PUBLIC SERVICE
COMMISSION

RE: Case No. 2010-00291

Dear Mr. Derouen:

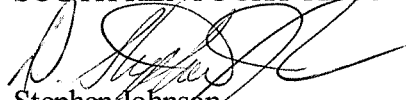

Enclosed is the quote from the meter testing company STS requested from the Informal Conference held on November 23rd, 2010 at the Kentucky Public Service Commission in regards to the above mentioned case. The quote from the meter testing company STS had not been received as of mailing time of the original filing and therefore, we are enclosing it now.

We have enclosed one original and ten copies with the Kentucky Public Service Commission.

Should you have any questions or need further information, please contact our office.

Sincerely,

SOUTH KENTUCKY RECC

Stephen Johnson
Vice President Finance

METADIGM™

Changing The Energy Paradigm. *Smarter.*

Metadigm (TeamSTS + LEPService) has been an innovator in metering, SCADA and communications services and products for the electric utility industry since 1990. The company is a market leader offering technical field services, in house testing services, various meter services, IT development, GIS/GPS data gathering and analysis, warehousing and distribution services, and rapid prototype with product development to meet any utility requirement challenge.

We proudly staff one of the largest teams of technically qualified Field Technicians serving the industry with 24/7/365 installation, maintenance and repair on substation and distribution electronics. We will service any meter, anytime, anywhere! Metadigm (TeamSTS + LEPService) specializes in providing turn-key AMR/AMI project services. All of our Field Technicians are fully trained in the metering services that we provide. All services are performed using the latest technology in mobile computing: GPS Mapping and Collection, Barcode Scanning, and Wireless Communications. Our back office support is UNMATCHED in the utility industry. Complete electronic reporting is provided for direct import into your billing and AMR systems. We have been selected by multiple utilities to provide technical installation services as part of AMI initiatives. We are currently installing as many as 3,000 meters per day in support of our clients. By recovering in excess of \$10 million in annual revenue for our customers, our Revenue Site Maintenance Program has proven itself to be the industry standard for lost revenue.

Metadigm (TeamSTS + LEPService) Mission

At Metadigm Services, Inc. we are one team, committed to providing our customers with services that shape and unlock the value of "intelligent infrastructure," in turn enabling our customers to better serve their customers (end users).

Metadigm Services (TeamSTS + LEPService) Company Values

Safety – Safety must come first. Period. Whether driving an automobile, working at a customer premise, testing a meter, changing a meter or reading a meter...and everything in between, safety should be proactively considered down to the last detail. Always.

Passion – Passion begets excellence. Passion enables all to succeed. Passion can convert even the mediocre into success. Passion results from conviction, commitment and dedication. At Metadigm, ensuring every employee approaches our business with passion is a hallmark.

Integrity – Trust is the foundation to everything. Without integrity, we have no trust which means we have no foundation on which to build. At Metadigm, we require every associate to be honest and to act with the utmost integrity...always.

Respect – Respect indicates esteem, regard and interest in others, in you, and in what we do. Respect is what every associate deserves. Respect is what every task or job requires...each and every time.

Quality – Quality is important for many reasons, not the least of which is it is important to customers – the only people that send money into the organization...Quality differentiates us. It represents our “mark” for how attentive we are to detail. Quality tells us whether we are managing to our objective or simply completing tasks.

Shop Meter Testing, Refurbishing, and AMR Retrofit Services

Metadigm (TeamSTS + LEPService) maintains a state of the art meter testing facility. A meter has limited functionality until it has been tested and becomes certified precision metering equipment. Metadigm provides high quality meter testing services using industry leading Watthour Engineering meter test equipment. Our meter testing personnel are trained and certified on many AMR systems including TS1/TS2, ERT, StatSignal, FlexNet, Tantalus and TWACS.

Metadigm (TeamSTS + LEPService) has extensive experience in refurbishing mechanical meters. This service can be provided as part of an AMI project to supply you with electro-mechanical meters for sites not yet converted or as a stand alone project.
