TO WHOM IT MAY CONCERN:

The Public Service Commission is reviewing Hyden-Leslie County Water District's application for a Certificate of Public Convenience and Necessity to construct approximately 272,000 feet of water main, 3 pumping stations, and 2 ground storage tanks in Leslie County, Kentucky (PSC Case No. 2013-00388). Pursuant to the Open Records Act, the PSC requests all documents related to Construction Contracts 15IIA and 16. The project engineer is Sisler-Maggard Engineering, PLLC. The professional engineer who has prepared the final plans is J.F. Sisler. The projects' designs and specifications were prepared in 2013. The projects were assigned WRIS No. WX21101007; WX21131008; WX21131111. DOW Records may identify the project using the following identifiers: AI # 2649, APE20130002, PWSID # 0660204-13-002.

If possible, please provide these records in electronic form. If they cannot be transmitted by electronic mail due to their size or if a temporary FTP site cannot be created to permit the PSC to access the files, the PSC requests that they be placed on a CD-ROM and delivered to the PSC by state government messenger mail. If a charge must be assessed to the PSC for these records, the PSC requests that the charge be by inter-account bill. Please contact Ms. Stella Ashley for authorization to perform the inter-account billing.

I respectfully request that receipt of this request be acknowledged. Please direct any questions regarding this request to me.
