That: Kentucky Utilities Company implemented a rate change effective August 1, 2010, that substantially increased our monthly utility charge. We were not made aware of the rate change until November 2010, and have not been given the opportunity of having the intervening months adjusted retroactively.

We first became aware of the change through a letter included with the November 2010 billing statement, and promptly called customer service. While on the phone, they switched our service from the PS rate to the GS rate for the current month, and said a revised statement would be sent. We asked about adjusting the preceding three months, and were told they were unable to adjust those charges.

As justification, we were told that the rate is our responsibility, that we had been given notice of the rate change earlier, and that the current letter is just a courtesy. A supervisor further stated that they were unable to do anything except adjust the current month due to an agreement with the PSC.

As stated above, we were not made aware of the earlier notification of a rate change. We only became aware of the rate change in November 2010, when we received a letter included with the monthly billing statement.

Wherefore, complainant asks that Kentucky Utilities Company be directed to issue a refund or credit for the intervening three months before we became aware of the rate change.
