COMMISSION STAFF'S SECOND REQUEST FOR INFORMATION TO
CLARK ENERGY COOPERATIVE, INC.

Clark Energy Cooperative, Inc. ("Clark Energy"), pursuant to 807 KAR 5:001, is to file with the Commission the original and ten copies of the following information, with a copy to all parties of record. The information requested herein is due on or before September 30, 2016. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Clark Energy shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to which

Clark Energy fails or refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When filing a paper containing personal information, Clark Energy shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Refer to Clark Energy's response to Item 5 (i) of Commission Staff's First Request for Information, and the Application, Exhibit 4, which gives a proposed summary of benefits, but without value assignments. Provide a copy of any cost/benefit analysis performed by Clark Energy, from 2001 until the present, during its transition from manually read electromechanical meters, through PLC TS1 and TS2 systems, up to the current proposed RF AMI system. If no cost/benefit analysis was performed, prepare and submit such an analysis. In the event that a cost or benefit is unquantifiable, a detailed discussion should be provided.
