PUBLIC SERVICE  
COMMISSION

9-5-08

Dear Public Service Commission,  
I'm writing in regards to a letter  
in my last electric bill. In our  
dog eat dog world I don't know how  
they or anyone else figures us  
on fixed income can continue to  
survive in these greedy prices.  
This last bill I had 9.00 fuel  
charge added on. We pay high prices  
on everything and they look at  
us they can do without well  
us older people help make this  
nation what it is today. If K-U.  
would get rid of some of their  
bonus executives they wouldn't  
need all these raises after all us  
old people get a lousy 3% then they  
raise medicare to more than  
cover that. I for one oppose their  
rate hike

Thank you  
Apsy Pinnycraft
