Item 1) Refer to Kenergy's response to Item 3.b. of Commission Staff's Third Request for Information ("Staff's Third Request"). Was Kenergy indicating that the changes reflected in proposed PSC No. 2, Fourth Revised Sheet No. 33, filed in its application and in response to the Commission's February 4, 2014 Order in this case, were proposed in error? If not, explain the meaning of the response. If so, explain why Sheet No. 33 should reference only the 2009 smelter contract and not be revised to include reference to the August 19, 2013 and January 31, 2014 contracts under which the smelters are currently being served.

Response) Kenergy is withdrawing the previously submitted Revised Tariff Sheet No. 33 and substituting the attached Revised Tariff Sheet 33. The purpose of the latest revision is to reflect that power is no longer sold by Kenergy to the Hawesville and Sebree smelters under the 2009 contracts. However, a tariff remains for the post-termination obligations of the smelters under the 2009 contracts.

For power sold to the Hawesville smelter from August 20, 2013, and after, Kenergy submits the attached Tariff Sheet 33-A.

For power sold to the Sebree smelter from February 1, 2014, and after, Kenergy submits the attached Tariff Sheet 33-B.

Item 2) Refer to Kenergy's response to Item 5.a. of Staff's Third Request. The response confirms that Kenergy serves 20 direct-served customers. Refer also to the attachment to Item 21 of Big Rivers Electric Corporation's (Big Rivers") response to the Post-Hearing Requests for Information filed in Case No. 2013-00199. Big Rivers response to Item 21 list 20 Large Industrial customers. As asterisk at the bottom of the page notes that customers 1-19 are Kenergy customers and the 20th customer is a Jackson Purchase Energy Corporation customer. Reconcile Kenergy's statement that it serves 20 direct-served customers with Big Rivers' exhibit which lists 19 Large Industrial customers served by Kenergy. Include in your response the name of the 20th customer served by Kenergy that does not appear in the Big Rivers exhibit and explain why it does not appear in the list.

Response) The name of the customer not appearing on the Big Rivers exhibit is Webster Co. Coal Dotiki #3. Big Rivers decided not to include this customer because the mine fan had been permanently shut off and only minimal usage was expected to occur for lighting, etc. at the site. Usage in January 2014 was 85 MW and 32,610 KWH.
