Kentucky Public Service Commission: Deny KEP's Rate Increase

Petition by Roy Phillips

To be delivered to **Kentucky Public Service Commission**

Petition Statement

Tell the Kentucky Service Commission to reject Kentucky Electric Power's (KEP) proposed 12% rate increase. KEP says this will let them complete their purchase of half interest in Ohio Powers' Mitchell power plant, located in Moundsville, WV. But both KEP and Ohio Power are subsidiaries of AEP. Selling power generated at this plant to Kentucky customers would cost AEP nothing. And KEP has already been granted a 17% increase in their rates. Increasing KEP's rates will do nothing but further enrich AEP at the expense of Kentucky Customers.

There are currently 1,464 signatures. NEW goal - We need 2,000 signatures!

Petition Background

Kentucky Electric Power has announced it will seek a 12% rate increase to complete the purchase of half interest in the Mitchell Power Plant that is located in Moundsville, WV. This plant is currently owned by Ohio Power. Both KEP and Ohio Power are subsidiaries of American Electric Power. In effect, AEP is selling itself half interest in a power plant it already owns. AEP has already secured a 17% increase in the rates paid by its Kentucky customers so it can afford to pay itself back. Neither the 17% increase nor the sought after additional 12% increase are warranted. AEP owns that power plant outright, just as it owns both corporate entities involved in the sale of the half interest in the Mitchell power plant. It will cost AEP nothing to sell power from that plant to customers in Kentucky. I'm asking the KPSC to reject this increase.

People like me who live on a low, fixed income must choose electricity, or food. By the time we pay uncovered medical bills and medicine our money is gone. Just because we are elderly doesn't mean we don't have to eat or pay other bills. KY Power doesn't care it just keeps raising the rates, and always for more than the Social Security Administration gives us in a yearly raise-- they want 12% raise and Social Security only raised 1.5% They should get no more of a raise than we do, We must do without necessities of life so they can buy something they already own part of. It's not right and I want to voice my objection to them getting any raise.

The electric company gets over 80 percent of everyone's income through the winter months . It's hard enough for a poor family to make it through these months anyway. How can we possibly pay anymore some families go without eating just to pay the electric bills right.

- 1409. *Jonah May* from Kimper, KY signed this petition on Jan 25, 2015.

Please do NOT allow this, the people of Eastern Kentucky is hurting bad enough with the EPA, under their great leader, destroying the number 1 industry here, COAL mining. For the people on Social Security, the COLI for this year was only 1.7 percent, my understanding this was based on the price of gasoline starting to lower a little. The price of groceries for one, was not taken into consideration, since they seemed to have doubled or more in some case, along with increases in everything else.

- 1408. *SHERRY MULLINS* from JENKINS, KY signed this petition on Jan 25, 2015.

People like myself on fixed incomes can NOT afford an increase! Neither can the millions of workers on minimum wage! We must choose between medication and paying bills. Please deny the increase.

- 1407. *james polly* from burdine, KY signed this petition on Jan 25, 2015.

We cannot afford another rate increase! Folks like us are barely making it as it is. A rate increase would be devastating for our area. Do not allow it!!!!!!!!!!!!!!

- 1406. *timothy c. caudill* from blackey, KY signed this petition on Jan 25, 2015.

can't afford the increases

- 1405. *Delissa Hopkins-Simpson* from Shelbiana, KY signed this petition on Jan 25, 2015.

I don't see any reason for an increase. We are paying way to much now.

- 1404. *IVAN* from whitesburg, KY signed this petition on Jan 25, 2015.

We are struggling to pay bills ever month, and raising, an increase on the kep, is not helping. People.Look how many people is struggling to pay it now and raising the kep is not an option. Cause it's not the only bill we have to pay.Thank You.

- 1403. *Brenda Jones* from Jenkins, KY signed this petition on Jan 25, 2015.

We can't hardly pay the 450.00 bills we are getting now. We need lower bills not raise them higher!

- 1402. *Lori Varney* from Betsy Layne, KY signed this petition on Jan 25, 2015.

this is BS... When my power bill starts getting real close to the cost of my rent or mortgage, there is something fundamentally wrong! We demand a stop to this. We also DEMAND a criminal investigation on KP over charging us.

