RE: File No: TSS 2011-00244
Proposed adjustment of the wholesale water rates of the Louisville Water Company

To Whom It May Concern:

The West Shelby Water District respectfully requests that the Public Service Commission allow us to make an adjustment in our rates in accordance with 807 KAR 5:068 Purchased Water Adjustments for Water Districts.

Our supplier, Louisville Water Company, has informed the District that an increase will take effect July 1, 2011. The District purchased 282,987,000 gallons of water from January 1, 2010 to December 31, 2010 at a total cost of \$498,838.07. The District sold 260,177,300 gallons of water to its customers. With the wholesale increase the new cost is expected to be \$529,873.71. The difference between the current cost and proposed cost will be \$31,035.64. The incremental cost in terms of water sold is \$0.1193 cents per 1,000 gallons. We propose to raise each gallonage block that amount.

The following documents are enclosed:

- Exhibit A: Purchase Water Adjustment for Water District Form (PSC Form-2 pages)
- Exhibit B: Supplier's Notice of Changed Rate (4 pages)
- Exhibit C: Statement of Water Purchases
- Exhibit D: Statement of Water Sold
- Exhibit E: Purchased Water Adjustment Calculations
- Exhibit F: Notice to Customers (2 pages)
- Exhibit G: Revised Tariff Sheet (plus 4 copies)

If you have any questions, please contact Wanda H. Land, Co-Manager of the West Shelby Water District at (502) 722-8944.

Yours truly,

Wanda H. Land, Manager
West Shelby Water District
