,190 linear feet of 3" water main, 569,130 linear feet of 4" water main, 297,850 linear feet of 6" water main, 241,300 linear feet of 8" water main, 37,440 linear feet of 10" water main, 10,900 linear feet of 12" water main, 10,560 linear feet of 16" water main, and 19,300 linear feet of 18" water main. Along with the water mains, the District currently has eleven storage tanks for a total of 2,700,000 gallons of storage and four booster pumping stations.

b. **Sanitary Sewer System**

The McCreary County Water District (MCWD) has been providing sanitary sewer service to portions of McCreary County since 1997. MCWD owns and operates one wastewater treatment plant, the McCreary County Wastewater Treatment Plant No. 2, which is located near the community of Stearns and has a rated capacity of 700,000 gallons per day.

The MCWD currently serves 879 sewer users of which 735 are residential and 144 are commercial users, including the U.S. Bureau of Prisons in Gilreath. The system consists of four main service areas: (1) Marshes Siding, (2) Whitley City, (3) Stearns, and (4) the U.S. Bureau of Prisons in Gilreath. The system currently consists of 53,795 linear feet of 1.5" sewer main, 36,041 linear feet of 2" sewer main, 9,238 linear feet of 2.5" sewer main, 10,608 linear feet of 3" sewer main, 13,390 linear feet of 4" sewer main, 5,400 linear feet of 6" sewer main, 2,260 linear feet of 8" sewer main, and 50,053 linear feet of 10" sewer main. Along with the sewer mains, the District currently has 18 pump stations and appurtenances.

4. Scope of Project

The New Liberty Water Main Extensions & Storage Tank Project (Contract 2 & 2A-2007) consists of approximately 46,000 linear feet of 3", 4", and 6" water main, one storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road in McCreary County to provide a reliable source of potable water to approximately 50 unserved customers and 100 underserved users.

Concurrent to the Contract 2 & 2A-2007 project, the McCreary County Water District is also undertaking the Cumberland Falls State Park & Riverwoods Environmental Center Water Main Extensions Project (Contract 3-2007). Financial data regarding this project is included herein as it will impact current debt services and the projected required income.

5. Estimated Water Usage

Presently, MCWD currently serves currently serves 6,123 water users of which 5,830 are residential and 293 are commercial users. The average annual water usage by 5,830 existing residential customers as determined by billings for the 12 month period between January 2007 and December 2007 was 309,249,336 gallons (147 gpcpd). Average monthly demand per residential customer (5/8" X 3/4" meters) calculates to 4,420 gallons.

The average annual water usage by 293 existing commercial customers as determined by billings for the 12 month period between January 2007 and December 2007 was 99,154,032 gallons (940 gpcpd). Average monthly demand per commercial customer calculates to 28,200 gallons.

MCWD currently treats and provides its own potable water from two water treatment plants: (1) Water Plant #1 is located near the community of Whitley City and has a capacity of 1.5 million gallons per day with its source of raw water being from Laurel Creek and (2) Water Plant #2 is located near the community of Wiborg and has a rated capacity of 3.0 million gallons per day with its source of raw water being from the Big South Fork of the Cumberland River. These water treatment plants currently have a combined capacity of 4.5 million gallons per day.

The current average demand from both water treatment plants is 1,134,375 gallons of water per day for all users. With the addition of 50 new users, the anticipated average demand will increase to approximately 1,154,375 gallons per day. This water usage increase is based on 400 gallons per capita per day (gpcpd), which is well above the current average of 137 gpcpd. Based on this assumption, MCWD will still have ample capacity to service its existing and future users.

6. Estimated Sanitary Sewer Usage

Presently, MCWD currently serves 879 sewer users of which 735 are residential and 144 are commercial users, including the U.S. Bureau of Prisons in Gilreath. The average annual sanitary usage by 735 existing residential customers as determined by billings for the 12 month period between January 2007 and December 2007 was 47,022,432 gallons (177 gpcpd). Average monthly demand per residential customer calculates to 5,310 gallons.

The average annual sanitary usage by 144 existing commercial customers as determined by billings for the 12 month period between January 2007 and December 2007 was 21,212,928 gallons (410 gpcpd). Average monthly demand per commercial customer calculates to 12,276 gallons.

