PUBLIC SERVICE  
COMMISSION

Executive Director,  
Re the proposed increase of 75% by Oldham Woods Sanitation, as a resident of Oldham Woods, I find this absolutely ludicrous.

Jobs have been lost all over this country, people out of work or on reduced pay and benefits, houses foreclosed everywhere, seniors doing without increases in Social Security benefits for two years in a row, and the country severely in debt.

Utilities and taxes have been raised continuously, yet salaries and benefits have taken a hit and Oldham Woods Sanitation has the nerve to state that they believe they could justify a HIGHER RATE. I believe they need a Large dose of Reality, To expect any increase in these times.

Government, Utility and private companies need to live within their means.

We the public are having to cut back, why is it they feel they are not required to do so? This proposal is nothing short of ridiculous.
