Division of General Counsel  
Public Service Commission  
Commonwealth of Kentucky  
211 Sower Blvd.  
PO Box 615  
Frankfort, Kentucky 40601

  
Klint W. Alexander

## EXHIBIT A

1. Provide copies of franchises or permits, if any, from the proper public authority for the proposed new construction or extension, if not previously filed with the Commission.

**RESPONSE:**

**No new franchises or permits are required for the project.**

2. Description of the proposed location, route, or routes of the new construction or extension, including a description of the manner in which same will be constructed, and also the names of all public utilities, corporations, or persons with whom the proposed new construction or extension is likely to compete.

**RESPONSE:**

**The proposed route is substantially the same as the existing route with the pipeline being moved from its existing location to a new alignment outside the new highway right-of-way. The new pipeline will be constructed in substantially the same manner as the existing pipeline and will consist of 2"- 6" poly pipe. Navitas is the only natural gas supplier in the area, therefore competition is not effected. The extended competitive balance between Navitas as the natural gas provider in the area, the electric utility in the area, and/or the propane supplier in the area is not affected by this project.**

3. Produce three maps to suitable scale showing the location or route of the proposed new construction or extension, as well as the location to scale of any like facilities owned by others located anywhere within the map area with adequate identification as to the ownership of such other facilities.

**RESPONSE:**

**There are no other natural gas suppliers in the area. Please see the plans provided in (6) for a map of the area.**

4. The manner, in detail, in which it is proposed to finance the new construction or extension.

**RESPONSE:**

**Navitas will fund the construction through reinvestment of depreciation charges.**

5. An estimated cost of operation after the proposed facilities are completed.

**RESPONSE:**

**This project has no effect on revenue or expenses.**

6. Produce any Engineering plans, specifications, plats and report of the proposed construction. The engineering documents prepared by a registered engineer, requires that they be signed, sealed, and dated by an engineer registered in Kentucky.

**RESPONSE:**

**Sent under separate cover by Bell Engineering of Lexington, Kentucky.**