No new users are being served by this project. The current users will continue to be served at the McCreary County Wastewater Treatment Plant No. 2, which is located near the community of Stearns and has a rated capacity of 700,000 gallons per day.

7. Design Criteria

a. **Hydraulic Considerations**

Hydraulic calculations are based on the Hazen-Williams formula with a "C" value of 140 for PVC mains and 130 for ductile iron mains. The economy of polyvinyl chloride (PVC) pipe has caused it to be the predominant material for rural water system pipelines. The relatively high flow coefficient of C = 140 is a common value for PVC water systems and is, therefore, used in the design of this system. The same is true for C = 130 for ductile iron systems.

Line sizes are designed to maintain a minimum of 30 pounds per square inch (psi) at the service meter during peak flows.

Fire protection capacity is not designed into the system. Hydrants are normally for blow-off purposes. Service meters, valves and other appurtenances are designed for basic rural-domestic water supply service only.

b. **Construction Considerations**

The pipelines and storage tank will be constructed on private easement and some state and county rights-of-way. McCreary County is underlain by limestone rock formations. Based on previous construction projects and the McCreary County Water District's construction experience, the determination was made that rock removal would not present unusual problems at the proposed construction sites. Rock layers near the ground surface are weathered and fragmented.

8. Financial – Existing Potable Water System & Proposed Improvements

a. **Construction and Project Costs**

Construction and project cost estimates are based on the bids dated January 29, 2008 for Contract 2 & 2A-2007. Construction bids for the work in the amount of \$1,156,920.00 are shown in the bid tabulations included in Appendix, Exhibit 1. Based on this construction cost, the breakdown of the estimated total project cost of \$1,271,000.00 is presented in Table 1.

Table 1 – Total Project Cost Estimate

Total Construction	\$1,156,920.00
Change Order #1 (to be processed)	(184,769.50)
Contingencies	64,480.50
Administrative and Legal	20,000.00
Land and Easements	17,500.00
Environmental Assessment	15,000.00
Engineering Fees ¹	112,360.00
Project Inspection Fees	47,509.00
Interest	<u>22,000.00</u>
TOTAL PROJECT COST ESTIMATE	\$1,271,000.00

¹ Engineering:	Preliminary Services	\$15,000.00
	Basic Services	72,360.00
	Additional Services	<u>25,000.00</u>
		\$112,360.00

b. Project Budget

A summary of the proposed project funding is as follows:

KIA Grant	\$500,000.00
RUS Grant	446,000.00
RUS Loan	<u>325,000.00</u>
TOTAL ESTIMATED PROJECT FUNDING	\$1,271,000.00

c. Operation and Maintenance Costs

Estimated annual operation and maintenance (O&M) costs for potable water services are presented in Table 2. The 'Actual Existing System 2007' O&M expenses were taken from a report by Gilbert & Gilbert Accountants for the McCreary County Water District in February 2008, which is included in Appendix, Exhibit 2. The 'Projected Existing System 2009' O&M expenses reflect a 3% annual increase, which is based on high escalating material costs and inflation pricing. The estimated expenses for Contracts 2, 2A, and 3-2007 are included in the final columns. The 2009 O&M expenses herein are estimated for the year ending December 31, 2009.

Table 2 – Estimated Annual O&M Costs for Potable Water Service

	<u>Actual Existing System 2007</u>	<u>Projected Existing System 2009</u>	<u>Projected Cont. 2 & 2A-2007 New Users 2009</u>	<u>Projected Cont. 3-2007 New Users 2009</u>
Maintenance, Expenses, Depreciation, & Treatment	\$1,275,559	\$1,353,241	\$6,000	\$5,000
Contractual & Other Expenses	414,326	439,558	6,000	5,000
Customer Accounts Expenses	0	0	0	0
Administrative & General Expenses	<u>1,028,458</u>	<u>1,091,091</u>	<u>6,000</u>	<u>5,000</u>
TOTAL EST. ANNUAL O&M COSTS	\$2,718,343	\$2,883,890	\$18,000	\$15,000

d. Debt Service

The total amount of funds required from outside sources to finance the project cost of \$1,271,000 includes a Kentucky Infrastructure Authority (KIA) Grant for \$500,000, an USDA Rural Utilities Service (RUS) Grant for \$446,000, and an RUS Loan for \$325,000. To retire the \$325,000 RUS Loan at 4.125% would require equal annual debt service payments of \$16,960 over a 38-year period. Financial data regarding Contract 3-2007 are included herein as it will impact the total current debt services.

