Re: In the Matter of: An Investigation of Existing and Future Service of
Bullitt Utilities, Inc. ("Bullitt Utilities") - PSC Case No. 2014-00163

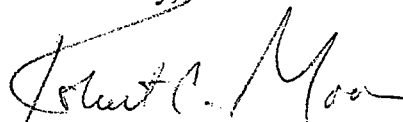

Dear Ms. Ramser and Mr. Spenard:

An issue that was discussed during the March 31, 2015, hearing in the above-referenced case was whether the final copy of the plans and specifications for the pump station and wet well to be built at the site of the Hunters Hollow WWTP had been provided to Dave Derrick, the engineer for Bullitt County Sanitation District ("BCSD"). Subsequent to the hearing, a call was made to Lynn Imaging, the printing company that made the final copies of the plans and specifications, to confirm the date that the documents had been delivered to Mr. Derrick. It was discovered that in spite of instructions to deliver the documents to Mr. Derrick, Lynn Imaging had failed to do so. Accordingly, as of April 1, 2015, the final copy of the plans and specifications have been delivered to Mr. Derrick. Bullitt Utilities apologizes for the confusion on this issue.

Please let me know if I need to take any action to provide further clarification on this issue, or if the filing of this letter into the record is sufficient.

Thank you for your attention to this important matter.

Yours truly,

/Robert C. Moore