And with all the job layoffs in eastern KY, this would not be feasible at all. We already pay a fortune. Two years ago, I was without electric for 18 days due to snow. My bill was still almost \$200. Electricity prices are already high enough, especially during the winter months. Why increase our power bills by another 12%? With the way the economy is at the moment, raising the power bill by another 12% , it will make it much harder to pay the bill. On top of that, people budget their bills, increasing it will cause people to start getting behind on their bills. I for on do not approve and I'm sure many many other people would agree with me here. Think about the people, not what's going to increase your wallet size! Look around, all these things people need to survive or make living more comfortable in this world is getting harder and harder to obtain or pay for. I guess money does truly

make this world spin.

My electric bill for one month was 410.00 which I think is completely stupid we are paying enough as it is and I think it just a complete shame that they keep hiking it up when people are struggling to stay afloat as it is with gas, groceries and all the other bills not counting the enormous electric bills that are being handed out every month .. STOP THE INSANITY ALREADY PLZ.

AEP to CUT OUT THE WASTE!!!! from TV ads and more. AEP needs to work for the customers not to have a WAR ON COAL!!

- 876. *Gerald Robinson* from Pikeville, KY signed this petition on Jan 2, 2015.

The last two rate increase that was gave by the Public Service Commission to AEP. The next few days AEP handed out scholarships. This sure did look back on Public Service Commission. Now it is time for the PSC to take a audit on what the rate increases are being use for! Coal keep the lights on, and AEP rate increases keeps on" WE WILL HAVE TO MOVE ON"

- 875. *Kenneth Ridler* from Virgie, KY signed this petition on Jan 2, 2015.

The citizens of Kentucky are already paying too much for electric. Jobs are scarce and money is tight and you want another increase? Please vote NO to any further increases!

Please public service commission deny KEP rate increase there are to many that can't pay their bills already because they are on a fixed income. AEP found out they get a 1.7% increase so they are taking that what a shame.

- 711. *Roger D Compton* from Pikeville, KY signed this petition on Dec 29, 2014.

AEP'S MANAGEMENT system is so gross that to ask for a rate increase before they fix their own problems is an indication of how poorly managed the company is.

I don't understand why kep keeps wanting more , when we keep getting less. Most of Eastern ky have suffered from the switch from coal to natural gas. Most are laid off and it just keep getting worse. Then people that are on fixed income. We're all barley making it now , let alone having another increase. It's almost like being asked if you want power this month or food

- 707. *Erica Sayers* from Lick creek, KY signed this petition on Dec 29, 2014.

Stop the war on coal miners! Not a war on coal, it's war on our families!

- 706. *Matthew Dillon* from Raccoon, KY signed this petition on Dec 28, 2014.

These increases during a very trying economic time are just making it harder on people to live here. Is it not enough that half the miners here are laid off and construction is at a crawl. Quit kicking your customers when they are down idiots.

- 704. *Kimberly Honaker* from Kimper, KY signed this petition on Dec 28, 2014.

It needs to go back to the days of lanterns, and candles.. You cant keep raising the cost of power, no one will be able to afford anything.. Pretty soon people will have to start selling body parts to pay their power bill!!

- 703. *June Akers* from Prestonsburg, KY signed this petition on Dec 28, 2014.

No other business gets to pass on their wpexpenses, what makes them so special. Monopolies aren't legal in this country, yet what competition do these power companies face??

- 702. *Erica Dillon* from Pikeville, KY signed this petition on Dec 28, 2014.

We can't afford it as it is! People are losing jobs and the bills are increasing? How does that make sense? Stand up for the citizens, not the corporations!

AEP already rips my back out every month, why do they need more. Maybe investing in a more cost efficient and renewable energy source would be a wise choice, but that would be well beyond reseasonable for a company who's share holders only want to line their pockets and make their customers pay for an additional plant because they wouldn't keep the original one up to code throughout the years.

You all don't want people to pay in payments because you want full amount but what do want people to do when the bill is \$600, for most people that's probably what they have to live on for that month. It's gonna get to where you will have to chose from one month to the next rather you will feed your family or freeze..

You need to think of the working people. It takes two people to work and survive now a days. Some people actually work for there money and are sick of paying higher electric bills. Everything from the power, water, sewer, and even our insurances are raising, but our pay isn't. Think about this long and hard and don't raise it any more.

