PUBLIC SERVICE
COMMISSION

In the matter of:

THE APPLICATION OF EAST KENTUCKY NETWORK)
LIMITED LIABILITY COMPANY FOR THE ISSUANCE)
OF A CERTIFICATE OF PUBLIC CONVENIENCE AND) CASE No. 2013-00025
NECESSITY TO CONSTRUCT A TOWER IN MARTIN)
COUNTY, KENTUCKY).

East Kentucky Network, LLC, d/b/a Appalachian Wireless, was granted authorization to provide Personal Communications Service ("PCS") in the Williamson, WV-Pikeville, KY Basic Trading Area (BTA474) by the Federal Communications Commission (FCC). FCC license is included as Exhibit 1. East Kentucky Network, LLC merger documents were filed with the Commission on February 2, 2001 in Case # 2001-022.

In an effort to improve service in Martin County, East Kentucky Network, LLC pursuant to KRS 278.020 Subsection 1 and 807 KAR 5:001 Section 9 is seeking the Commission's approval to construct a 300 foot self-supporting tower on a tract of land located off of Stepp Branch, Beauty, Martin County, Kentucky (37°46'53.4"N 82°21'26.2"W). A map and detailed directions to the site can be found in Exhibit 8.

Exhibit 2 is a list of all Property owners or residents according to the property valuation administrator's record who reside or own property within 500 feet of the proposed tower in accordance with the Public Valuation Administrator. No other properties are contiguous with East Kentucky Network's property.

Pursuant to 807 KAR 5:063 Section 1 (1)(L) and Section 1(1)(n)(1) all affected property owners according to the property valuation administrator's record who reside or own property within 500 feet of the proposed Tower were notified by certified mail return receipt requested of East Kentucky Network, LLC's proposed construction and informed of their right to intervene.

They were given the docket number under which this application is filed. Enclosed in Exhibit 2 is a copy of that notification.

Martin County has no formal local planning unit. In absence of this unit the Martin County Judge Executive's office was notified by certified mail, return receipt requested of East Kentucky Network Limited Liability Company's proposal and informed of their right to intervene. They were given the docket number under which this application is filed. Enclosed in Exhibit 3 is a copy of that notification.

Notice of the location of the proposed construction was published in The Mountain Citizen's February 13th & 20th editions. Enclosed is a copy of that notice in Exhibit 3. The Mountain Citizen is the newspaper with the largest circulation in Martin County.

A geologist was employed to determine soil and rock types and to ascertain the distance to solid bedrock. The geotechnical report is enclosed as Exhibit 4.

A copy of the tower design information is enclosed as Exhibit 5. The proposed tower has been designed by engineers at Allstate Tower, Inc. and will be constructed under their supervision. Their qualifications are evidenced in Exhibit 5 by the seal and signature of the registered professional engineer responsible for this project.

The tower will be erected by S & S Tower Services of St. Albans, West Virginia. S & S Tower Services has vast experience in the erection of communications towers.

The FAA and Kentucky Airport Zoning Commission applications are both included as Exhibit 6.

No Federal Communications Commission approval is required prior to construction of this facility. Once service is established from this tower we must immediately notify the Federal Communications Commission of its operation. Prior approval is needed only if the proposed

facility increases the size of the cellular geographic service area. This cell site will not expand the cellular geographic service area.

East Kentucky Network, LLC will finance the subject Construction with earned surplus in its General Fund.

Estimated Cost of Construction	\$ 350,000.00
Annual Operation Expense of Tower	\$ 12,500.00

Two notice signs meeting the requirements prescribed by 807 KAR 5:063, Section 1(2), measuring at least two (2) feet in height and four (4) feet in width and containing all required language in letters of required height, have been posted, one at a visible location on the proposed site and one on the nearest public road. The two signs were posted on January 25, 2013 and will remain posted for at least two weeks after filing of this application as specified.

Enclosed in Exhibit 9 is a copy of East Kentucky Network LLC's deed to the site.

The proposed construction site is on a very rugged mountaintop some feet from the nearest structure. Prior to construction the site was wooded.

