**KENTUCKY INDUSTRIAL UTILITY CUSTOMERS, INC.'s RESPONSE
IN SUPPORT OF MOTION TO CORRECT ORDER**

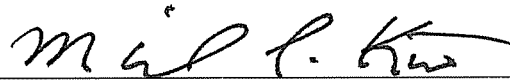

On February 3, 2012, Louisville Gas & Electric Company ("LG&E"), moved the Kentucky Public Service Commission ("Commission") to issue an Order *nunc pro tunc* correcting its January 31, 2012 Order ("Final Order"). The Kentucky Industrial Utility Customers, Inc., ("KIUC") supports LG&E.

As noted by LG&E, the Final Order accepted the total revenue less fuel allocation methodology for non-residential customers in the Settlement Agreement in Case No. 2011-00162. Consistent with the terms of the Commission-approved Settlement Agreement in Case No. 2011-00162, LG&E proposed to allocate on the same basis both the incremental ECR amount to be rolled-into base rates and the existing amount of ECR revenues embedded in base rates. This is consistent with KIUC's understanding on how the roll-in would be done based upon representations made during the settlement negotiations in Case No. 2011-00162 and based upon LG&E's January 5, 2012 Supplemental Information Filing in this case. KIUC relied on this understanding.

The allocation of environmental surcharge costs for non-residential customers based on total revenue less fuel is reasonable. Accordingly, all environmental surcharge costs – both incremental and existing – should be allocated on the same basis.

THEREFORE, KIUC supports the instant motion.

Respectfully submitted,

Michael L. Kurtz, Esq.

Kurt J. Boehm, Esq.

Jody M. Kyler, Esq.
