

I was reading something about  
the water rates might go up,  
I sure hope that this doesn't happen,  
Myself and countless others can barely  
pay our utilities as it is, there's a  
lot of widows such as myself that  
are barely able to survive, living on a  
fixed income. So I ask that you reconsider  
this.

Thank you  
JoAnn Maynard
