Dear Mr. Derouen:

Kentucky Rural Water Association will offer classes entitled "Sustainable Management of Rural and Small Water and Wastewater Systems Workshop." These workshops, jointly developed by the USEPA and the USDA, are intended to help rural and small utilities conduct utility assessments and develop action plans for improving utility management. These workshops will be delivered to utilities upon their request and will offer six (6) hours per session of continuing education credit.

Training for the workshops will follow the guidelines in the "Rural and Small Systems Guidebook to Sustainable Utility Management" (see Table of Contents and Introduction enclosed). The 41-page Guidebook is available online from the USEPA website (<http://water.epa.gov/infrastructure/sustain/upload/SUSTAINABLE-MANAGEMENT-OF-RURAL-AND-SMALL-SYSTEMS-GUIDE-FINAL-10-24-13.pdf>). Any handouts provided to attendees will come from the Guidebook.

Along with the first few pages from the Guidebook, a training summary/timed agenda for these workshops is also enclosed. These classes have also been submitted to the Kentucky Board of Certification of Water Treatment & Distribution System Operators. A copy of the application is included.

With this letter and enclosures, Kentucky Rural Water Association respectfully requests that these workshops be approved for continuing education credit for commissioners as referenced in regulation 807 KAR 5:070. If additional information is needed, please do not hesitate to contact our office.

Sincerely,

Janet Cole
Education Coordinator
