

Inter-County shall make timely amendment to any prior responses if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any requests to which Inter-County fails or refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request.

1. Refer to Inter-County's response to Staff's Initial Request for Information, Item 4.c. The question requested that Inter-County provide the Customer Average Interruption Duration Index ("CAIDI") data for Circuit #3 of the Peyton Store Substation for the years 2005–2013. Inter-County's response provided only the CAIDI data for the years 2005–2008.

a. Provide the CAIDI data as originally requested for the years 2009 – 2013.

b. In an Excel spreadsheet with all formulas and cells intact and unprotected, provide the supporting calculations made to arrive at each year's CAIDI data for the years 2005 – 2013.

c. As was done in the Answer, provide the circuit ranking associated with the CAIDI data for Circuit #3 of the Peyton Store Substation for the years 2005 – 2013.

2. Refer to Inter-County's responses to Staff's Initial Request for Information, Items 4.a. and 4.c.

a. Confirm that the values of the responses are measured in minutes.

b. If such is confirmed, explain why the values were measured in minutes rather than in hours.

3. Provide a copy of the circuit map for Circuit #3 of the Peyton Store Substation and identify the distance from this substation to Complainant's residence and the number of customers served on this circuit.
