**INTRA-AGENCY MEMORANDUM**  
**KENTUCKY PUBLIC SERVICE COMMISSION**

**TO:** Case File No. 2013-00052

**FROM:** Aaron Ann Cole, Staff Attorney

**DATE:** July 5, 2013

**RE:** Informal Conference of July 1, 2013

Pursuant to the Commission's Order issued June 21, 2013, an informal conference ("IC") was held at the Commission's offices in Frankfort, Kentucky on July 1, 2013. The purpose of the informal conference was to further an understanding of any and all outstanding issues that could lead to the development or a potential resolution of some or all of the issues in the case. A list of the attendees is attached to this memo.

Mr. Collins initiated discussion by discussing his usage of the structure located at 1400 Carrsville Road, Hampton, Kentucky. He contended that this structure is his second home, and detailed his usage of the property. Mr. Collins averred that the structure is not a hunting lodge, and that he had never referred to it as such. He stated that the structure is not part of a commercial operation, but he noted that he is being charged a commercial rate for electric service. Mr. Collins discussed the permanent nature of the structure at length, specifically noting that there is a concrete poured basement, heating, air, two deep freezers, a refrigerator, and alarm systems that operate whether he is at the structure or not.

Ms. Yates, on behalf of Jackson Purchase, began by noting that there is an error in the numbering of Jackson Purchase's tariffs that has been corrected. She stated that the structure is not a primary residence, and that there is no way for Jackson Purchase to determine with certainty how much electric usage will occur at the structure. She emphasized that since the structure was not initially characterized as a residence, it was Jackson Purchase's position that the structure is on the correct tariff and that Mr. Collins is being charged the proper rate. Mr. Nuckols also emphasized that Jackson Purchase relies on its customers' initial description of the type of service that needed to be provided to a given structure, and that here, Jackson Purchase placed Mr. Collins on the correct tariff based on his initial description of the building.

Mr. Collins contended that his structure is a permanent one and should fall under the residential tariff, and that this structure was more permanent than his mobile home that was previously on the property and was served under a residential tariff.

Ms. Yates and Mr. Nuckols averred that they were strictly examining the issue of whether Mr. Collins' property falls under the indeterminate use tariff, and relying on the initial description that Jackson Purchase received from Mr. Collins regarding the structure.

After additional discussion between the parties, Commission Staff outlined procedural options that the parties could choose following the IC, namely, that the parties could submit the record, as it stands now, to the Commission for a decision; or, the parties could decide that this case should go to hearing, and could develop a procedural hearing to that end.

Both parties agreed to submit memorandum to the Commission setting forth their preference for one of the procedural options set forth by Commission Staff.

There being no further discussions, the informal conference was adjourned.
