In the Matter of:

THE APPLICATION OF KENTUCKY UTILITIES)	
COMPANY FOR AN ORDER AUTHORIZING)	
THE ISSUANCE OF SECURITIES AND THE)	CASE NO. 2008-<u>00426</u>
ASSUMPTION OF OBLIGATIONS)	

APPLICATION

Kentucky Utilities Company (“KU” or the “Company”) hereby requests, pursuant to KRS 278.300, that the Commission authorize the issuance of securities, assumption of obligations and entrance into all necessary agreements and other documents relating thereto as more fully described herein. Specifically, KU requests authority to obtain long-term debt financing from an affiliate within the E.ON AG (“E.ON”) holding company system. In support of this Application, KU states as follows:

1. The Company’s full name is Kentucky Utilities Company. The post office address of the Company is One Quality Street, Lexington, Kentucky 40507. KU is a Kentucky and a Virginia corporation, a utility as defined by KRS 278.010(3)(a), and as of August 31, 2008 provides retail electric service to approximately 507,000 customers in seventy-seven counties in Kentucky, 30,000 customers in southwestern Virginia and five customers in Tennessee. A description of KU’s properties is set out in Exhibit 1 to this Application. A certified copy of the Company’s Articles of Incorporation was filed with the Commission in Case No. 2005-00471 (*In the Matter of: The Application of Louisville Gas and Electric Company and Kentucky Utilities Company for Authority to Transfer Functional Control of their Transmission System*) and is incorporated by reference herein pursuant to 807 KAR 5:001, Section 8(3).

2. KU obtains financing through numerous sources of capital, including the form of debt that is the subject of this Application. KU does not assign specific financing to any particular project or use, and does not project finance capital projects. All components of KU's capital structure are used to fund capital expenditures. Thus the uses cited below are general reasons for KU's need for debt financing, rather than projects for which the financing will be required.

3. KU anticipates incurring capital expenditures during the remainder of 2008 and 2009 for pollution control facilities at the Company's Ghent Generating Station in Carroll County, Kentucky and the Company's E.W. Brown Generating Station in Mercer County, Kentucky (the "Pollution Control Project"). The Pollution Control Project is described in the previously filed construction contract (the "Construction Contract") which, by Motion filed concurrently herewith, KU is requesting be incorporated by reference, and in Case No. 2004-00426 (*In the Matter of: The Application of Kentucky Utilities Company for a Certificate of Public Convenience and Necessity to Construct Flue Gas Desulfurization Systems and Approval of its 2004 Compliance Plan for Recovery by Environmental Surcharge*).¹ During 2009, KU anticipates incurring up to \$229 million in construction costs in connection with the Pollution Control Project.²

¹ The Commission granted the requested Certificate of Public Convenience and Necessity by Order dated June 20, 2005, in Case No. 2004-00426. By Order dated December 22, 2006 in Case No. 2006-00493 (*In the Matter of: Application of Kentucky Utilities Company to Modify Certain Certificates of Public Convenience and Necessity to Construct Duct Work for Two Flue Gas Desulfurization Units at the Ghent Power Station*), however the Commission modified the Order in Case No. 2004-00426, to permit construction of three Flue Gas Desulfurization Systems to serve Ghent Generating Units 1, 3 and 4, rather than Generating Units 2, 3 and 4 as originally approved. In addition, the Commission modified a prior certificate awarded in Case No. 1992-00005, to permit use of the existing Ghent Unit 1 FGD to serve Ghent Generating Unit 2.