Due to the steep hillside surrounding the proposed site, the property in close proximity is unsuitable for any type of development. East Kentucky Network LLC's operation will not affect the use of nearby land nor its value. No more suitable site exists in the area. A copy of the search area map is enclosed in Exhibit 8. No other tower capable of supporting East Kentucky Network LLC's load exists in the general area; therefore, there is no opportunity for co-location of our facilities with anyone else.

Enclosed, and filed as Exhibit 10 is a survey of the proposed tower site signed by a Kentucky registered professional engineer.

Exhibit 12 contains a vertical sketch of the tower supplied by Summit Engineering.

WHEREFORE, Applicant respectfully requests that the PSC accept the foregoing Application for filing, and having met the requirements of KRS [278.020(1), 278.650, and 278.665] and all applicable rules and regulations of the PSC, grant a Certificate of Public Convenience and Necessity to construct and operate the proposed tower.

The foregoing document was prepared by Lynn Haney, Compliance Coordinator for East Kentucky Network, LLC d/b/a Appalachian Wireless. All related questions or correspondence concerning this filing should be mailed to East Kentucky Network, LLC d/b/a/ Appalachian Wireless, 101 Technology Trail, Ivel, KY 41642.

RE: Public Notice-Public Service Commission of Kentucky (Case No. 2013-00025)

East Kentucky Network, LLC d/b/a Appalachian Wireless is applying to the Public Service Commission of Kentucky for a Certificate of Public Convenience and Necessity to construct and operate a new facility to provide cellular telecommunications service in Martin County. The facility will include a 300 foot self supporting tower with attached antennas extending upwards, and an equipment shelter on a tract of land located off of Stepp Branch, Beauty, Martin County, Kentucky. A map showing the location of the proposed new facility is enclosed. This notice is being sent to you because you may own property or reside within a 500' radius of the proposed tower.

The Commission invites your comments regarding the proposed construction. You also have the right to intervene in this matter. The Commission must receive your initial communication within 20 days of the date of this letter as shown above.

Your comments and request for intervention should be addressed to: Executive Director's Office, Public Service Commission of Kentucky, P.O. Box 615, Frankfort, KY 40602. Please refer to Case No. 2013-00025 in your correspondence.

If you have any questions for East Kentucky Network, LLC, please direct them to my attention at the following address: East Kentucky Network, LLC, 101 Technology Trail, Ivel, KY 41642 or call me at 606-477-2355, Ext. 1007.

Sincerely,

Lynn Haney

Naugatuck Tower Site

Purpose:

A site assessment was conducted for Appalachian Wireless on a tract of land located in Martin County near Naugatuck, Kentucky. The site of the proposed tower is a bench of a abandoned surface mine. The purpose of this investigation was to determine the depth to bedrock and of what type of rock the bedrock consists.

Site Investigation:

The trenching method was used to determine the type of bedrock material at the proposed tower site. A Caterpillar excavator was used to dig a trench in the mine fill material. The mine fill material is approximately 13.50 feet deep. (See attached page for descriptions of materials encountered.)

The terrain in Martin County is slightly to moderately steep. The tower site is located on near the top of a ridge 0.87 miles southwest of the junction of WV 65 and WV 52 near the confluence of Stepp Branch and the Tug Fork of the Big Sandy River in Martin County. The mine fill material below the tower site is approximately 13.50 feet thick based on the information obtained from the site investigation, mine maps and geological maps of the area.

Conclusions:

The proposed tower site is located on a ridge in the area. The mine fill material on the proposed tower site is part of an abandoned surface mine where the Richardson Coal Seam was removed. Tests were not conducted to determine the load-bearing strength of the Mine fill material. However, it is apparent that the tower will be constructed on the mine fill material.

The field work for this site was performed by Wendell R. Holmes, using generally accepted methods in the practice of geological science.

Wendell R. Holmes, P.G.

INDEPENDENT AUDITOR'S REPORT

To the Members
East Kentucky Network, LLC
dba Appalachian Wireless
Ivel, Kentucky

We have audited the accompanying balance sheets of East Kentucky Network, LLC, dba Appalachian Wireless as of December 31, 2011 and 2010, and the related statements of income, members' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of East Kentucky Network, LLC, dba Appalachian Wireless as of December 31, 2011 and 2010, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

DBA APPALACHIAN WIRELESS**

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Nature of operations

East Kentucky Network, LLC, dba Appalachian Wireless, is a Kentucky limited liability company formed by the merger of Appalachian Cellular, LLC, Mountaineer Cellular, LLC and East Kentucky Network, LLC on January 1, 2000. The Company is engaged in cellular telephone communications and paging services to residential and commercial customers located in eastern Kentucky. The Company's five members consist of Cellular Services, LLC; Gearheart Communications Company, Inc.; Mountain Telecommunications, Inc.; Peoples Rural Telephone Cooperative Corporation, Inc.; and Thacker-Grigsby Telephone Co., Inc.

