Austin VS. Windstream
September 5, 2012

The first time I **documented** calling Windstream to report an issue with my phone was April 10, 2012. While I was on the phone with them reporting my phone disconnecting the day before, my phone disconnected. They told me they would send someone out. I called again 4/11 and spoke to Brittany whom I was disconnected from after 20 minutes, then I called back and spoke to Rohan. Again, they said they would send someone out.

4/14 I called because my service had kept dropping the night before. They said they would send someone out to fix it.

I had almost a complete week before I had to call again. 4/21 I called to report that my phone had continued to disconnect several times the evening before. They said they would send someone to fix it. 4/22 I continued to have disconnects.

4/23 a tech from Windstream was supposed to go to my home to fix the service. I never saw him but Windstream swore he had been here. Still had service issues. I called Windstream on the 25th to report the problems I had been experiencing the night before, they said they would fix it.

4/25 I called the Public Service Commission to file a complaint. The person took my information which led me to believe I had filed a complaint.

I left the state 4/27 for an entire month. When I arrived back in Kentucky on 6/3, I had no phone/no internet. I called Windstream.

On 6/05 I called for phone repair again. On 6/6 a tech came out but nothing was fixed. I called Windstream several more times that day.

On 6/7 I called the PSC again and filed a complaint with Rosemary (or I thought I had filed a complaint. She led me to believe that is what I had done). I also called Windstream's unresolved complaint line. They said they would escalate it to a local manager.

6/8 My phone line was still buzzing. 2 techs came out and changed me from one line to another. Apparently a phone cable had been shot the year before and Windstream was splicing around the damaged part but *only for people who complained about it*.

6/9 I spoke to Frannie from Windstream because the service I was paying for was still not working. She said she was sending a ticket to the engineers.

6/10 Internet speeds negligible. Reported it to Windstream.

6/11 Windstream repair came in the afternoon but they couldn't work on it because I was working (Did I mention I work at home? And every day with messed up service was a day without a paycheck

6/12 I called Windstream again. Spoke to Cheryl. She said they would send a tech out the next day at noon.

6/13 Tech said there were problems with the data lines and they were testing all lines in this area.

6/14 Called Windstream and spoke to Sarah. She said there was a weak signal in our area.

6/18 Called windstream to report weekend outages. They said my problem was fixed. Not fixed. Spoke to Joe Black.

6/19 Spoke to Cheryl but was disconnected. Called back; was transferred to Barbara (who is a multiple dwelling unit specialist in the midwest. I have no idea why I was transferred to her. She could not explain it either). Barbara transferred me to Bonnie who transferred me to Marcy who is a dispatcher. She was going to bounce the complaint to a supervisor.

6/20 Internet died. Called Windstream

6/21 Called Windstream. Spoke to Paul. He said they were still working on it. Phone disconnected several times that evening.

6/23 Set up new modem hoping it would help. Called Windstream about the disconnects.

6/24 Tech came out. No answers. No internet, no work for me.

6/25 Phone continued to disconnect. I called Windstream, then called my state senator Jimmy Higdon hoping he could help me.

6/26 Windstream tech tested switch, found a bad cable pair. Phone continued to disconnect that evening. I reported it to Windstream.

6/27 Phone continued to disconnect. Called Windstream and Daniel told me that 486 customers in this area were also effected as there was a packet loss. He said they were working on it.

6/28 Phone disconnected 6 times during my 8 hour shift. I called the unresolved complaint line and spoke to Madeline. I spoke to Gerard later and he said there was a ticket pending.

6/29 Phone disconnected 10 times during an 8 hour shift. I reported it to Windstream.

6/30 Phone disconnected Tried to report it but phone kept looping. Called PSC, Jimmy Higdon, Windstream, and unresolved complaint line. Jimmy Higdon told me someone from Windstream would be calling. No one called.

7/1 Called Windstream about the phone disconnecting. Spoke to Jolene.

7/2 Phone continued to disconnect. Spoke to Brandon @ Windstream. Asked to be transferred to his super. Windstream was pretty confident it was fixed. I also called Matt at the PSC. He said he would file another complaint.

7/3 Chris Abner from Constituent Services said the Windstream rep had informed him the phone was all fixed. It was not.
