## **Kentucky Power Company**

### **REQUEST**

Refer to Kentucky Power's response to Item 1.a. of Commission Staff's October 18, 2011 Hearing Data Request ("Hearing Data Request"), the fuel adjustment clause ("FAC") filing made on June 17, 2011, and the FAC backup filing made on June 14, 2011. The response to Item 1.a. of the Hearing Data Request states that substitute energy "is the fuel expense and one-half of the maintenance expense (variable costs) of the energy surplus companies in the AEP East Pool." Confirm that the costs recovered through the FAC for purchases of power from the AEP East Pool include only fuel. For example, page 5 of 5 of the FAC filed on June 17, 2011 is the Final Fuel Cost Schedule for April 2011 and shows power purchases of \$3,304,339. Page 2 of 4 of the FAC backup information filed on June 14, 2011 shows this number to consist of \$2,133,037 of AEP Pool power purchases in the Fuel Charge column and \$1,171,302 of other purchases in the Total Charges column. Confirm that the \$2,133,037 AEP Pool purchases include only fuel costs. If this cannot be confirmed, explain.

### **RESPONSE**

The response to Item 1.a. of Commission Staff's October 18, 2011 Hearing Data Request should have stated that the substitute energy is the fuel expense of the energy surplus companies. Kentucky Power confirms that the AEP Pool purchases amount of \$2,133,037 for April 2011 includes only fuel costs.
