Re: Wholesale Water Rate Increase

Dear Bill:

We have made the required rate calculations for fiscal year 2014-2015, as per the terms of our contract. A copy of these calculations is enclosed, as well as a copy of the fiscal year 2012-2013 true-up calculations.

Based on these calculations, the rate charged to the West Daviess County Water District will become \$1.640 per thousand gallons, for the fiscal year beginning June 1, 2014, an increase of 2.5% versus the prior fiscal year.

The ultimate per unit cost to West District is dependent upon annual water usage and the costs contractually allocated to your district. Future year calculations may result in fluctuations in the rate per thousand gallons. The formal calculation will continue to be prepared annually.

Please contact me with any questions, or if you need further information.

Sincerely,