Use of estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers temporary investments having original maturities of three months or less to be cash equivalents. The Company maintains its cash balances, which may exceed the federally insured limit, with several financial institutions. Cash balances included in certain non-interest bearing accounts are insured in fully by the FDIC through December 31, 2012. These financial institutions have strong credit ratings and management believes that credit risk related to the accounts is minimal.

Short-term investments

Certificates of deposit having original maturities between three and nine months are classified as short-term investments, are carried at cost, which approximates fair value, and are held to maturity. Fair value is determined by quoted prices for similar certificates of deposit in active markets (Level 2) as defined by the Fair Value Measurements Topic of the FASB Accounting Standards Codification (see Note 9).

Accounts receivable

Accounts receivable are recorded at net realizable value consisting of the carrying amount less an allowance for uncollectible accounts. The Company uses the allowance method to account for uncollectible accounts receivable balances. Management charges off uncollectible receivables to the allowance when it is determined the amounts will not be realized.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

Inventory

Inventory is composed of cellular telephone equipment, paging equipment, and accessories purchased for resale during the ordinary course of business. The inventory is valued at the lower of cost or market, cost being determined by the first-in, first-out (FIFO) method.

Property, plant and equipment

Property, plant and equipment are recorded at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets.

Investment

The investment in affiliated company is composed of equity certificates in Rural Telephone Finance Cooperative and is reported at cost.

Intangible assets

The customer lists, non-compete agreements, FCC licenses, bond issuance costs, loan fees and use of name are recorded at cost and are being amortized over the life of the asset by the straight-line method.

Revenue recognition

Revenue consists primarily of charges for access, airtime, roaming, long distance, data and other value-added services provided to the Company's retail customers; charges to other cellular carriers whose customers use the Company's network when roaming; and sales of phones and accessories.

Revenue from cellular service is recognized monthly when earned, phone and accessory sales are recognized at the point of sale, activation fees are recognized when activation of service occurs, and cancellation penalties are recognized at the time of disconnection from service. Deferred revenue consists of monthly access and feature charges billed one month in advance and recognized as revenue the following month.

The Company's sales contracts are considered multiple deliverable arrangements that generally involve delivery and activation of a cellular phone, plus phone service. Each is treated as a separate unit of accounting. Contracts are subject to one to two-year terms and require the customer to pay a cancellation fee if the customer cancels the contract. There is a one-time activation fee and a monthly fee for the ongoing service. All fees are nonrefundable. The Company uses estimated selling price to determine both the selling price of the phone and for the phone service. The phone and activation are delivered first, followed by the phone service (which is provided over the contract period). Delivery and activation of the phone are considered one element because activation is necessary for the functionality of the phone. Revenue from phone service is recognized separately over the life of the service arrangement.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

Advertising

Advertising costs are expensed as incurred. At December 31, 2011 and 2010, these costs were \$4,322,032 and \$3,900,531, respectively.

Income taxes

Under existing provisions of the Internal Revenue Code, the income or loss of a limited liability company is recognized by the members for income tax purposes. Accordingly, no provision for federal income taxes has been provided for in the accompanying financial statements.

The Company's accounting policy provides that a tax expense/benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. Management believes the Company has no uncertain tax positions resulting in an accrual of tax expense or benefit.

The Company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. The Company did not recognize any interest or penalties during the years ended December 31, 2011 and 2010.

The Company's federal and state income tax returns are subject to possible examination by the taxing authorities until the expiration of the related statutes of limitations on those tax returns. In general, the federal income tax returns have a three year statute of limitations, and the state income tax returns have a four year statute of limitations.

Comprehensive income

Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes the change in fair value of interest rate swaps which is also recognized as a separate component of equity.

