Dear Sir:

As a long-time resident in the Hillridge Sub-division, I am most disturbed by the proposed sewer rate increase of 34.7% and, therefore, request the opportunity to intervene. I am most concern about the basis for such an increase. There is no noticeable proposed increase in services or performance capability of the facilities. Perhaps an audit of the Facilities for the past ten years ought to be the starting point before any rate increase is considered. I'm not certain that fees currently being paid by each of us are properly managed and used for purposes intended. We have never received any reports from the Hillridge Facilities, Inc., indicating how the fees paid were being used so, why would we accept an increase?

A very disgruntled(thirty six years) Hillridge resident

Sammie L. Neal
