PUBLIC SERVICE
COMMISSION

To:

Kentucky Public Service Comm.

Case number - 2016-00142

To Whom It May Concern:

Hello,

My name is Pamela Blewins and I am a current resident of Martin County, Ky, where the Martin County Water District is located. I have been a paying customer for over 15 years and it has come to the point that I am having to juggle my utility bills, insurance, health insurance, groceries, and medications. As a resident of this county I feel we as citizens of this county have been left in the dark about the inner workings of this

so called water company,
Why should we have
to pay for the past
financial issues of this
Water district, so much
has been swept under
the rug of where the
money has gone over the
last 10 to 20 years because
it sure hasn't went
to keeping the infrastructure
of the water system
maintained but I bet
everyone that had their
hands in the money jar
was maintaining their
comfortable life style, while
the poverty stricken
people of this county paid
for it. At least three
quarters of Martin County
citizens live below
poverty level, on fixed
incomes, we cannot

or should not be responsible for bailing out an irresponsible group of politicians that were greedy and was never held accountable for all the thievery that has went on behind closed doors, Martin County Citizens can not afford another raise on their water bills. Let me repeat that, Martin County Citizens Can Not Afford Another Raise on our poisonous water that we can only use to flush toilets, wash clothes and take showers. Really Come on Do Not give this water district another raise!

Sincerely -
Fann Blewins
