If you can't or won't say
NO to BSN + its raises,
along with Ky Utilities Co., then
step down & I will be more
than happy to be chairman &
say NO, NO, NO, to any rate hikes!
A lot of Ky citizens (including me)
are totally fed up with
politicians milking or their cows
collecting outrageous pay for
doing little or nothing about
these utility company rate hikes!
My signature is just as good in this regard!

PS - Please remove
all those signs or badges to
Indiana! You know, the
ones that say "Welcome to
Ky where Education Pays"
Ha - Real world is

Welcome to Ky where Education

Pays minimum wage!

I have a MS, BS, & AS, +

RHIA + over 300 academic hours

of graduate work, a Ph.D.

Equivalent, + I was never able

to find a decent-paying job here

with all my degrees + 3 licenses!

I had to work in Indiana; 1 agency

told me the truth - the local

employers don't want educated

people cause they'd have to pay them
what they are worth. See what that
means, didn't I think so they can work there!
