Other Discussion:

Mark Stephens was present to present Final pay request from Twin States. Mark also let the Board know that the Pump Station (project C) would mobilize in March 2014.

Pete spoke with the Board about the tank repairs as well as the need for a main replacement to serve the planned camp ground and installed hydrants at Sandy Lee Watkins Park. Pete proposed to the Board having HDR complete a hydraulic model of the system before any tank work is completed, and any decisions on how to best serve the Sandy Lee Watkins Park with water are made. The Board asked that HDR be present at the February 2014 Board Meeting to make a presentation on the hydraulic model.

The Board asked that Pete contact Pittsburg Tank and Tower on extending the quotes they had made for repairs of tanks.

The Board was told that Tariff changes would need to be made for additional deposits on large customers. Pete was asked to talk to Chris Hopgood so these changes could be submitted.

Pete reported that the Webster County Fiscal Court was not interested in installing any fire hydrants at this time.

Whereupon, all business coming before the board of Commissioners having been completed, the board unanimously declared the Meeting adjourned.
