I can not see North Marshall Water needing to raise our rates, That Boy that now runs it had a lot of money to work when he started and he has spent it all away to start with that new office that he built they didn't take bids on the land they just payed Mr Tucker what ever he wanted knowing that it was to high of a price. But it wasn't his money.

I think the PSC needs to look around a little bit on this one

I know his Dad is a county Commissioner for Marshall county that may be why your not looking at this very good

There is no good reason for a rate increase. The water comes from wells there are no treatment . I just don't understand it.

Thanks Jay
