PARTIES OF RECORD

RE: Case No. 2015-00296
Graves County Water District
(Transfer of Control; KRS 278.218)

The Commission Staff has reviewed the documents entered into the record October 13, 2015 and has determined that the application in the above case now meets the minimum filing requirements.

Attached please find a stamped filed copy of the first page of your filing. This case has been docketed and will be processed as expeditiously as possible.

If you need further assistance, please contact my staff at 502-564-3940.

Sincerely,

A handwritten signature in cursive script that reads "Linda Faulkner".

Linda Faulkner
Filings Division Director

Mayfield, KY 42066

August 20, 2015

Mr. Jeff Dureon, Director
Kentucky Public Service Commission

RECEIVED
AUG 25 2015
PUBLIC SERVICE
COMMISSION

The Graves County Water District has been notified by The Sedalia Water District that they are dissolving and the Board members have resigned and notified the Graves County Judge Executive. This situation has come about after the certified operator Eric Young resigned from his position of operator, meter reader, maintenance and billing clerk. As a result, The Graves County Board was contacted by the Sedalia Board and asked to take over all ownership and operations. In order to provide the Sedalia community with properly treated drinking water the Graves County Board agreed to take over the system. We have been running it like the other systems since Jan. 1st, 2015. The Graves County Board has done this in order to solve the problem.

Enclosed you will find 10 copies of our latest financial statement, the Graves County Fiscal Court boundary for the Sedalia Water District, and a resolution from the Graves County Fiscal Court approving the acquisition. I have also included a map of the Graves County System and including the Sedalia System. I would also like to request a waiver and /or deviation of any other requirement for information not included in the paper work submitted within.

Again, The Graves County Water District has all treatment, maintenance, billing, meter reading, etc. for the system. We have already added Sedalia to our GIS system and have GPS coordinates on all meters and valves. We have also had engineering estimates done to provide an alternate and possible primary feed from an inner connect with the Consumers area of the Graves County System. This would provide redundancy for the Sedalia community and Graves County Elementary School located there.
