FLEMING-MASON ENERGY COOPERATIVE, INC.'S RESPONSES TO
COMMISSION STAFF'S AMENDED SECOND REQUEST FOR INFORMATION
TO EAST KENTUCKY POWER COOPERATIVE, INC'S
SIXTEEN MEMBER DISTRIBUTION COOPERATIVES

1. Each member cooperative should refer to EKPC's responses to Commission Staff's First Request for Information, Item 2, and respond to the following:

- a. Have you experienced any problems in administering the refund of any over-recovery or collection of any under-recovery of environmental surcharge costs?

Response: No

- b. Do you recommend any changes from the current method of refunding/collecting any over- or under-recovery of environmental surcharge costs over a six month period? If so, what is the time period you believe is appropriate?

Response: Fleming-Mason is not recommending any changes.

- c. Describe the benefits, if any, of allowing the refund/collection of any over- or under-recovery of environmental surcharge costs to be spread over a time period different from the current six-month recovery period.

Response: Fleming-Mason does not foresee any benefit to changing the time period of recovery.

- d. Describe the negative effects, if any, of allowing the refund/collection of over- or under-recovery of environmental surcharge costs to be spread over a time period different from the current six-month period.

Response: It could negatively affect cash flow.

2. Provide the member cooperative's actual average residential customer's monthly kWh usage. Based on this usage amount, provide the dollar impact any over- or under-recovery will have on the average residential customer's bill for a recovery period of six months and a recovery period of 12 months.
