RE: Salt River Electric Cooperative Corporation
Case No. 2013 -00343 – Filing Deficiencies

Dear Mr. Dureoun:

As per our letter from Linda Faulkner, Filings Division Director, dated September 25, 2013, Salt River Electric wants to correct the two deficiencies that were noted.

(1) 807 KAR 5:001 Section 14(2)(a) – A certified copy of the Articles of Incorporation and all amendments, or a written statement that the articles and all amendments were filed with the Commission in a prior proceeding and a reference to the case number of that proceeding.

A copy of the Articles of Incorporation of Salt River Electric Cooperative Corporation were filed with the Commission in our last general rate increase, Case No. 92-560.

(2) 807 KAR 5:001 Section 15(2) (f) – An estimated annual cost of operation after the proposed facilities placed into service.

Based on the history of our existing 26,131 square foot warehouse, we are estimating that the annual cost of the operation of this proposed new warehouse will be \$76,595.45.

If you have any questions or require any other information, please let us know.

THANKS!
