In the Matter or

FILING OF TAYLOR COUNTY RURAL)	
ELECTRIC COOPERATIVE CORPORATION)	CASE NO.
REQUESTING APPROVAL OF DEFERRED)	2008-00376
PLAN FOR RETIRING METERS)	

FIRST DATA REQUEST OF COMMISSION STAFF

Taylor County Rural Electric Cooperative Corporation ("Taylor Co. RECC"), pursuant to 807 KAR 5:001, is requested to file with the Commission the original and 3 copies of the following information, with a copy to all parties of record. The information requested herein is due within 14 days from the date of this data request. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Taylor Co. RECC shall make timely amendment to any prior responses if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to

which Taylor Co. RECC fails or refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request.

The following questions are based on Taylor Co. RECC's January 17, 2008 letter to Joseph S. Badin of the Rural Utilities Service ("RUS").

1. Identify the specific type of meter being retired. Provide a description of the capabilities of and differences among each type of meter.
2. Provide the original depreciable life of each type of meter.
3. Explain why Taylor Co. RECC chose 5 years as the period of time over which it is proposing to amortize the extraordinary property loss of \$1,205,285.55 associated with the retirement of meters.
4. Explain in detail the impact Taylor Co. RECC expects the deferral to have on its financial statements.
5. Provide a copy of the RUS response to Taylor Co. RECC's January 17, 2008 letter.