² The Company makes every effort to finance eligible portions of the Pollution Control Project with tax-exempt debt. See Case No. 2008-00309 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of September 16, 2008, Case No. 2007-00115 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of April 30, 2007, Case No. 2006-00414 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of November 20, 2006, Case No. 2006-00187 (*In the Matter of: The*

4. KU also anticipates incurring capital expenditures during the remainder of 2008 and 2009 for its share of construction costs for Trimble County Unit 2 in Trimble County, Kentucky. KU requested a Certificate of Public Convenience and Necessity and a Site Compatibility Certificate for those facilities in Case No. 2004-00507 (*In the Matter of: The Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity, and a Site Compatibility Certificate, for the Expansion of the Trimble County Generating Station*). The Commission granted the requested Certificates by Orders dated November 1, 2005 and November 9, 2005 in Case No. 2004-00507. This facility is described in the Engineering, Procurement and Construction Contract previously filed by KU. By Motion filed concurrently herewith, KU is requesting that this contract be incorporated by reference herein. During 2009 KU anticipates incurring up to \$135 million in construction costs in connection with Trimble County Unit 2.

Description of KU's Position Within the Holding Company and the Affiliate

5. E.ON U.S. LLC ("E.ON US") is an indirect subsidiary of E.ON. KU is a wholly owned subsidiary of E.ON US. E.ON US Holding GmbH, is also a subsidiary of E.ON. Fidelia Corporation ("Fidelia"), a finance company subsidiary organized in Delaware, is a subsidiary of E.ON U.S. Holding GmbH. Fidelia lends money to companies in the E.ON holding company

Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations), Order of June 16, 2006, Case No. 2005-00183 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of June 20, 2005 and Case No. 2005-00357 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of October 14, 2005, authorizing the Company to issue securities and assume obligations in connection with private activity bond allocations from the Kentucky Private Activity Bond Allocation Committee. The Company intends to continue seeking allocations from the state ceiling for private activity bonds and the opportunity to finance additional, eligible portions of the Pollution Control Project with tax-exempt financing resulting in lower costs.

system and upon request of the Company would lend money to the Company as set out in this Application.³

Description of the New Long-Term Debt

6. This Application relates to the issuance of long-term unsecured debt by KU to Fidelia. The Company proposes to borrow money from Fidelia in an amount not to exceed \$275 million at various times during the remainder of 2008 through the period ending December 31, 2009.⁴ The Company anticipates issuing unsecured notes to Fidelia with final maturity not to exceed thirty years. The Company anticipates utilizing a range of maturities that are reflective of operating and market conditions and cash flow requirements. Such borrowings would only occur if the interest rate on the loan would result in an equal or lower cost of borrowing than the Company could obtain in a loan from E.ON or in the capital markets on its own. All borrowings from Fidelia would be at the lowest of 1) E.ON's effective cost of capital; 2) Fidelia's effective cost of capital; and 3) the Company's effective cost of capital determined by reference to the effective cost of a direct borrowing by the Company from an independent third party for a comparable term loan that could be obtained at the time of the loan (the "Best Rate Method").

³In seven other proceedings in recent years, the Commission has previously approved other, long-term debt financing between KU and an affiliate within the E.ON holding company system. See Case No. 2007-00550 (*In the Matter of the Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of February 13, 2008, Case No. 2007-00437 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of November 1, 2007, Case No. 2007-00024 (*In the Matter of: The Application of Kentucky, Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of March 19, 2007, Case No. 2006-00155 (*In the Matter of: The Application of Kentucky, Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of May 22, 2006, Case No. 2005-00117 (*In the Matter of: The Application of Kentucky, Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of May 10, 2005, Case No. 2003-00301 (*In the Matter of: The Application of Kentucky, Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Order of September 22, 2003 and Case No. 2003-00059 (*In the Matter of: The Application of Kentucky, Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), Orders of April 14, 2003 and April 30, 2003.

⁴ This is in addition to the approximately \$100 million remaining from the Commission's debt authorization in Case No. 2007-00550. See Order of February 13, 2008.

The Best Rate Method assures the Company that it will not pay more for a loan from Fidelia than it would pay in the capital markets for a similar loan. The Company's treasury group has evaluated its capital requirements through December 31, 2009, and the appropriate sources of capital available to it (both existing and potential). The Company has determined that it is cost effective to borrow money from Fidelia through this intercompany loan facility and desires to take advantage of this opportunity.

