Dear Sir:

It has brought to my attention that Hillridge Facilities Inc. has filed an application with the Public Service Commission for an 81,1% monthly increase for their sewer rate.

It seems a bit excessive to request that much of an increase at this time as their customers are currently facing significant tax increases at all levels including federal, state, and local.

I request that your office investigate their request as well as allowing MSD to take over the managing of Hillridge Facilities Inc.

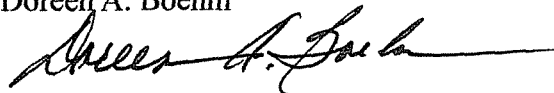

In addition as a retired accountant/controller I suggest that a public audit be done of Hillridge Facilities Inc. to determine the credibility of this request and feedback be given to their customers.

Sincerely;

John J. Boehm
