PUBLIC SERVICE
COMMISSION

To the Executive Director,

Case No. 2013-00307

I am requesting leave to intervene the proposed rate change proposed by Joann Estates Utilities, Inc. I am Destiny Hammond; I live in the house at 7510 Chiles Drive, West Paducah, KY, 42086. Currently Joann Estates Utilities charges \$19.66 a month added to my water bill. The proposed rate will change to \$35.00 a month. This is a 78% increase from what I pay now. For the properties that he owns utilities for this gives Joann Estates Utilities around \$50,000 more a year. For what he needs this increase I do not know. I've seen none of his equipment or help or use in my area. This letter said I should get an application from Joann Estates Utilities to intervene the rate change. I called Joann Estates Utilities which are located in "Big John Tree Transplanting" and they said, "we do not have any applications, you just have to write a letter." So this "Big John Tree Transplanting" is all I see that Joann Estates Utilities will be using this rate increase for. There isn't even a sign saying "Big John Tree Transplanting" has Joanne Estates Utilities on the property. This would be very confusing to me as to why I would have to give this ill standing company more money. Thank you for your time in reading and considering this.

NOTICE

Joann Estates Utilities, Inc. has filed an application with the Public Service Commission proposing to increase its monthly sewer rate from \$19.66 to \$35.00, an increase of 78%. Joann Estates believes it could justify an even greater increase, but is proposing the increase to \$35 to reduce the burden upon its customers. In addition, Joann Estates believes the proposed \$35 rate would still be lower than the average rate charged by similar sewer utilities in Kentucky. The proposed increase is necessary to provide adequate sewer service and to fully comply with existing and new environmental requirements. The proposed effective date of the change is September 16, 2013.