Subsequent events

Management has evaluated subsequent events through February 15, 2012, the date the financial statements were available to be issued.

Reclassification

Certain amounts presented in the prior period have been restated to conform with the current year presentation.

NOTES TO FINANCIAL STATEMENTS

Note 2. Intangible Assets

Intangible assets consist of the following at December 31, 2011:

	<u>Gross Amount</u>	<u>Accumulated Amortization</u>	<u>Weighted Average Life (in years)</u>
Customer lists	\$ 5,363,530	\$ (3,940,516)	15
Non-compete agreements	220,348	(195,016)	15
FCC licenses	2,452,368	(1,061,762)	14
Use of name	10,000	(7,668)	15
Other	942,271	(556,840)	7
	<u>\$ 8,988,517</u>	<u>\$ (5,761,802)</u>	

Intangible assets consist of the following at December 31, 2010:

	<u>Gross Amount</u>	<u>Accumulated Amortization</u>	<u>Weighted Average Life (in years)</u>
Customer lists	\$ 5,363,530	\$ (3,583,198)	15
Non-compete agreements	220,348	(180,336)	15
FCC licenses	2,452,368	(889,418)	14
Use of name	10,000	(7,002)	15
Other	942,271	(415,750)	7
	<u>\$ 8,988,517</u>	<u>\$ (5,075,704)</u>	

Aggregate amortization expense related to these intangible assets for the years ended December 31, 2011 and 2010 totaled \$686,098 for both years. The following represents the total estimated amortization of intangible assets for each of the succeeding five years:

Year ending December 31:

2012	\$ 680,000
2013	660,000
2014	620,000
2015	550,000
2016	275,000

NOTES TO FINANCIAL STATEMENTS

Note 3. Long-Term Debt

Long-term debt consists of the following at December 31:

	2011	2010
Note payable, Fifth Third Bank (a)	\$ 6,116,667	\$ 7,633,333
Note payable, Fifth Third Bank (b)	4,533,016	5,925,873
Line of credit, Fifth Third Bank (c)	--	--
	\$ 10,649,683	\$ 13,559,206

- (a) On February 28, 2006, the Company issued \$14,200,000 in adjustable rate notes to restructure its debt. The notes were issued pursuant to a trust indenture between the Company and U.S. Bank National Association. Principal and interest on the notes were paid from funds drawn by the Trustee under an irrevocable letter of credit issued by Fifth Third Bank. The Notes were collateralized by the assets of the Company and were scheduled to mature on February 1, 2016. The Notes bear interest at a floating interest rate as determined by U.S. Bank National Association (4.60% at 12/31/08). However, the Company entered into an interest rate swap contract (original notional amount of \$14,200,000) that effectively converted its floating-rate debt into a fixed-rate of 8.02%.

On February 2, 2009, the Company refinanced the remaining \$10,200,000 of the note with a new note payable that matures November 1, 2013 and is collateralized by the assets of the Company. Interest on the note is floating at monthly LIBOR plus 1.75% as determined by Fifth Third Securities, Inc. (2.02% at 12/31/11). The Company also renegotiated the terms of the interest rate swap contract and entered into an interest rate swap contract (original notional amount of \$10,200,000) that effectively converts its floating-rate debt into a fixed rate of 7.46% (see Note 8). The note is payable in monthly installments of \$116,667 plus interest through February 1, 2012 and \$125,000 plus interest thereafter through November 1, 2013 with a balloon payment due at maturity.

- (b) On September 1, 2008, the Company borrowed \$9,000,000 to restructure existing debt, purchase new equipment and upgrade existing equipment. The note is collateralized by the assets of the Company. Interest on the note is floating at monthly LIBOR plus 3.00% as determined by Fifth Third Securities, Inc (3.27% at 12/31/11). The Company also entered into an interest rate swap contract (original notional amount of \$9,000,000) that effectively converts its floating-rate debt into a fixed rate of 7.20% (see Note 8). The note is payable in monthly installments of \$107,143 plus interest with a balloon payment due on September 1, 2013.
- (c) On September 9, 2011, the Company entered into a line of credit agreement with Fifth Third Bank that provides for borrowings up to \$12,000,000. The agreement carries a variable interest rate at monthly LIBOR plus 2.25% as determined by Fifth Third Securities, Inc (2.52% at 12/31/11), is secured by assets of the Company, and is due on September 1, 2013.