I just signed the opposition petition about the KEP Power Raise... Here are my comments I made with it... First of all, the request to purchase half interest in the Mitchell Power Plant owned by Ohio Power should have been denied. Second the KEP should be made to update the Louisa facility to burn East KY Coal instead of both ..asking for an increase and hurting our KY miners by shutting down the Louisa Plant. If they want to create and sell Electricity in KY...They should have been made to retrofit the Louisa plant to comply with standards that have been set. So, the request to purchase the Moundsville plant should have been denied. Thirdly, the Kentucky Electric Power Company should be made to properly maintain their transmission lines and remove overgrown vegetation from the lines. This company continues to ask for increases..from the folks who have suffered the most from the economic downturn... and receive the least service to boot. And the poor, and folks on fixed incomes will have to choose between "turning the juice off and putting food on their tables." This petition for a rate raise for KEP is a tragedy for our citizens in East KY. I hereby submit my opposition to the rate increase

First of all, KEP should be made to update the Louisa facility to burn East KY Coal instead of both ..asking for an increase is only hurting our KY miners by shutting down the Louisa Plant. If they want to create and sell Electricity in KY...They should have been made to retrofit the Louisa plant to comply with standards that have been set. Second, the Kentucky Electric Power Company should be made to properly maintain their transmission lines and remove overgrown vegetation from the lines. This company continues to ask for increases from the folks who have suffered the most from the economic downturn and receive the least service to boot. I don't think people should have to choose between paying a power bill or putting food on their table! This petition for a rate raise for KEP is a tragedy for our citizens in East KY. dont u think we pay enough,people on fixed incomes,cant buy food,enough allready

- 301. *Jonah May* from Kimper, KY signed this petition on Dec 27, 2014.

If old people get one dollar on fixed income, Gov. and Utilities will try to take away two, this should not be allowed to happen, it is still being produced with coal at Moundsville, so why not keep the Louisa, Ky. plant operating, they are already charging us a Transfer fee for this power..

- 300. *Sandy Keene* from Phyllis, KY signed this petition on Dec 26, 2014.

Why raise our rates? Was told the last time to cut trees down so we don't have power outages. I don't see that many cut, plus what they did they left hanging over a cliff to slip off on a car. My power goes off all the time and still get charged on my power bill. How can it be the same as the previous month and be out 5 days? NO INCREASE let them make sure the workers they have are out doing their jobs.

- 103. *John Urconis* from Belfry, KY signed this petition on Dec 20, 2014.

if you would stop changing from coal to gas you wouldn't have to raise our rates and people in this area are hurting bad enough as it is by being out of work and can't hardly afford to pay the electric bills now. It is a sad day when a family has to choose wether they put food on their table or keep the electricity on to keep from freezing to death all of this has to stop about being about me, me , me to wording about our neighbors that was the way it was when I was growing up if you started to do something and you knew it may hurt someone well you didn't do it, we just don't look out for one another any more and that is a sad pitiful world we live in today.

Please don't give Kentucky Power Company NO RATE INCREASE!! Im having trouble paying it now. All things have raised. Food and medicine . I don't know how I'm going to pay anymore. They say coal is bad Im an older woman and I've seen people burning coal when I was a young girl every home. I don't think it's hurting the environment. It's a cheap way to heat. Gas on the other hand I believe is worse look at all the gases it's explosive. There's wells everywhere here where I live. Cancer had been in every family you very seldom heard of cancer I believe its from all the gas wells.

Since they've already been ordered to repay their overcharge why would they ask for more money? We should not have to turn around and give them more money that they don't need for this purchase? Just doesn't make a bit of sense to me. If they want more money let them give us reliable service all the time. We experience interruption of services all the time, even if it's just for a few seconds. This is very annoying and inconvenient.

Right now the price is so high we sit in a home that we can't afford to heat. And we do have plastic on the windows and thermostat stays on 65 upstairs and 68 down..this is crazy to even think that the Electric company deserves another raise. They say it will be about 30 per bill..that is what they lied about before Ours and everyone around us more than doubled. When your electric bill is more than your mortgage something is bad wrong.

Can't afford it now as is. People of fixed incomes can't pay for more when they don't have it to begin with. What keeps happening that it costs more every year for the same thing? So instead of finding out a way to cut cost it easier to force us to pay huh.

The Mitchell Power Plant that is located in Moundsville, WV. This plant is currently owned by Ohio Power. Both KEP and Ohio Power are subsidiaries of American Electric Power. In effect, AEP is selling itself half interest in a power plant it already owns. AEP has already secured a 17% increase in the rates paid by its Kentucky customers so it can afford to pay itself back. Neither the 17% increase nor the sought after additional 12% increase are warranted. AEP owns that power plant outright, just as it owns both corporate entities involved in the sale of the half interest in the Mitchell power plant. It will cost AEP nothing to sell power from that plant to customers in Kentucky. I'm asking the KPSC to reject this increase.
