**RE:** Informal Conference of February 11, 2011

Pursuant to the Commission's February 9, 2011 Order, an informal conference was held at the Commission's offices on February 11, 2011. Representatives of Louisville Gas & Electric Company ("LG&E") and Commission Staff ("Staff") met to discuss LG&E's application for approval of a land swap and lease of land to Louisville Metro Government ("Louisville Metro"). A list of attendees is attached to this memorandum.

Staff asked clarifying questions related to aerial maps and land surveyor's maps included in the application identifying the parcels to be swapped with and leased by Louisville Metro for the building of a parking area and bike trail known as the Ohio River Levee Trail. Staff also asked questions regarding the expenses that might be incurred by LG&E for the removal of structures and replacing of security fencing and any other expenses that might be incurred relating to the parcels being swapped and leased. LG&E brought additional aerial and land surveyor's maps that it stated it would file as a part of the record. LG&E also stated that it would be filing the additional information related to the questions discussed at the informal conference.

There being no other questions, the meeting was adjourned.