NOTES TO FINANCIAL STATEMENTS

Note 3. Long-Term Debt (Continued)

Total interest cost for the years ended December 31, 2011 and 2010 was approximately \$928,000 and \$1,146,000, respectively, of which approximately \$118,000 was capitalized in 2010 as part of the construction of a new office building that was placed into service in 2011.

Under terms of the Notes, the Company has also agreed, among other things, to limit distributions, to maintain minimum fixed charge coverage ratios, and to maintain minimum debt to earnings ratios.

Approximate maturities or payments required on principal under note payable agreements for each of the succeeding five years are as follows:

Year ending December 31:	
2012	\$ 2,545,238
2013	8,104,445
2014	--
2015	--
2016	--
	<u>\$ 10,649,683</u>

Note 4. Retirement Plans

The Company has a 401(k) plan for qualifying employees who have reached twenty-one years of age. Eligible employees are allowed to invest up to 15% of their compensation and the Company has agreed to match 100% of the first 3% of the employees' contribution and 50% of the employees' contribution between 3% and 5%. The Company contributed \$148,041 and \$139,405 in matching funds for its 401(k) plan during the years ended December 31, 2011 and 2010, respectively.

The Company also offers an employer sponsored retirement savings plan for qualified employees who have reached twenty-one years of age. The Company has agreed to contribute 9% of the eligible employee's compensation, plus an additional 5% of the original contribution.

The Company contributed \$725,318 and \$638,293 to its retirement savings plan during the years ended December 31, 2011 and 2010, respectively.

Note 5. Related Party Transactions

The Company shares personnel with three of its members. The Company paid \$383,149 and \$251,384 for shared personnel during the years ended December 31, 2011 and 2010, respectively. The Company also leased offices and warehouse space from three members. The leases are for an unspecified length of time. The annual lease expense related to these leases was \$20,858 and \$20,483 for the years ended December 31, 2011 and 2010, respectively.

The Company incurred interconnection, telephone, cable and internet access charges from its members aggregating \$1,329,216 and \$1,206,230 for the years ended December 31, 2011 and 2010, respectively.

NOTES TO FINANCIAL STATEMENTS

Note 5. Related Party Transactions (Continued)

The Company leases two cellular tower sites from the officers and majority shareholders of a member. The annual lease expense related to these leases was \$2,400 for both years ended December 31, 2011 and 2010. The leases are for an unspecified length of time. The Company also pays part of an annual lease for sharing a tower with a member for an annual fee of \$450. In addition, the Company leases one other site from a company owned by a member. The annual lease expense related to this lease for the years ended December 31, 2011 and 2010 amounted to \$11,700 and \$13,350, respectively. The Company leases cellular tower sites from the parent company of one of its other members. The annual lease expense related to these leases was \$12,463 for both years ended December 31, 2011 and 2010. The leases are for five years with options to renew.

The Company pays commissions to its members for phone sales to customers. The amount of commissions paid to related parties during the years ended December 31, 2011 and 2010 was \$323 and \$55,035, respectively.

The Company pays fees to companies owned by its members for advertisement in telephone directories, television and on local billboards. The amount of advertising paid to related parties was \$40,120 and \$61,534 for the years ended December 31, 2011 and 2010, respectively.

Note 6. Operating Leases

The Company has entered into operating leases with its members and other customers to provide fiber optic transmission capacity and ancillary services. The terms of these leases are for 15 years. Total rental income earned from these operating lease commitments included in the statements of income was \$1,016,885 and \$1,214,408 for the years ended December 31, 2011 and 2010, respectively. Rental income earned from the Company's members from these leases was \$846,249 and \$1,008,827 for the years ended December 31, 2011 and 2010, respectively.

Investments in operating leases are as follows at December 31:

	2011	2010
Fiber ring	\$ 8,143,858	\$ 7,802,053
Accumulated depreciation	(3,643,160)	(3,120,944)
	\$ 4,500,698	\$ 4,681,109

The future minimum rental payments expected to be received under these lease agreements for each of the succeeding five years are approximately \$730,000 each year.