The revenue required using a straight 10% debt service coverage is as follows:

Existing Principal and Interest (high)	\$464,950
Contract 2 & 2A-2007 Principal and Interest (average)	16,960
Contract 3-2007 Principal and Interest (average)	<u>7,830</u>
Total Principal and Interest	\$489,740
10% Coverage on Existing Debt Service	\$46,495
10% Coverage on Contract 2 & 2A-2007 Debt Service	1,696
10% Coverage on Contract 3-2007 Debt Service	<u>783</u>
TOTAL COVERAGE	\$538,714

e. Required Income

The total income required to meet the estimated obligations for both the existing and proposed systems is presented in Table 3.

Table 3 – Estimated Annual Required Income for Potable Water Service

	Existing System	Cont. 2 & 2A-2007 Project	Cont. 3-2007 Project
O&M Costs	\$2,883,890	\$18,000	\$15,000
Principal & Interest	464,950	16,960	7,830
10% Coverage	<u>46,495</u>	<u>1,696</u>	<u>783</u>
Subtotal	3,395,335	36,656	23,613
Less Interest Income	<u>0</u>	<u>0</u>	<u>0</u>
Subtotal	3,395,335	36,656	23,613

ESTIMATED INCOME REQUIRED

\$3,455,604

f. Rate Analysis

1. In order to predict the annual revenue from the existing and proposed systems, the projected average monthly potable water usage outlined in Section 5 of this report will be used.

2. Below is the District's rate schedule for 2008 Potable Water Service:

Residential & Commercial:	
First 2,000 gallons	\$14.95 (minimum bill)
Over 2,000 gallons	4.95 per 1,000 gallons
Prison:	
First 1,950,000 gallons	\$9,657.55 (minimum bill)
Over 1,950,000 gallons	4.95 per 1,000 gallons
Whitley County & Oneida, TN Master Meters:	
Per 1,000 gallons	\$3.48 per 1,000 gallons

Using this rate schedule, the average monthly usages in Section 5, and the present number of customers (6,123), the expected annual income is as follows:

Projected Existing System:

Subtotal ¹	\$2,490,860
-----------------------	-------------

¹ See the Forecast of Water Usage for the Existing System from January 2007 to December 2007 using the existing rate schedule in Appendix, Exhibit 3.

Contract 2 & 2A-2007 Project:

Subtotal ²	\$16,157
-----------------------	----------

² See the Forecast of Water Usage for the Contract 2 & 2A-2007 Project using the existing rate schedule in Appendix, Exhibit 4.

Contract 3-2007 Project:

Subtotal ³	\$68,572
-----------------------	----------

³ See the Forecast of Water Usage for the Contract 3-2007 Project using the existing rate schedule in Appendix, Exhibit 5.

**TOTAL ESTIMATED INCOME
(PER EXISTING RATE SCHEDULE) \$2,575,589**

With the proposed income of \$2,575,589 and an estimated annual income required (including debt service coverage at 10%) of \$3,455,604, the existing potable water system and these projects are not economically feasible without an adjustment to the existing rate schedule.

Additionally, the McCreary County Water District's O&M costs have dramatically increased over the past three years due to the increased cost of fuel, materials, and supplies. This increase is outlined in the report from Gilbert & Gilbert Accountants showing the expenses from January 2007 through December 2007.

g. Proposed Rate

1. Below is the proposed District's rate schedule for Potable Water Service:

Residential & Commercial:	
First 2,000 gallons	\$15.55 (minimum bill)
Over 2,000 gallons	5.75 per 1,000 gallons

