RE: **KU request for rate increase**

I am opposed to the Kentucky Utilities requested RATE increase. I am very satisfied with KU service (as it is our only option for electricity) and I realize there are a great deal of costs related to electric service, HOWEVER the percentage and monthly amount increase for residential service is more than I think should be allowed.

I realize a lot of customers "skip out" on their KU bills which causes a loss in revenue to KU, during winter months service cannot be disconnected due to state/federal rules and these bills do not get paid which also causes losses to the KU and I understand these costs must be recovered somewhere, BUT this high rate of increase and it is punishing regular paying customers.

Thank you for your time and attention in this matter.
