Re: Increased rate for water usage

To Whom it may concern:

Notwithstanding the importance that water is to each of us, the notification of rate increase will affect all residential customers. Those will include seniors to young families with fixed budgets and fixed incomes. We understand that keeping up with ongoing maintenance is necessary and important. Please consider no increase to a minimal increase in consideration of those who will have to make such a payment.

Sincerely,
James and Carol Tuttle
(a senior citizen couple on a fixed income)

Leak puts senior in debt

Jennifer Garland, a social worker with the Lexington Senior Center, is requesting \$241.08 for an overdue water bill for a senior in Lexington.

In December, a water

leak caused her bill to be higher than usual. She is now without water service and staying temporarily at a cousin's house. Her sole income is from Social Security, which is just enough to

make ends meet each month. After she gets her water service restored, she will be able to meet her monthly needs.