Prison:	
First 1,950,000 gallons	\$11,212.50 (minimum bill)
Over 1,950,000 gallons	5.75 per 1,000 gallons
Whitley County & Oneida, TN Master Meters:	
Per 1,000 gallons	\$3.48 per 1,000 gallons
Cumberland Falls State Park:	
First 600,000 gallons	\$2,600.00 (minimum bill)
Over 600,000 gallons	3.48 per 1,000 gallons
Riverwoods Environmental Center:	
First 450,000 gallons	\$1,860.00 (minimum bill)
Over 450,000 gallons	3.48 per 1,000 gallons

Using this rate schedule, the average monthly usages in Section 5, and the present number of customers (6,123), the expected annual income is as follows:

Projected Existing System:

Subtotal ¹	\$2,745,621
-----------------------	-------------

¹ See the Forecast of Water Usage for the Existing System using the proposed rate schedule in Appendix, Exhibit 6.

Contract 2 & 2A-2007 Project:

Subtotal ²	\$17,679
-----------------------	----------

² See the Forecast of Water Usage for the Contract 2 & 2A-2007 Project using the proposed rate schedule in Appendix, Exhibit 7.

Contract 3-2007 Project:

Subtotal ³	\$68,572
-----------------------	----------

³ See the Forecast of Water Usage for the Contract 3-2007 Project using the proposed rate schedule in Appendix, Exhibit 8.

TOTAL ESTIMATED INCOME (PER PROPOSED RATE SCHEDULE)	\$2,831,872
--	--------------------

The proposed rate increase shows that MCWD will still lose monies for the 2009 fiscal year. The O&M costs include a depreciation value of \$664,212. This is a real number that MCWD is looking to overcome, but due to the rural nature and limited incomes of their community, the MCWD is trying to implement a rate increase that will not hinder the existing utility users. A future rate increase may be implemented in a few years to recover the existing O&M costs, including depreciation, if the study shows that the income does not meet the projected O&M costs with depreciation. Additionally, the MCWD is optimistic that new users will continue to sign-up for services, which will assist in obtaining the additional income needed to recover this cost. The projected potable water O&M costs for 2009 based on a 3% annual increase and excluding depreciation is \$2,791,391, which is recoverable with the proposed rate increase.

9. **Financial – Existing Sanitary Sewer System**

a. Operation and Maintenance Costs

Estimated annual operation and maintenance (O&M) costs for sanitary sewer services are presented in Table 4. The 'Actual Existing System 2007' O&M expenses were taken from a report by Gilbert & Gilbert Accountants for the McCreary County Water District in February 2008. The 'Projected Existing System 2009' O&M expenses reflect a 3% annual increase, which is based on high escalating material costs and inflation pricing. The 2009 O&M expenses herein are estimated for the year ending December 31, 2009.

Table 4 – Estimated Annual O&M Costs for Sanitary Sewer Service

	Actual Ex. <u>System 2007</u>	Projected Ex. <u>System 2009</u>
Maintenance, Expenses, Depreciation, & Treatment	\$613,330	\$650,682
Contractual & Other Expenses	29,804	31,619
Customer Accounts Expenses	0	0
Administrative & General Expenses	<u>234,251</u>	<u>248,517</u>
TOTAL ESTIMATED ANNUAL O&M COSTS	\$877,385	\$930,818

b. Debt Service

The existing debt service is outlined below. The revenue required using a straight 10% debt service coverage is as follows:

Existing Principal and Interest (high)	\$117,945
Total Principal and Interest	\$117,945
10% Coverage on Existing Debt Service	\$11,795
TOTAL COVERAGE	\$129,740

c. Required Income

The total income required to meet the estimated obligations for the existing system is presented in Table 5.

