AND LINK-UP SERVICE TO QUALIFIED)
HOUSEHOLDS)

CASE NO.
2009-00100

**RESPONSE OF TRACFONE WIRELESS, INC. TO ORDER
CONDITIONALLY DESIGNATING IT AS AN ELIGIBLE
TELECOMMUNICATIONS CARRIER**

TracFone Wireless, Inc. (“TracFone”) hereby responds to the Order issued by the Commission on September 23, 2010 in the above-captioned matter. In that Order, the Commission granted TracFone’s petition for designation as an Eligible Telecommunications Carrier (“ETC”) for the limited purpose of offering Lifeline service to qualified low-income Kentucky households. That designation was subject to a series of conditions. The Order directs TracFone to notify the Commission within 45 days of the date of the Order whether it has agreed to those conditions. Although that notification is not due until November 8, 2010, TracFone is providing the requisite notification now in order to finalize the ETC designation in an expeditious manner.

At the outset, TracFone commends the Commission for its approval of its ETC designation petition. TracFone is honored to have been designated as an ETC and it looks forward to commencing provision of its SafeLink Wireless[®] Lifeline service in Kentucky in the very near future. TracFone has been designated as an ETC in 33 other states and its Lifeline service is available in many of them. To date, more than three million low-income households have enrolled in TracFone’s SafeLink Wireless[®] program in those states. Most of

those customers are receiving Lifeline benefits for the first time, and are enjoying the security and convenience of affordable wireless service.

As noted in the Order, TracFone recently has expanded its Lifeline offerings. Qualified persons may now receive 250 minutes per month in free wireless airtime. Those minutes may be used for local calling, long distance calling, and roaming. They may also be used for sending and receiving SMS text messages. In addition, every TracFone Lifeline customer will be provided with a free E911-compliant wireless handset provided at TracFone's expense. This is the most generous wireless Lifeline program offered by any wireless ETC anywhere and TracFone is anxious to bring this program to Kentucky.¹

Below are TracFone's responses to the Conditions set forth in the Order:

- 1. TracFone must certify to the Commission that it has complied with the obligations imposed by the District Court of the Western District of Kentucky. Evidence of this compliance shall be filed within 45 days of the date of this Order.**

On August 18, 2010, the United States District Court issued an order in Commonwealth of Kentucky Commercial Mobile Radio Service Emergency Telecommunications Board v. TracFone Wireless, Inc., Case No. 3:08-CV-660-JGH. In that order, the district court made certain determinations regarding the applicability to TracFone of Kentucky's current 911 funding law and its previous 911 funding law. Among the determinations made by the district court is that TracFone is in full compliance with its obligations under the current 911 funding law (which became effective in 2006), but that TracFone had not remitted 911 fees under the prior law for the period between 2002 and 2006

¹ Governor Steven Beshear recently issued a Proclamation setting the week of September 13 through 19, 2010 as Lifeline Awareness Week. TracFone shares the Governor's goal, as stated in his Proclamation, of making low-income Kentucky households aware of Lifeline and increasing the Lifeline participation rate of eligible Kentucky households.

based upon its view that the statute as then enacted was not applicable to non-billed services like prepaid wireless. Importantly, TracFone is not alone in that regard. AT&T -- the largest local exchange telephone company and the largest ETC in Kentucky -- also has acknowledged in deposition testimony taken as part of the district court proceeding that it did not collect and remit 911 fees on the prepaid portion of its wireless business under the prior law.² If nothing else, AT&T's acknowledgement that it too had not in the past remitted 911 fees on the prepaid portion of its wireless business demonstrates that TracFone's good faith belief that the statute during that period did not cover prepaid services was shared by other providers, including AT&T -- the largest telecommunications provider in the commonwealth. This was an industry-wide view which was later addressed by enactment of the new law which became effective in 2006.

