PUBLIC SERVICE
COMMISSION

Jeff Beronen:

I am sending this letter of request to intervene on the rate increase at Hillridge Facilities, Inc.

I feel there should not be a rate increase, or an added surcharge to repair and replace sewers.

Money already collected should be enough to run the plant and take care of repairs.

I have concerns about the odor. I had to have a plumber out last year. This cost me \$1,800.

Please intervene on my behalf. Let's have a public meeting.

Sincerely,
Charles Whalley
