**PUBLIC SERVICE
COMMISSION**

Dear Mr. Jeff Derouen and Mr. Josh Nacey,

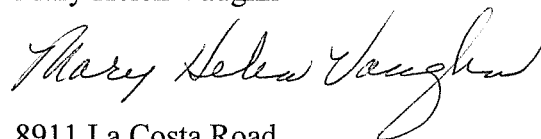

On the part of both my husband and myself, I wish to intervene for the rate increase proposed for the Hillridge subdivision. A periodic rate increase is inevitable, but the amount proposed is outrageous!

The new surcharge: What is this for? Eleven dollars and nineteen cents seems excessive. An increase of 34.7% in the monthly sewer rate is ridiculous. Hillridge Facilities thinks it could justify a 55.6% increase, but is asking for the lesser amount.

Whenever we have had a waterline problem, we have gone through the Louisville Water Co., not Hillridge Facilities. We are charged for sewer usage, even when the water never goes into the sewer. We have no swimming pool or other reason for excessive use of water. There are two of us residing in our household.

Please consider the amount being proposed by Hillridge Facilities when raising the rates for our Hillridge residents. 81.1% just seems excessively high!!