7. The interest rates will be set at the time of issuance of each note and would depend on the maturity of the notes. The interest rate on each note would be the lower of (a) the average of three quotes obtained by the affiliate company from international investment banks for an unsecured bond issued by E.ON for the applicable term of the loan; and (b) the lowest of three quotes obtained by the Company from international investment banks for a secured bond issued by the Company with the applicable term of the loan. This method complies with the Best Rate Method because this rate would be determined using the lower of the average of actual quotes obtained based upon the credit of E.ON or the lowest of three actual quotes obtained by the Company.

8. A note would be executed by the Company each time a loan was made by Fidelia to the Company stating the interest rate, maturity date and payment terms. Attached to the Application as Exhibit 2 is the form of the intercompany loan agreement and note. Issuance expenses for the intercompany loans described herein will not exceed, in total, the sum of \$50,000. In connection with the issuance of the debt, KU may enter into one or more interest rate hedging agreements (T-bill lock, swap or similar agreement, collectively the "Hedging Facility") either with an E.ON affiliate or with a bank or financial institution. The Hedging Facility would be an interest rate agreement designed to allow the Company to lock in the

underlying interest rate on the loan in advance of the closing of the loan. The Hedging Facility will set forth the specific terms under which the Company will agree to make payments, and the other terms and conditions of any rights or obligations thereunder.

9. No contracts have been made for the disposition of any of the securities which KU proposes to issue.

10. A redacted copy of the Construction Contract for the Pollution Control Project was filed with the Commission in Case No. 2006-00187 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), and incorporated by reference in Case Nos. 2006-00414, 2007-00024, 2007-00115, 2007-00437, 2007-00550, and 2008-00309. By Motion filed concurrently herewith, KU is requesting that the Construction Contract be incorporated by reference herein.

11. A redacted copy of the Engineering, Procurement and Construction Contract for Trimble County Unit 2 was filed with the Commission in Case No. 2007-00024 (*In the Matter of: The Application of Kentucky Utilities Company for an Order Authorizing the Issuance of Securities and the Assumption of Obligations*), and incorporated by reference in Case Nos. 2007-00115, 2007-00548 and 2007-00550. By Motion filed concurrently herewith, KU is requesting that the Engineering, Procurement and Construction Contract be incorporated by reference herein.

12. KU shall, as soon as reasonably practicable after the issuance of each note referred to herein, file with the Commission a statement setting forth the date or dates of issuance of the notes, the proceeds of such notes, the interest rates, costs or gains with the Hedging Facility, and all fees and expenses involved in such issuance.

13. Exhibit 3 to this Application contains the financial exhibit required by 807 KAR 5:001, Section 11(2)(a), and described by 807 KAR 5:001, Section 6. It also contains information required by 807 KAR 5:001, Section 11(2)(b).

14. A meeting of KU's Board of Directors to authorize the issuance of the notes, and the transactions related thereto as discussed in this Application is scheduled for October 9, 2008, and a certified copy of the resolution will be filed as a supplement to this Application as soon as it is available.

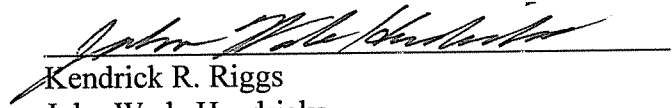

15. Other requirements of the Commission's regulation regarding this Application, 807 KAR 5:001, Section 11, including (1)(b) regarding the amount and kind of notes, etc., and (1)(c) regarding the use to be made of the proceeds, have been supplied in the discussion above in Paragraphs 2 through 8 of this Application.

WHEREFORE, Kentucky Utilities Company respectfully requests that the Commission enter its Order, authorizing it to issue securities and to execute, deliver and perform the obligations of KU under the intercompany loan agreement and the notes, as set forth in this Application. KU further requests that the Order of the Commission specifically include provisions stating:

1. KU is authorized to issue and deliver its unsecured notes in an aggregate principal amount not to exceed \$275 million in the manner set forth in its Application.

2. KU is authorized to execute, deliver and perform the obligations of KU under, *inter alia* the loan agreement with Fidelia Corporation, the notes, and such other agreements and documents as set out in its Application, and to perform the transactions contemplated by such agreements.

Respectfully submitted,
