PUBLIC UTILITY
COMMISSION

Mr. Beyer

Enclosed you find the names and addresses you requested. I have omitted Chris Veach as I feel he have nothing to offer on this matter. I have included the sewer superintendent Kenneth Jackson because his position is specifically outlined by the Fountain Run city ordinances. I have included office manager Louise Veach due to her integral part in the daily operations of FRWD and due to the fact she has obstructed this process at every turn. She is also listed by her own hand as custodian of records. Have included all the current FRWD board members and I intend to show proof that they are in violation of KRS 74.020 sec. 8 sub sec. b and are not legally seated or able to execute the duties of water commissioner. I have also included the General Manager Ricky Ross who has personally stated to me that he had informed Mrs. Veach and the water board of the questionable nature of the sewer billing practice under review. He has also stated that the board members defer to Mrs. Veach. I will close by stating that if your office determines that direct testimony from these individuals is unnecessary I will defer to your judgement. Thank you for your attention on this matter.

Robert Hawkins

Case# 2013-00017

Witness addresses
