RE: Hilltop Quarry Electrical Disturbances

Dear Mr. Morgan:

Please be advised that this firm represents the Meade County RECC.

Mr. David Poe has discussed with me a problem which exists and which he informs me you and your agents are aware. Mr. Poe indicated that representatives of Hilltop had a conference with Meade County RECC in our offices on April 27<sup>th</sup> where it was stated that Hilltop would conduct further tests and monitor the situation to pinpoint the equipment causing the problem. According to Mr. Poe, Hilltop has never denied that the flickering situation of which our residential customers are complaining has not been caused by Hilltop's operations. This has been confirmed by our consultant, Roger Wilson, who installed two power logging devices in the area over a four – five day period and Meade County also installed a voltage logger and monitor voltage logger for several more days thereafter to verify the problem(s). A copy of three (3) complaints filed to date with the Kentucky Public Service Commission, being Case No. 2012-00310, 2012-00311 and 2012-00312 are included with this letter.

We have reviewed the applicable Kentucky Administrative Regulations and the Agreement for Retail Electric Service dated April 6, 1999 regarding the termination of electrical service with an attorney at the Kentucky Public Service Commission. We agree that Meade County RECC must give you reasonable effort to correct the problem that exists, then if you fail to comply after ten days notice, we can terminate your service.

Mr. John Morgan

If this issue is not resolved to our satisfaction by August 1, 2012, we plan to mail to you the 10 day notice letter terminating service to Hilltop.

A copy of this letter is being furnished the Kentucky Public Service Commission to advise the Commission of Meade County RECC's response to the above-mentioned complaints of our customer/members.

Yours very truly,

THOMAS C. BRITE