NOTES TO FINANCIAL STATEMENTS

Note 6. Operating Leases (Continued)

The Company has also entered into lease agreements to obtain fiber optic transmission and digital microwave transmission services; and to rent retail office facilities. The terms of these leases are between 5 and 15 years. Total rental expense incurred from these operating lease commitments included in the statements of income was \$1,195,368 and \$1,062,254 for the years ended December 31, 2011 and 2010, respectively. Rental expense incurred from the Company's members from these leases was \$464,544 and \$411,196 for the years ended December 31, 2011 and 2010, respectively. The future minimum lease payments required under these lease agreements for each of the succeeding five years are approximately \$1,400,000 each year.

Note 7. Eligible Telecommunication Carrier

During 2005, the Company was granted Eligible Telecommunication Carrier (ETC) status by the Kentucky Public Service Commission. As an ETC, the Company receives funding from the federal Universal Service Fund (USF) to support the high cost of providing local telephone service in rural areas. USF payments amounted to \$7,919,934 and \$7,371,103 for the years ended December 31, 2011 and 2010, respectively.

Note 8. Derivative Financial Instruments, Interest Rate Swaps

The Company entered into two interest rate swap contracts with Fifth Third Bank for the purpose of converting floating-rate interest on its long-term debt to fixed rates. The interest rate swap effectively fixed \$10,200,000 at a rate of 7.46% until February 1, 2016 and fixed \$9,000,000 at a rate of 7.20% until September 1, 2013.

Under the swap contracts, the Company pays interest at 5.71% and 4.20% on the notional amounts and receives interest at LIBOR observed monthly (0.27% at December 31, 2011). The interest rate swaps qualify as, and are designated as, cash flow hedges. The swaps are designed to hedge the risk of changes in interest payments on the notes caused by changes in LIBOR. The notional amounts do not represent actual amounts exchanged by the parties, but instead represent the amounts on which the contracts are based.

The swaps were issued at market terms so that they had no fair value or carrying value at their inception. The carrying amount of the swaps has been adjusted to their fair value at the end of the year, which because of changes in forecasted levels of LIBOR, resulted in reporting a liability for the fair value of the future net payments forecasted under the swaps. The swap contracts permit settlement prior to maturity only through termination by the Company. The settlement amounts are determined based on forecasted changes in interest rates required under fixed and variable legs of the swaps. The Company believes the settlement amounts are the best representation of the fair value of the swaps and has adjusted their carrying amounts to the settlement amounts at the end of the year.

NOTES TO FINANCIAL STATEMENTS

Note 8. Derivative Financial Instruments, Interest Rate Swaps (Continued)

The carrying amounts of the swaps are classified as noncurrent since management does not intend to terminate the swaps during 2011. Since the critical terms of the swaps and the notes are approximately the same, the swaps are assumed to be effective as hedges, and none of the changes in fair values are included in income. Accordingly, all of the adjustment of the swaps' carrying amount is reported as other comprehensive income or loss in the accompanying statements of members' equity. If the swaps are terminated early, the corresponding carrying amount would be reclassified into earnings. The Company does not hold or issue interest rate swaps or other financial instruments for trading purposes.

Note 9. Fair Values of Financial Instruments

The Fair Value Measurements Topic of the FASB Accounting Standards Codification defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Fair Value Measurements Topic establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale of an asset. The Fair Value Measurements Topic defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. The Fair Value Measurements Topic also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Fair Value Measurements Topic describes three levels of inputs that may be used to measure fair value:

- Level 1 - Quoted prices (unadjusted) of identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2 - Significant other observable inputs other than Level 1 prices, such as quoted prices of similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3 - Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Financial instruments of the Company that are subject to fair value measurements are limited to short-term investments, long-term debt and interest rate swaps. Fair values of these financial instruments have been valued using a market approach and are measured using Level 2 inputs.

NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Values of Financial Instruments (Continued)

The fair value of short-term investments approximates its carrying amount due to the short-term nature of these instruments.

The fair value of long-term debt approximates its carrying amount because its variable rate terms are similar to market terms.

