Campbellsville, and sold 393,027,660 gallons of water. As a result of the increase in Lebanon's wholesale rate, Marion's cost of purchased water will increase \$221,674.50, resulting in a purchased water adjustment factor of \$0.56 per 1,000 gallons.

6. The purchased water adjustment factor of \$0.56 per 1,000 gallons, as calculated in Appendix A to this Order, is fair, just, and reasonable and should be approved.

IT IS THEREFORE ORDERED that:

1. Marion's proposed rates are approved.
2. The purchased water adjustment factor of \$0.56 per 1,000 gallons is approved.
3. The rates in Appendix B are fair, just, and reasonable and are approved for services on or after July 17, 2013.