The district court matter is ongoing as the court has not yet addressed the question of what amounts, if any, may be owed. TracFone will keep the Commission apprised of further developments in the ongoing district court litigation matter. TracFone reserves its right to appeal to the United States Court of Appeals any adverse final decision rendered in that matter. TracFone will comply with any final order rendered by the court upon exhaustion of its appeal rights.

² Deposition of Richard Guittar taken in Commonwealth of Kentucky Commercial Mobile Radio Service Emergency Telecommunications Board v. TracFone Wireless, Inc., CA No. 3:08-CV-660-JGH, taken October 30, 2009 at 203-206.

2. **TracFone must perform an annual audit of all Lifeline customers in accordance with Administrative Case No. 360. The Commission will require that TracFone submit a quarterly report to the Commission, effective the date of this Order, showing the number of customers who have been deactivated for not having any activity on their phone in a 60-day period, not passing annual verification, or voluntarily being deactivated.**

TracFone will comply with all applicable verification of eligibility requirements adopted by the Commission, including those set forth in Administrative Case No. 360. It will do so notwithstanding its view that the Federal Communications Commission's verification rule based upon verification of a statistically-valid sample of an ETC's Lifeline customers represents a reasonable approach for ensuring that only qualified persons continue to receive Lifeline support while avoiding imposition of a costly and time-consuming burden on all ETCs. TracFone notes that issues regarding Lifeline eligibility enrollment, certification and verification presently are being addressed by the Federal-State Joint Board on Universal Service pursuant to a referral from the FCC. TracFone respectfully recommends that the Commission continue to monitor the FCC-Joint Board proceeding and that it promulgate requirements which are consistent with those adopted in that proceeding.

3. **TracFone will need to clarify with the Commission the extent of its service territory prior to designation of ETC status.**

TracFone provides a coverage map and list of exchanges, Zip Codes, and rate centers within its service area as an Attachment to this Response. However, it should be noted that TracFone provides service, including Lifeline service, by reselling the services of underlying wireless network providers. Accordingly, it is only able to provide service in those portions of the Commonwealth where its underlying network providers have wireless coverage. Wireless carrier networks do not match up precisely with wireline telephone company

exchange areas, nor with the geographic boundaries of Zip Codes. TracFone will continue to work with the Commission staff to describe its service area in a manner which satisfies the Commission's concerns.

- 4. TracFone will be required to offer Kentucky SafeLink Wireless customers additional minutes of use at a rate of \$0.10 per minute or less.**

TracFone is pleased to notify the Commission that, upon designation as an ETC and commencement of its SafeLink Wireless[®] service in Kentucky, it will allow its Kentucky Lifeline customers to purchase additional minutes of airtime at the rate of \$0.10 per minute.

Conclusion and Request for Immediate ETC Designation

As described in this Response, TracFone has taken steps to comply with each of the conditions enumerated in the Commission's September 23, 2010 Order. With particular respect to the United States District Court's order in Case No. 3:08-CV-660-JGH, the court's August 18, 2010 order left open for future resolution several questions regarding funding liability. TracFone will continue to keep the Commission apprised of further developments in that proceeding, including any appellate decisions.

TracFone respectfully requests that the Commission promptly finalize TracFone's designation as an ETC so that it may commence offering its SafeLink Wireless[®] Lifeline service to low-income Kentucky households. Kentucky consumers, especially low-income consumers, like their counterparts in thirty-three other states, deserve a wireless Lifeline option which provides free telephones and free usage. As noted by Governor Beshear in his September 13, 2010 Proclamation announcing Lifeline Awareness Week, "a substantial portion of eligible Kentucky households do not currently participate in Lifeline and Link-Up, which offer tremendous benefits and make basic phone service more affordable." TracFone

shares Governor Beshear's concern about Kentucky's low Lifeline participation rate among qualified low-income Kentucky households. TracFone is confident that it will successfully promote the availability of its Lifeline service in a manner which will materially increase Lifeline participation in Kentucky as TracFone has done in many other states.

Respectfully submitted,

TRACFONE WIRELESS, INC.
