This letter is in reference to The Western Pulaski Water District. There has been a board member with the water company that I understand that his board member term was up July 2011. His name is Jimmy Dalton. Mr. Dalton ran for the county judge seat in '2009'. If he had won, he would have given up his position on the board. He was defeated by Mr. Bullock. Since the loss, Mr. Dalton is not concerned about the water company. He acts like he is mad at the world. He does not cooperate with the other board members. Paul Roys business used to do a lot of work for the water company and Mr. Dalton has a lot of animosity towards the Roy family. Mr. Dalton told that he would resign being a board member, but he didn't want Maggie Roy to think she won. I feel that if you don't have the best interest of the water company, and that you only want to be on board out of spite for another person, then you don't need to be a board member. My personal opinion would be that the company needs a different member appointed that will work well with others for the best interest of the water company. We have a state representative that would not recommend Mr. Dalton for the position. He knows how mean and spiteful that Mr. Dalton is. Therefore, I wish you would do a lot of considering when you choose a new member.
