John Preston ("Complainant"), pursuant to 807 KAR 5:001, is to file with the Commission the original and ten copies of the following information, with a copy to all parties of record. The information requested herein is due on or before November 20, 2015. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

For any request to which Complainant fails or refuses to furnish all or part of the requested information, he shall provide a written explanation of the specific grounds for his failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When filing a document containing personal information, Complainant shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the document so that personal information cannot be read.

1. Refer to Peoples Gas KY, LLC's ("Peoples") response to Commission Staff's First Request for Information ("Staff's First Request"), Item 3, which states in part, that "[a]n application was made by Peoples to request service at 460 Cam Branch on March 19, 2015 on behalf of John Preston. The application was denied by EQT." Does Complainant agree with the assertions made in this statement? If not, state any differences.

2. Refer to Peoples' response to Staff's First Request, Item 1, which states in part:

Peoples submitted an application to EQT, on behalf of the complainant, seeking approval for a tap on well line WL004820. The application was denied for the reason that system constraints would adversely affect EQT's operations.

Subsequent to receiving this data request, Peoples and EQT have further discussed the tap application and EQT has approved the application, effective 9/24/2015.

3. Has a customer line, including all equipment and material required to transfer natural gas from the tap on the gathering line to the property located at the Cam Branch property, been installed? If so, provide the name and address of the contractor who did each of the installations.

4. Did Peoples, or any other entity, furnish the Complainant with construction drawings specifying the installation methods and the materials approved by Commission prior to service installation? If so, provide the documentation received.