Table 5 – Estimated Annual Required Income for Sanitary Sewer Service

	<u>Existing System</u>
O&M Costs	\$930,818
Principal & Interest	117,945
10% Coverage	<u>11,795</u>
Subtotal	1,060,558
Less Interest Income	<u>0</u>
Subtotal	1,060,558

ESTIMATED INCOME REQUIRED **\$1,060,558**

d. Rate Analysis

1. In order to predict the annual revenue from the existing system, the projected average monthly sanitary sewer usage outlined in Section 6 of this report will be used.
2. Below is the District's rate schedule for 2008 Sanitary Sewer Service:

Residential:	
First 2,000 gallons	\$8.10 (minimum bill)
Next 8,000 gallons	4.30 per 1,000 gallons
Next 10,000 gallons	3.40 per 1,000 gallons
All Over 20,000 gallons	2.70 per 1,000 gallons

Commercial:	
First 2,000 gallons	\$10.80 (minimum bill)
Next 8,000 gallons	5.80 per 1,000 gallons
Next 10,000 gallons	4.50 per 1,000 gallons
All Over 20,000 gallons	3.60 per 1,000 gallons

Prison:	
First 1,300,000 gallons	\$4,680.00 (minimum bill)
Over 1,300,000 gallons	3.60 per 1,000 gallons

Using this rate schedule, the average monthly usages in Section 6, and the present number of customers (879), the expected annual income is as follows:

Projected Existing System:

Subtotal ¹ \$505,062

¹ See the Forecast of Sanitary Sewer Usage for the Existing System from January 2007 to December 2007 using the existing rate schedule in Appendix, Exhibit 9.

**TOTAL ESTIMATED INCOME
(PER EXISTING RATE SCHEDULE) \$505,062**

With the proposed income of \$505,062 and an estimated annual income required (including debt service coverage at 10%) of \$1,060,558, the existing sanitary sewer system is not economically feasible without an adjustment to the existing rate schedule.

Additionally, the McCreary County Water District's O&M costs have dramatically increased over the past three years due to the increased cost of fuel, materials, and supplies. This increase is outlined in the report from Gilbert & Gilbert Accountants showing the expenses from January 2007 through December 2007.

e. Proposed Rate

1. Below is the proposed District's rate schedule for Sanitary Sewer Service:

Residential/Commerical:	
First 2,000 gallons	\$12.25 (minimum bill)
Next 8,000 gallons	5.65 per 1,000 gallons
Next 10,000 gallons	4.85 per 1,000 gallons
All Over 20,000 gallons	4.25 per 1,000 gallons

Prison:	
First 1,300,000 gallons	\$5,525.00 (minimum bill)
Over 1,300,000 gallons	4.25 per 1,000 gallons

Using this rate schedule, the average monthly usages in Section 6, and the present number of customers (879), the expected annual income is as follows:

Projected Existing System:

Subtotal² \$636,528

² See the Forecast of Sanitary Sewer Usage for the Existing System using the proposed rate schedule in Appendix, Exhibit 10.

**TOTAL ESTIMATED INCOME
(PER PROPOSED RATE SCHEDULE) \$636,528**

The proposed rate increase shows that MCWD will still lose monies for the 2009 fiscal year. The O&M costs include a depreciation value of \$436,053. This is a real number that MCWD is looking to overcome, but due to the rural nature and limited incomes of their community, the MCWD is trying to implement a rate increase that will not hinder the existing users. A future rate increase may be implemented in a few years to recover the existing O&M costs, including depreciation, if the study shows the income does not meet the projected O&M costs with depreciation. Additionally, the MCWD is optimistic that new users will continue to sign-up for services, which will assist in obtaining the additional income needed to recover this cost. The projected sanitary sewer O&M costs for 2009 based on a 3% annual increase and excluding depreciation is \$624,505, which is recoverable with the proposed rate increase.

10. Summary and Conclusions

The New Liberty Water Main Extensions & Storage Tank Project (Contract 2 & 2A-2007) consists of approximately 46,000 linear feet of 3", 4", and 6" water main, one storage tank, and appurtenances along Tom Meadows Road, Poff Road, Garland Road, New Liberty Road, Creekmore/Privett Road, and Hollyhill Road in McCreary County to provide a reliable source of potable water to approximately 50 unserved customers and 100 underserved users.

The recommended financing for the portion of the proposed New Liberty Water Main Extensions & Storage Tank Project (Contract 2 & 2A-2007) not covered by the KIA Grant of \$500,000 and the RUS Grant of \$446,000 is covered with a RUS Loan in the amount of \$325,000. This loan of \$325,000 at 4.125% for 38-years in conjunction with the other funding sources and rate increase makes this improvement project feasible. This project should economically support itself based on the funding received with the proposed rate increase.
