Re: **Kentucky Utilities Company**
Case No. 2011-00161

Dear Sir or Madam:

I am a customer of the Kentucky Utilities Company, and I oppose the proposed 1.5% rate increase in 2012 with a maximum increase of 12.2% in 2016 per 1000 kw hours per month and any other environmental surcharge they are requesting.

Thank you.

Yours truly,

I come home after many years of
Civilian service for this great nation
of ours, there are many retired persons
in this small City, most who can't afford
higher expense of food, rent utilities over
& over again. Middlesboro is a small
town with out the business streets
for success, come down here and
take a good look at Middlesboro
and see that people are down & out
most don't own their home or have
jobs & they all need power.
over

We need to start somewhere to help people
who have worked all of their lives in the
Coal fields & other low paying jobs,
& live mostly on social security, with no
or few ~~other~~ jobs in this area, more money
out of pocket, will not give them better service
than they have today or in the future, take
a look at how to readjust needed living
items ie electric service, which most use
here, please take a second look at your
expense & avoid any increase in funds to
the people in the Coal mining areas of
this State.
