RE: Case No 2013-00170  
Wood Creek Water District

Gentlemen:

Commission Staff has reviewed Wood Creek Water District's application in the above-referenced case. Based upon its review, Commission Staff finds that the notice of proposed rate adjustment does not comply with 807 KAR 5:076, Section 5, for the following reasons:

- It fails to state the amount of the change requested in a percentage.
- It fails to state the amount of the average usage and the effect upon the average bill for each customer class or meter size.
- It fails to state the address of the utility's office where the public may view the application.
- It fails to state that the documents can be reviewed at the offices of the Public Service Commission or using the Public Service Commission's website.

To cure these deficiencies, Wood Creek Water District should issue a new notice that complies with 807 KAR 5:076, Section 5. Notice of the issuance of a revised notice with a copy of such notice should be submitted to the Commission within 20 days of the date of this letter. Wood Creek Water District's application will not be accepted for filing until these deficiencies are cured.

Mr. Carlos Miller  
Mr. Donta Evans
