RE: Proposed adjustment of the wholesale water rates of the Louisville Water Company

To Whom It May Concern:

The West Shelby Water District respectfully requests that the Public Service Commission allow us to make an adjustment in our rates in accordance with 807 KAR 5:068 Purchased Water Adjustments for Water Districts.

Our supplier, Louisville Water Company, has informed the District that an increase will take effect July 1st, 2012. The District purchased 277,478,300 gallons of water from February 1, 2011 to January 31, 2012 at a total cost of \$524,744.36. The District sold 254,282,000 gallons of water to its customers. With the wholesale increase the new cost is expected to be \$550,793.60. The difference between the current cost and proposed cost will be \$26,049.24. The incremental cost in terms of water sold is \$0.1024 cents per 1,000 gallons. We propose to raise each gallonage block that amount.

The following documents are enclosed:

- Exhibit A: Purchase Water Adjustment for Water District Form
- Exhibit B: Supplier's Notice of Changed Rate
- Exhibit C: Statement of Water Purchases
- Exhibit D: Statement of Water Sold
- Exhibit E: Purchased Water Adjustment Calculations
- Exhibit F: Notice to Customers
- Exhibit G: Revised Tariff Sheet

If you have any questions, please contact Lisa M. Didier, Executive Administrator of the West Shelby Water District at (502) 722-8944.

Yours truly,

Lisa M. Didier,
Executive Administrator