The fair value of the interest rate swaps are based on the approximation of market value derived from proprietary models. This fair value takes into consideration the prevailing interest rate environment and the specific terms and conditions of the derivative financial instrument. The fair value was estimated by comparing the Company's fixed swap rates with the current market rates on identical swaps for the remaining terms. The interest due on each remaining payment date is calculated at the existing swap rate and the current market rate. Fair market value is the present value of the difference between those payment streams. The value represents the estimated exit price the Company would pay to terminate the agreement.

Note 10. Commitments

On November 4, 2011, the Company entered into an agreement with a vendor to purchase a minimum quantity of phones each year for the next three years. Under the terms of the agreement, among other things, the Company is required to purchase approximately 36,000 phones in addition to spending at least \$200,000 per year for the next three years on eligible merchandising expenses related to the phones.

As of December 31, 2011, the minimum amounts due related to the purchase of the phones approximated the following:

2012	\$ 6,500,000
2013	7,800,000
2014	<u>9,360,000</u>
	<u>\$ 23,660,000</u>

On September 22, 2011, the Company entered into an agreement with Verizon Wireless ("Verizon") to construct and operate its Long Term Evolution ("LTE") technology in geographic territories in the Company's market. Under the terms of the agreement, among other things, the Company is required as part of the initial build-out phase to have the cell sites constructed and fully equipped for provision of LTE Service and ready to commence commercial service no later than December 31, 2013. Following the initial build-out phase, the Company will continue to build out its LTE System in accordance with a plan to be mutually agreed by the Company and Verizon. The estimated cost of the initial build-out is approximately \$12,000,000. The agreement expires on June 13, 2019 with an option for a ten year renewal term at the end of the agreement.

In addition, the Company entered into an agreement to lease the spectrum owned by Verizon in order to offer LTE Service. This agreement also expires on June 13, 2019 with an option for a ten year renewal term at the end of the agreement. The lease expense is expected to be approximately \$300,000 per year

THIS DEED OF CONVEYANCE, made and entered into this the 2nd day of January, 201~~1~~³, by and between **G & M DEVELOPMENT, INC.**, of 1771 KY Hwy 581, Thealka, Kentucky 41240, Party of the First Part, and

EAST KENTUCKY NETWORK, LLC, d/b/a APPALACHIAN WIRELESS, of 101 Technology Trail, Ivel, Kentucky 41642, Party of the Second Part.

W-I-T-N-E-S-S-E-T-H:

That for and in consideration of the sum of Forty Thousand (\$40,000.00) Dollars, the receipt of which is hereby acknowledged, the Party of the First Part does hereby sell, grant and convey unto the said Party of the Second Part, its successors and assigns forever, with Covenants of Special Warranty, a certain tract or parcel of land located in Martin County, Kentucky, being more particularly bounded and described as follows:

SEE ATTACHED EXHIBIT "A"
TOWER SITE

Being a part of the same property conveyed to the Party of the First Part by deed from Dewey C. Parsley, dated July 8, 2011, recorded in Deed Book 177, Page 553, Martin County Clerk's Office.

In accordance with KRS 382.135, the address to which the current year property taxes may be sent is 101 Technology Trail, Ivel, Kentucky 41642.

The Party of the First Part does hereby further grant and convey unto the Party of the Second Part its successors and assigns forever, full and complete rights of ingress, egress and regress over the remaining property from the county road to the tower site over roads located upon this property controlled by Party of the First Part to and from the tower site, and the non-exclusive right to use any existing road located on this property. In the event the Party of the Second Part desires to relocate all or any portion of an existing roadway or to construct another access road to the tower site, the location of such roadway shall be mutually agreed upon by the Party of the First Part and the Party of the Second Part. Party of the First Part further grants to the Party of the Second Part a right of way and easement to construct and maintain and operate telephone and power transmission lines over Party of the First Part's remaining property to the tower site for service of the tower and related facilities only, said lines to be located where feasible along the access road to the tower site, with Party of the First Part having input as to the location of said power transmission lines in the event Party of the Second Part changes the location of its access road. Party of the Second Part shall help maintain the existing road with gravel and any needed repairs.

TO HAVE AND TO HOLD all of the above-described real property together with the rights, privileges, appurtenances and improvements thereunto belonging unto the Party of the Second Part, its successors and assigns forever, with Covenants of Special Warranty of title.

IN WITNESS WHEREOF, the Party of the First Part has hereby set its hand the day and year first above written.
